From (Name) F. B. Evans Esq., I.C.S.,

(Designation) Collector of Malabar.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I have the honour to submit for the approval of Government and publication in the Fort Saint George Gazette a draft notification for the acquisition of 3.88 acres of land for a play ground for the High School at Ottapalam.

2. The ground was selected by the Manager of the High School and approved of by the Inspector of Schools. The owner of the lands has no objection to the acquisition. The mortgagee is not willing to part with the lands before the expiry of the period of his mortgage. His objection is frivolous. Of the Kanomdars and Tenants only K. Narayanan Nair objects to the acquisition. His petitions

and statement are enclosed. I have inspected the site and an alternative site selected by the Divisional Officer, Malappuram. The second site is smaller in area and the cost of levelling it will be about Rs.1000 more than that of the first site. Objections have been raised against the acquisition of the second site also. On the whole I think it is preferable to acquire the site selected by the Manager. I recommend that Narayanan Nair's objections may be overruled.

3. The cost of acquisition is estimated at Rs.875-13-8 and will be met from the grant of Rs.1500 sanctioned by Government in G.O. No.47 Ednl. dated 15-1-1915. The Manager has deposited the amount in the Treasury.

I have the honour to be,

Sir,

Your most obedient servant,

thekkumuridesam are the jenmam property of Vengeri Mana mort-
gaged with ~~xxx~~possession to me along with other properties for
24 years from 1081 M.E.; there are 12 years more for the mort-
gage to expire. I perused the papers regarding the acquisition
of the above survey numbers for the purposes of Ottapalam High
School and the statement given by Vengeri Vasudevan Nambudiri.
I am not willing to make over the jenmam right of the land to
Government before the mortgage period expires. If Government
acquire them without my permission the jenmam value of Rs521-9-11
should be paid to me. No part of the amount due to tenants need
be given to me.

Sir,

I understand that Mr. Prabhakaran Thampan, Proprietor
of the Ottapalam High School has made an application to put the
land acquisition act in force for the purpose of acquiring a
site for a play ground and that a portion of my land is also in-
cluded in the scheme. I beg to state that I have the following
objections to be brought to your notice in connection with

that acquisition and request that they may be favourably considered.

There are other sites equally if not more fitted for a play ground than the one now proposed and those sites are contiguous to the school premises are closer to it and are easily accessible. There is available space behind the back of the school building and also near the Travellers' bungalow. Selection of such sites causes hardship to less number of people than it would in the present place which is entirely detached from the school premises.

It is very hard to be the victim of a compulsory act (land Acquisition Act) to satisfy the private demands of a particular individual when the persons affected are so poor like myself and the helpless potters occupying the adjoining paramba included in Mr. Tampan's present scheme who (the potters) had to my knowledge not less than half a dozen shifts during the last dozen years or so: particularly in view of the fact that the whole paramba quite unoccupied and affording no chance of any particular distress to any party has been lying there quite naked causing obstruction to no one's views and intentions, for years after the school was established at Ottapalam. When the land was in this condition, I understand that the higher authorities of the school selected other sites for a play ground and when it was partly occupied by helpless men and when arrangements have been completed by help--less myself to build a house for my children and when a compound wall is put up the patriotic eyes of the school manager sees the realisation of his pet dreams of a suitable play ground most inconveniently away from the school but eminently convenient to cause distress to persons less fortunately situated than himself: and this manifestation of patriotic zeal becomes all the more interesting when it is remembered that the original scheme of a play ground is given up on the score of a few more rupees that will have to be spent in levelling the site hitherto contemplated: it is perhaps thought by the manager that the earth of the walls of the poor

potters etc. and my poor wall will cost only a nominal sum but when levelled down will serve as an everlasting and never-to-be-forgotten monument to his public spirit to be revered by the posterity and the anguished cries of the victims will help to perpetuate his memory who sacrificed so much for his noble minded and disinterested patriotism. Further the permanency of the school is not guaranteed by Mr. Tampan and there is no certainty of his or his successor's continuing to run it.

