From M.R.Ry., Rao Saheb K. Yegganna Pantulu Garu B.A.,
CORRESPONDENT

T. H. SCHOOL, NARSAPUR

To

The Director of Public Instruction,

M A D R A S.

SIR,

In continuation of my letters Nos. 305 dated 18--2--17 and 313 dated 25--2--18 requesting permission to use Built-up Girders in place of the rolled steel ones for the construction of the Science Laboratory, I have the honour to state that Messrs. Martin & Co., Calcutta have consented to supply five Girders of sketch A and four of sketch B, copies of which ~~are~~ were submitted to your Office along with my letter No. 305 dated 18--2--1918. Since these are the only Girders available, we have ordered them as advised by you during my interview with you on the 4th instant.

2 I therefore request that you will be pleased to get the estimate revised in the light of the enhanced rates asked for by the company and to recommend ^{grant} for half of the additional expenditure.

I have the honour to be,

Sir,

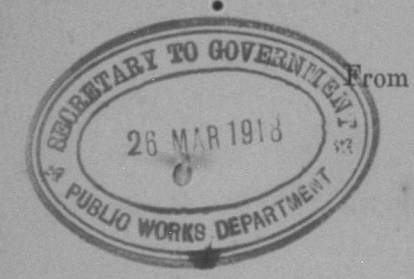

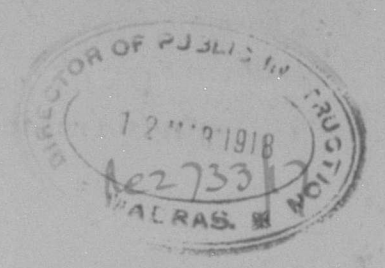

Your most obedient servant,

M.R.Ry., K. VEGGAINA GARU, Esq.,

Correspondent, Taylor High School,

NARASAPUR.

(Kistna District.)

DEAR SIR,

Built-up Girders.

In reply to your No. 286 of the 18th instant, we now have the pleasure to enclose sketches of the Beams we can supply from stock materials.

Sketch "A" shews a girder 18" x 8 $\frac{3}{8}$ ", weight approximately 70 lbs. per foot. Of this we can make up 5 @ 890/- each.

Sketch B shews a girder 16 $\frac{1}{2}$ " x 7", approximate weight 75 lbs. per foot, to which we can make up the other 4 for Rs. 990/- each.

As the plates are not all 27' long we should have to join some of the girders, and we should be glad if you would let us know at what points the upper Beams, if such are being used, cross the main beams, in order that we may decide to the best positions for joints.

Soliciting your order and assuring you of our best services,

Yours faithfully,

(Sd) Per Martin & Co.,
