HIS EXCELLENCY

The Governor-in-Council.

FORT ST. GEORGE.

Madras.

MAY IT PLEASE YOUR EXCELLENCY

The humble memorial of the citizens of Narsapur Division, in the
Kistna District.

SHEWETH.

1. That Narsapur is the headquarters of the Revenue Division comprising the two Taluqs of Narsapur and Tanuku, with a population of more than Seven lakhs, of whom the bulk is composed of agricultural classes. It is situated at a convenient distance from the headquarters of Tanuku and Bhimavaram Taluqs of the Kistna and Razole and Amalapuram Taluqs of the Godavery District. It has also a number of important public offices, among which are the Sub-Collector's office, two District Munsiffs' Courts, the Tahsildar's, the Sub-magistrate's and Sub-Registrar's offices and a flourishing branch of the Madras Bank.

2. That Bhimavaram which is at a distance of 20 miles from Narsapur and has two District Munsiffs' Courts and a big Mission High School was a part of the Revenue Division of Narsapur, until two years ago. Razole, which is at a distance of 12 miles from Narsapur and connected by Steamer service of the Narsapur Taluq Board, was a part of this Revenue Division until 1905, when under the trifurcation Scheme, Narsapur was taken off from the Godavery District and tacked on to the Krishna. Amalapuram, the headquarters of the richest Taluq in the Godavery District, is within an easy distance of fourteen miles by road from Razole and has two District Munsiffs' Courts and a Board High School with a strength of nearly 1200. To relieve congestion in that School it is contemplated to open a High School at Razole before next July.

3. That the annual revenue from these four Taluqs of Narsapur, Bhimavaram, Tanuku, Razole and Amalapuram amounts to nearly half a crore of rupees.

4. That the town of Narsapur is one of the very few neatly laid out country towns, in these parts, beautifully situated on the Vasista, branch of the Godavery at a distance of hardly five miles from its mouth. Its approaches are picturesque with mango groves and casuarina plantations on either side of the canals and roads leading to it. These and the avenues of trees break the dull monotony of vast stretches of mere paddy fields. The soil being sandy, the town is, even during seasons of heavy rains, as neat and sanitary as one could desire. Towards the west and the south of the town there is plenty of scope for expansion. Narsapur might be considered a most sanitary and charming little town in the Circars, coming only next to Waltair.

5. That a railway line of thirty five miles connecting Narsapur with the N. E. line at Nidadavol has been sanctioned, though its construction is being delayed on account of the war. Other branches of this projected line will connect the three taluqs of Narsapur, Bhimavaram and Tanuku.

6. That there is a High School at Narsapur founded in 1852 before the foundation of the University of Madras itself by the Hon'ble G. N. Taylor, who sowed the first seeds of English education in the Circars. This High School, now known as the Taylor High School, has at present a strength of nearly 840 and is being managed by a committee of private gentlemen with the Revenue Divisional Officer as Ex-officio President.

7. That the Amalapuram High School is about 1200 strong. Tanuku has a Board High School with nearly 520 pupils on its rolls and the Bhimavaram Mission High School is no less strong in numbers. Thus, within a radius of 26 miles there are four High Schools, each with over-flowing and ever-growing numbers, and there is every likelihood of two more High Schools being started in the near future in the Amalapuram and Razole Taluqs.

8. That in the whole of the Kistna District, which is considered one of the richest and most densely populated in the presidency, there is only one First Grade College, the Noble College, Masulipatam. In the Godavery District there are two Colleges, one a First Grade Government College at Rajahmundry and the other a Second Grade College at Coconada. But none of these three Colleges is practically within the reach of many an intelligent youth of this deltaic zone, because of the insanitary condition of these towns and the costliness of city life.

9. That if a College be established at Narsapur which, as has been shown in the foregoing paragraphs, has the advantages of a favourable situation, a salubrious climate and cheapness of living, it would be an untold blessing to the people of the Godavery Western and Central Deltas. Few country towns, so far as your Excellency's humble memorialists know, have such facilities for the cultivation of a truly academic spirit as Narsapur has. That the College will be more or less self-supporting is beyond doubt, as the "Eligible" candidates from the High Schools within a radius of nearly a hundred miles are sure to flock to this place.

10. That in view of the aforesaid facts, which your Excellency's humble memorialists believe will carry conviction regarding the necessity for a Second Grade College in these parts and the suitability of Narsapur for its location, and in view of the keen interest which your Excellency has been evincing in the educational uplift of the people entrusted to your Excellency's gracious charge, your Excellency's humble memorialists pray that your Excellency, will, before long, take steps for the establishment of a Second Grade College at Narsapur, which will be a permanent mark of your benign regime and for which Your Excellency's humble memorialists and their posterity will ever cherish Your Excellency's name in grateful memory.