It took me years of patient and costly negotiations to get that piece there and every arrangement is made to build a house for my children at an early date. I am a medical subordinate now employed in Cannanore. I have been roaming from place to place during the course of my service for years together and was able to get that site only recently; and this site I reiterate has been lying idle for years after the school came into existence and it is very very strange that the present idea of a play ground struck Mr. Tampan only when a wall was put up for my compound.

I feel that I deserve of the Government every facility to build a house and I cannot bring myself to believe that the Government will cause me any hardship.

I have to emphasise the fact that if the portion of my ground now demanded is taken away the whole site becomes useless for the purpose for which I have been toiling for years spending an exorbitant amount.

I beg to add that I was not born with a silver spoon in my mouth like Mr. Tampan and that the loss of the very little I possess is bound to be a greater hardship to me than the slight disappointment Mr. Tampan may experience in abandoning his present scheme; he became so strangely inspired with on the sight of the poor round walls and a rough stone wall bereft of any streaks of silver in the same.

Please excuse me for this somewhat strangely-worded protest: I feel so strongly about it and I feel sure that you with your experience of the hardships of potters and itinerent medical subordinates will understand me better than Mr. Tampan born with a big silver spoon in his mouth.

I beg to conclude that I shall on no account part with any portion of my small piece of land.

I beg etc.,

Sd. K. Narayanan Nair.

I am not willing to part with a portion of my land for reasons set forth in my petitions to the Tahsildar of Walluvanad and to the Collector of Malabar.

If the Government is however inclined to take it compulsorily I request that the portion proposed to be acquired may first be marked and the valuation settled with my brother Kaipancheri San-kunni Nair of Ottapalam who is managing my affairs for me. I feel however I spent considerably more than the value now offered to me.

I feel it a great grievance that the petty earning of a Govt. servant who had to pay a much larger amount than the estimated value has to ^{be} dealt with in this way when alternative sites nearer to the school and more conveniently situated are available.

My information is ~~that it would entail higher cost to the proprietor of the school in levelling those sites. I believe that it is not so and if it be so I am prepared to make a free gift of the sum now offered me viz. Rs.105-5-2 to the school towards meeting the alleged extra expenditure, in case my bit of land is left off. I am even prepared to pay gratis up to Rs.150 by way of meeting any such extra expenditure to testify to the depth of my grievances and indescribably painful sentiment.~~ that it has been made out that it would entail higher cost to the proprietor of the school in levelling those sites. I believe that it is not so and if it be so I am prepared to make a free gift of the sum now offered me viz. Rs.105-5-2 to the school towards meeting the alleged extra expenditure, in case my bit of land is left off. I am even prepared to pay gratis up to Rs.150 by way of meeting any such extra expenditure to testify to the depth of my grievances and indescribably painful sentiment.

Sd. K. Narayanan Nair,

I beg that this my reply may be submitted to the Collector.

From

To

The Collector of Malabar.

Sir,

I understand that Mr. K. Prabhakara Tampan, Proprietor of the Ottapalam High School has made an application to your honour to put the Land Acquisition Act in force for the purpose of acquiring a site for a play ground and that a portion of my land is also involved in the scheme. I beg to submit that I have the following objections to be brought to your notice in connection with that acquisition and humbly request that they may be favourably considered.

