G.O. No. 1080

DATED 23-8-18

[Despatch Abstract.]

Subsidy

Informing the Municipal Council of Tirupati that the Government are unable to sanction at present its application for a ----- of Rs. 21,000 towards the construction of elementary school buildings and that the application may be renewed towards the close of the year.

4708. I have the honor to state that the Benevolence maintains seven elementary schools, three for ^{the} boys, one for the children of the backward classes, one for the ^{the} weavers and the remaining two for ^{the} girls. Six schools are located in rented buildings and one school is located in a building acquired by the Benevolence. The Sub-Inspector of schools during his annual inspection of the G. C. S. school remarked that the accommodation is unsatisfactory. This school is located in the building acquired by the Benevolence for the purpose of constructing a new building thereon. The Government were pleased to make a grant to

for the construction of two elementary school buildings for boys and the two buildings will be completed in the current year. In view of funds the construction of a building in C. C. Street was not undertaken. As no suitable building is available in the locality, the school has to be located in the present building which is spacious but ill ventilated. The Inspectors of Girls schools, Pandaravada, have suggested the desirability of constructing two purpose buildings for the location of the two girls schools. At present it is considered necessary to construct three buildings one for the boys school and the other two for the girls. As there are no funds at the disposal of the Council for the construction of these buildings, the Council in their meeting held on 31.5.18 resolved to request Government to make a grant of Rs 21,000/- required for the acquisition & the construction of these buildings. I submit herewith a copy of the resolution of the Council passed on the subject and request that you will be pleased to obtain the sanction of Government for making a grant of Rs 21,000/- from the provincial funds. I may have bring to the kind notice of Government that for want of purpose municipal buildings the Council is obliged to pay very heavy rent for the buildings which are after all not well suited for the purpose. The resources of this Municipality are very limited and the Council is not in a position to undertake the construction of these

buildings without Government help.

I have the honour to be,
Sir,
Yours most obedient servant

N. R. C. No. 5934/1918 dated 20th July 1918.

Resubmitted with reference to Government Endorsement No. 1723 A-1 dated 8th July 1918.

2. The Municipality got last year a subsidy of Rs. 3850 in G. O. No. 709 Home (Education) dated 29th May 1917 for the construction of Elementary School buildings. In view of the claims of other Municipalities, it will not be possible to consider this application in connection with the distribution of the Rs. 1 lakh provided in the current year's budget for contributions to Local Bodies for the construction of Elementary School buildings. The application may, however, be considered

CM-1723 A. From the C.M.C. Dinpaki
R.O. 2107 of 6/6/18.

CM-1917 A. From the D.P.S., R.O. 5934 of 7/6/18.
Subject. Application for grant for the
construction of elementary school building.

The D.P.S. proposals for the distribution of the provision of Rs 1 lakh in the current year's budget for elementary school buildings have not yet been received. He, however, states that it will not be possible to consider the application of the Dinpaki Municipal Council for a grant for the construction of elementary school buildings in connection with the distribution of the one lakh allotment. It is for orders whether the Council may be informed at once that no grant can at present be sanctioned or the file may lie over till the D.P.S. proposals for the utilization of the one lakh of rupees are received. If the former course should be adopted.

P. bozef.

In case funds are available towards the close of the current financial year and provided also that the Municipality adopt the type-design for Elementary Schools now under preparation by the Chief Engineer. It may be observed that the cost of construction of the three buildings in question is not small.
