G.O. No. *406*

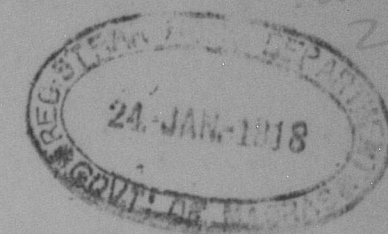

DATED *25 . 3 . 18*

INDEXED

[Despatch Abstract.]

M. R. Ry P. N. Goud.

Informing ----- that the Government are unable to recommend the inclusion of his name in the list of persons suitable for appointment in the Indian Educational Service and that he should first apply for admission to the Teachers' College if he wishes to enter service under the Madras Government.

To,

His Excellency,

the Governor in Council,

Madras.

May it please your Excellency,

I, the undersigned, a non-brahmin belonging to the Ediga caste, request your Excellency to register me as an applicant for an appointment in the Imperial Educational service. I have secured the degrees of Master of Arts, and Bachelor of science, in the university of Edinburgh, my subjects being Chemistry, Physics, Mathematics, Education and Mercantile Law.

I had not brought with me the testimonials from the professors, as I intended to engage myself in research work. But my present circumstances do not allow me to entertain such ideas. So I have called for the above mentioned testimonials, which, I will submit on their receipt. Now, I am sending copies of the university class certificates.

I therefore beg your Excellency to favourably consider my application and grant me a suitable position in the Imperial teaching staff of this Presidency.

your most obediently,

May it please your Excellency,

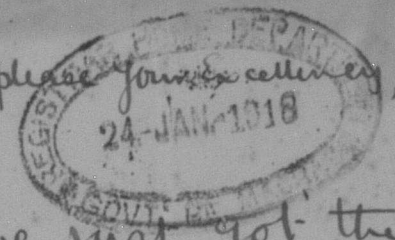

P. N. Goud.

Gooty,

(Anantapur District)

May it please Your Excellency,

as

I have just got the
testimonials from my Professors
I am sending them herewith.
I request Your Excellency
to recommend me to
the Government of India
to give me an appointment
in the Imperial Educational
Service.

SH

Yours most obediently
May it please Your Excellency
P. V. Goud.

3
University of Edinburgh,
Mathematical Department,

1917 December 6th.

4

Mr. P. Narayana Goud obtained this year the degree of B.Sc. of the University of Edinburgh, taking Chemistry as his main subject (passed on an Advanced Honours standard) and Mathematics as one of his subsidiary subjects (passed on an Intermediate Honours standard). His mathematical work was done in my classes during the academic years 1914-15 and 1915-16, and I may say that he made a most favourable impression on me. He showed himself very capable and I should most willingly have accepted him as a member of the Advanced Honours class in Mathematics if he had decided to continue his studies further in the subject. His record in the Mathematical Department was in every way satisfactory.

Mr. Goud also obtained the degree of M.A. of the University.

In regard to personal qualities, he stood high in the opinion of myself and his other teachers, and I have every reason to believe that he was liked and respected by his fellow-students. I understand that he held the office of President of the Indian Students' Association an honour which testifies to his capacity, good sense, and public spirit.

I wish him every success in his life work in his own country.

Sd/ E.T. Whittaker
Sc. D., F.R.S.
Professor of Mathematics
in the University of Edinburgh.

5

Chemistry Department,
University of Edinburgh,
6th December 1917.

Mr. P. N. Goud was a student in this department for three years, taking both lecture and laboratory classes. His work during the last year of his attendance was specially satisfactory, and he graduated as Bachelor of Science with chemistry on the higher standard. This is equivalent to an Honours Degree in Chemistry in an English University. I can recommend Mr. Goud as one likely to prove successful in an academic teaching position.

Spare copies:

Ref. on Cur. No. 1047/18,

Station Madras, Dated the 5th March 1918. 191

From (Name) The Hon. Mr. J. H. Stone, M.A. F.R.H.S.C.I.E.,
(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

In returning herewith the application of M.R.Ry P.N. Gowd together with the enclosures, referred to me for remarks with Government Endorsement No. 201 A-1, dated 31st January 1918, I have the honour to state as follows:-

The applicant has specialized in Chemistry, but his qualifications are not, I am advised, high, his attainments ranking below rather than above those of an honours graduate in Chemistry of the University of Madras. He has had experience neither in teaching nor research. I advised him if he wished to do anything in Chemistry to remedy this by further work for instance, in the Tata Institute.

18/

I certainly could not at present recommend the inclusion of his name in the list of applicants for a post in the Indian Educational Service.

His attainments would perhaps justify his being appointed to the Provincial Educational Service, but I was not particularly favourably impressed by his personality and should hesitate to offer him even this encouragement until he has shown what he can do under reliable supervision either as a specialist in Chemistry or under training in the Teachers' College and I would suggest as an alternative to my first suggestion that he should apply through me for admission to the Teachers' College next July.

I have the honour to be,

S i r,

Your most obedient servant,

G. W. Massey

for Director of Public Instruction.
