Station Madras., Dated the 18th February 1918 191

From (Name) C.A. James Esq., I.C.S.
(Designation) Director of Industries.

To The Secretary to the Government of Madras,
Home (Education) Department.
Through the Accountant-General.

Sir,

I have the honour to inform Government that the
following classes in the Madras Trade School were opened
on the dates noted against each

- | | | |
|---|----------|-----------|
| (1) Mechanical Engineering | 1st year | |
| (2) -do- | 2nd year | |
| (3) Plumbing | 1st year | |
| (4) -do- | 2nd year | |
| (5) Electric Wiring (2
sections A.&B) | 1st year | 1-10-17 |
| (6) Machine Drawing | | |
| (7) Maistries Vernacular
Drawing Class | | |
| (8) Perambur Apprentices' class. | | 1-11-1917 |

The present course in Mechanical Engineering (1st and 2nd
year) and Plumbing (1st and 2nd year) classes will be over

by the middle of March 18 and arrangements have to be made for holding examinations in these classes.

2. Last year Messrs. Madeley and Coats were the examiners in Plumbing and Mechanical Engineering respectively and the arrangement worked very well. I accordingly request that I may be authorised to ask these gentlemen to examine the classes this year also on the same rate of remuneration as was approved last year in G.O. No. 641/15-5-17 viz. Rs. 60/- for setting each paper plus Rs. 2/- for each answer paper corrected. I propose to ask Mr. Madeley to examine the Plumbing classes (1st and 2nd year) and Mr. Coats to examine the Mechanical Engineering classes (1st and 2nd year)

3. With regard to the other classes, Mr. Fyfe states that he is not satisfied that they are yet quite up to examination standard, and he suggests that the classes should be continued and ~~terminated~~ ^{prolonged} the examinations until about the end of April 1918. The appointment of Mr. Verghese who joined duty as the whole-time lecturer in the Madras Trades School on the 27th September 1917 and who is in charge of all these classes however terminates on the 26th March 1918 (Vide G.O. No. 997 Home (Education) dated 31-7-1917) and the course suggested would necessitate extending the appointment of Mr. Verghese. I am not in favour however of terminating his appointment even after the present session is over, for I fear that it would be difficult to get another Indian with Mr. Verghese's qualifications on the reopening of the classes next year. I therefore request that the temporary appointment of Mr. Verghese may be extended by 12 months from 27-3-1918.

4. If the term of appointment of Mr. Verghese is extended, I propose to continue the Electric Wiring classes up to the middle of May and then to request the Electrical Inspector to Government to conduct an examination on his own account about the 10th or 12th of that month. The school will then be closed for four weeks from about the middle of May till about the middle of June and the two Drawing Classes (Machine Drawing and Maistries' Vernacular Drawing) and the Perambur Apprentices' Class will be reopened after the holidays and the Mechanical Engineering and Plumbing classes about the middle of August 18. Detailed

Proposals for the new year's work in Mechanical Engineering and Plumbing will be submitted later.

5. The expenditure on account of remuneration to examiners which will become payable only next year and the pay of Mr. Verghese can be met from next year's budget.

I have the honour to be,

Sir,

Your most obedient servant,

M. M. M.
