Q.59. Will the Government be pleased to prescribe "Malaria its prevention, treatment and cure" - as one of the subjects for students undergoing training in the training schools for teachers of the Agency tracts in Ganjam and Visagapatam districts?

NOTES.

Page 3

Home (Indy)

212

In para 9(b) of his report on the administration of the Vizagapatnam Agency, the Agent to the Govt. in Vizagapatnam brought to the notice of the Govt. the preventive measures taken to combat malaria in certain of the Agency tracts and suggested certain improvements in regard to the drainage there and wanted also specially trained Medical Officers for the Agency tracts for scientific research in connection with malaria. In his No. 222 Local of 13.2.1918. Govt. considered that such research should wait till there were men available to undertake it.

The question whether "Malaria its prevention, treatment and cure" should be prescribed as one of the Subjects for Students in training schools for teachers in the Agency tracts is mainly for consideration in Home (Indy) to which it may be transferred. ~~file under papers concerning malaria in India~~ may be passed.

Home (Govt) Department.

(T) In G.O. No. 226 Est., dated the 12th March 1912, the Govt directed that a health primer entitled "Life, Light and Cleanliness" printed & published for the Punjab Text Book Committee by Rai Sahib M. Gulab Singh & sons, Lahore should be translated into all the vernaculars and distributed to all elementary schools under public management. The D.P.I. was also authorized to purchase copies of the book for training schools. "Malaria" is dealt with in this book. Again, a separate leaflet ~~was~~ entitled "A Lesson on Malaria" prepared by the Sanitary Commissioner has also been printed in ^{English} ~~English~~ and translated into the vernaculars for use in schools. Presumably therefore all teachers undergoing training receive instruction in regard to the prevention and treatment of malaria. It is not known whether