2. The site pointed out by Mr. Tampan is not a waste-land as mentioned by him. It consists of houses with compound and house sites walled round and fenced and a well and is far from the school. The acquisition of this site means depriving a number of poor people of their houses and lodgings. The proprietor has a play ground in the spacious school compound and if he wants a second play ground which may be a luxury and not a necessity as there are many high schools with only one play ground, there are other sites closer to the school and easily accessible, one of which is a paramba to the east of the Travellers' bungalow and the Hospital compound, the acquisition of which would not render any one houseless or bring hardship or misery to any. The Deputy Tahsildar of Ottapalam lately inspected both sites and openly admitted that this site (the site near the Travellers' bungalow) was far preferable to the one which the proprietor wants. There is no house in it. It is spacious -- nearer to the public road with better access to it, less frequented by people, more open, with less number of

houses on all sides, and probably less costly in acquisition and levelling. The Deputy Tahsildar and the Revenue Inspector admitted that the acquisition of a portion of my house site renders the remaining portion of it quite useless for building a house as the remainder is a high hilly ground with no water at all.

3. It is very ^{hard} ~~bad~~ to have recourse to a compulsory Act (L.A. Act) in order to satisfy the private demands of a particular individual at the sacrifice of the interests of a portion of the public. There is no necessity in an out of the way place like Ottapalam to acquire land for a purpose like thus resort to compulsory enactments. It must be possible for Mr. Thampan to find a site by private negotiations. The permanency of the school is not yet definitely established. It may be that the successor of Mr. Thampan may not continue to run the school. There is no guarantee that Mr. Thampan himself will not at a future time give up the idea of running the school.

4. So far as I am concerned it is with great difficulty and at a ~~very~~ heavy cost that I was able to acquire the site in question. I purchased it in 1916 and got renewal of my kanom right by further payments to the jenmi for a period of 12 years. I have made every arrangements to build a house there for my wife and children. I am a medical subordinate now employed in the Municipal Hospital Cannanore. I have been ~~coming~~ from place to place with my children during the course of my service of 17 years working even in the distant Andamans (Port Blair) for over 3 years and I was able to find a place only recently where I thought I could build a house for my children and live after retirement. This site has been lying idle ever since the school was started and the idea of soliciting this site for a 2nd play ground never struck Mr. Thampan until I

became its owner and put up a rough stone wall and fence around it. Instead of giving facilities for the erection of houses to a poor Government servant like myself it is very hard that the Government should deprive me of the small house site which I possess.

In these circumstances I humbly and respectfully request ~~XXXXXX~~ that your honour may be pleased, to select another site or order the Tahsildar of Walluvanad to make a local enquiry as regards the objections herein pointed out.

I beg to further submit that if Mr. Thampan has any objection to acquiring the land near the Travellers' bungalow it must simply mean that a portion thereof belongs to his Lawyer--friend whom he wanted to oblige.

I beg etc.,

K. Narayanan Nair.

[No. 7873]. From the Collector of Malabar, No. 2262/1

A draft order in accordance with the Collector's recommendation is submitted for approval.

2. As regards the objection of Sub. assistant Surgeon K. Narayanan Nair, it is understood* that he has been ordered for duty in the Hospital Ship and now in the ship. This fact would appear to deserve the hands of Govt. somewhat sympathetic consideration of his objection. The chief objection to the acquisition of the alternative site is the cost of levelling it about Rs 1000 more than that of Narayanan Nair's site. This objection, however, disappears when it is found that the ^(original) estimated cost of the land was Rs 2,000 of which the management promised to bear Rs 500 and the Govt. sanctioned a grant of Rs 1,500 but that the actual cost of the land now amounts only to Rs 875-13-8. Deducting the latter amount from the Govt. grant and adding to the balance the sum of Rs 500 in the hands of the school authorities we get Rs 1,125 which would more than cover the cost of levelling the alternative site. ~~So far as~~ The interests of the school are concerned the alternative site appears to be unobjectionable.

3. If, however, it is decided to recommend the Collector's

I should say in general that so far as the validity of the objection is concerned I would be disposed to accept the Collector's opinion. In fact we are only concerned with the suitability of the site for its intended purpose and the character of the school.

2. In the present case the objector is a Sub-assistant Surgeon serving in the Madras Hospital ship & I am disposed to grant his objection. As the Collector is in view of this he is disposed to reverse his recommendation
