There is a building grant of Rs. 2, 25, 000 for secondary schools. Rs. 4, 500 has been spent up to date. The balance is Rs. 2, 20, 500. The expenditure has been sanctioned in the current year. The balance is Rs. 2, 20, 500. The expenditure has been sanctioned in the current year. The balance is Rs. 2, 20, 500.

I don't know whether the Hon. member means
building up parts of schools under private
management or provision for buildings
for schools under public management.
~~But~~ Public provision is not made separately
for backward schools under the first head
I suggest a amendment:-

the allotment for ~~schools~~ building work for schools under private management in the current budget is revised estimate Rs 2,50,000. and out of this Rs 4,987 has been spent up to date. It is not possible to say how much the balance will be spent before the end of the year since this depends on what buildings are completed by that time.

There is no separate allotment for birding grants
on account of non-availability.

Reimbursement of Rs. 1.7 lakhs has been provided in the current budget for construction of ~~100~~ secondary school buildings for secondary schools under local bodies. Scheme for the expenditure of this sum ~~action~~ before ~~for~~ ~~and~~ bareilly functions is a total amount of Rs. 43,440. How much of the balance will be sanctioned within the year depends largely on the degree of promptitude of certain local bodies in

in bring their scheme to maturity.

2. The above answer is submitted for approval. Perhaps for the words "certain local bodies" in the last clause "the local bodies concerned" may be substituted.
