Sir,

I have the honour to submit the enclosed plans (Nos. 18E/1 to 18E/4) and estimates amounting to Rs. 8,880 for certain additions and improvements to the building occupied by the European Convent Girls' School, Tangasseri, and to recommend that under article 56 of the Code of Regulations for European Schools a half grant not exceeding Rs. 4,440 may be sanctioned, payable when funds are available. The Inspectress of Girls' Schools,

Southern Circle, who inspects the school has certified to the urgency of the work, and the correspondent ^{who} ~~also~~ has the necessary funds to complete it is anxious to commence the construction.

E.W. Note.

The Director of Public Instruction submits 4 plans bearing D.P.I Nos. 18 E/1, 18 E/2, 18 E/3 and 18 E/4 and a detailed estimate amounting to Rs. 8880/- for a grant-in-aid towards the cost of additions and improvements to the building occupied by the European Convent Girls' school at Tangasseri, Malabar District.

II. The plans and the estimate have been examined in the Chief Engineer's office, and it is observed that they contain various defects a few of which are as summarized below:-

(1) According to the report accompanying the estimate it is stated that the design is so prepared that another storey would eventually be added to serve as a dormitory. The pressure on the verandah piers would then exceed the permissible limit of two tons per Sq. ft. on laterite. In order that a two storeyed building may be erected it is therefore necessary that the design should be modified so that the pressure nowhere exceeds this limit, or, the ground floor walls should be constructed with bricks in lime mortar. The additional cost entailed by adopting the latter suggestion would approximately amount to Rs. 500/-.

(2) The dimensions of the members of trusses and other roof timbers are not figured on the drawing. A lump sum provision of Rs. 90/- for each truss is provided in the estimate, and this rate is not supported by detailed data. Details for half trusses supporting the purlins and for connecting hip rafters with the (cantilever) ridgepiece in rooms A and B are not given.

Plain Mangalore tiles with bamboo mat ceiling are provided in the estimate for roof covering and jungle (Thembavu) wood for roof trusses. Teak or any other equally good wood applicable to Appendix I of Circular Memorandum No. 116 C., dated 4th January 1913 should be used for trusses: flat tiles or ceiling tiles underneath Mangalore tiles are recommended to be used for buildings on the west coast instead of mat ceiling.

-H-

With these remarks, the plans and the estimate are returned for revision.

IV. Attention is drawn to the rules, contained in Circular Memorandum No. 116 C., dated 4th January 1913 regarding the submission of plans and estimates for approval of Government.

Department.

Sir,

With reference to Government Memo. No. 589 B-2, Home (Education), dated 20th September 1917 and reminders thereon regarding the submission of revised plans and estimates of the European Convent Girls' School, Tangasserri, I have the honour to state that the Correspondent has now resubmitted the original plans and estimates with the intimation that owing to the urgency of the need for increased accommodation, the work has been completed according to the original estimates. As she was distinctly informed in May last that permission to begin work could not be given before the plans and estimates were approved

2
and as the building work was begun and completed in violation of
the above condition even while the question of the revision
of the plans and estimates was pending, I have informed her
that her application for grant cannot be entertained.

I have the honour to be,
