| (6) | Maistries Vernacular Drawing class | | |
| (7) | Machine Drawing..... | | |
| (8) | Perambur Apprentices class | | 1 - 11 - 1917. |

The present course in Mechanical Engineering (1st and 2nd year) and Plumbing (1st and 2nd year) classes will be over by the middle of March 1918 and arrangements have to be made for holding examination in these classes.

2. Last year Messrs. Madeley and Coats were the examiners in plumbing and Mechanical Engineering, respectively, and the arrangements worked very well. I accordingly request that I may be authorised to ask these gentlemen to examine the classes this year also at the same rate of remuneration as was provided last year in G.O. No. 641 15-5-17 viz. Rs. 60 for setting each paper plus Rs. 3/- for each answer paper corrected. I propose to ask Mr. Madeley to examine the Plumbing classes (1st and 2nd year) and Mr. Coats to examine the Mechanical Engineering classes (1st and 2nd year).

3. With regard to the other classes, Mr. Fyfe states that he is not satisfied that they are quite up to examination standard and suggests that the classes should be continued and the examination postponed until about the end of April 1918. The appointment of Mr. Verghese who joined duty as the whole time lecturer in the Madras Trades School on the 27th September 1917 and who is in charge of all these classes however terminates on the 26th March 1918 (vide No. 997, Home (Education), dated the 31st July 1917), and the course suggested would necessitate extending the appointment of Mr. Verghese. I am not in favour however of terminating his appointment even

the Term of appointment of Mr. Verghese is extended, I propose to continue the Electric Wiring classes up to the middle of May and then request the Electrical Inspector to Government ~~xxxxxx~~ to conduct an examination on his own account about the 10th or 12th of that month. The school will then be closed for four weeks from about the middle of May till about the middle of June and the two Drawing classes (Machine Drawing and Maistries' Vernacular Drawing) and the ~~Plumbing~~ ^{Pearlman} Apprentices' classes will be re-opened after the holidays and the Mechanical Engineering and Plumbing classes about the middle of August 1918. Detailed proposals for the new year's work in Mechanical Engineering and Plumbing will be submitted later.

The expenditure on account of remuneration to examiners which will become payable only next year and the pay of Mr. Verghese can be met in next year's budget.

Endorsement of the Accountant General, No. Tri. P.A. 19868, dated the 6th March 1918:-

F o r w a r d e d.

Provision for a full year has been made in the Civil Budget estimate for 1918-19 on account of the pay of the lecturer.

3. In regard to the second, Mr. Verghese was in G.O. No. 997, dated the 31st July 1917, appointed a whole time lecturer on Rs. 250 per mensem for a period of six months. The school, as will be seen from the G.O. ibid, is at present on a temporary basis. But Mr. Innes in submitting a copy of Mr. Fyfe's report of the existing Industrial Schools stated that the school was working on right lines and that he would submit detailed proposals for the retention of the school on a permanent basis, as soon as orders are passed on Mr. Fyfe's report. In the circumstances the proposal to retain the services of Mr. Verghese for one year ~~for~~ the reasons explained in para. 3 of page 2 C.F. may be approved.
