BINNY & Co., LD.
INCORPORATED IN ENGLAND.
MADRAS.

MADRAS 23rd. January 1918. 23-1-18

The SECRETARY

to the GOVERNMENT OF MADRAS

Home Education Department,

MADRAS.

Sir,

I have the honour to acknowledge your No 1651 of
the 22nd. December.

I regret that I am unable to recommend a candidate
for a State Technical Scholarship tenable in Great Britain.

I am of opinion that these scholars are of no value
to the Industrialists of this Presidency and that unless
Government are prepared to find employment for the scholars
on their return to this Country, the scholarships should be
discontinued. If scholarships could be given to students
who would be employed by Government for technical instruc-
tion on their return, some good purpose might be served from
the standpoint of the Industrial Manufacturer. There is an
entire absence of trained Technical Instructors in this
Presidency.

We have tried at the Buckingham and Carnatic Mills a

BINNY & CO., LD.
INCORPORATED IN ENGLAND.
MADRAS.

2. 23rd. January 1918.

a number of students who have held State Technical Scholarships and have interviewed others. The attitude of everyone of these students is identical and may be described as follows:-

"I have been to Europe; I have received a European training; I expect the pay and position at once of a European who has had the same Europe Technical training as I have received. On these terms I am prepared to offer you my services for a time, but it is my desire and intention to obtain a Government appointment at the first opportunity".

The fact that a European is seldom brought out to this Country until he has gained practical experience at a small wage in the Home workshops is usually overlooked.

These scholars never settle down seriously to work for a Manufacturer, but are all the time on the look out for an appointment where they will work Government hours and come under Civil Service regulations.

My opinion is that it would be much better to spend the money on scholarships to the Victoria Technical Institute, Bombay, until Madras can equip itself with a Mechanics Institute or Industrial School, where the

3

BINNY & Co., LD.
INCORPORATED IN ENGLAND,
MADRAS.

3.

23rd. January '18

the ordinary student can get some mechanical training, and the intelligent workman, by evening classes, obtain theoretical knowledge of the Industry in which he is actually engaged.

The Engineering College is quite useless for Industrial training and its functions should be kept quite distinct. In this connection I venture to draw your attention to a very interesting paper published in the Madras Mail of the 21st. instant by Professor E.F. Tipple, read at the Indian Industrial Conference.

I have the honour to be,

Sir,

Your obedient servant.

W. Simpson

POST BOX No. 97.

Madras, 21st JANUARY, 1918.

From

Khan Bahadur M. A. Kuddus Badsha Sahib,

To

Mr.
The Hon'ble R. Ramachendra Rao,

SECRETARY to the Government of Madras.

Home (Education) Department,

FORT SAINT GEORGE, Madras.

Sir,

I have the honor to acknowledge with thanks the receipt of your printed circular letter No. 1651 of 22nd Ultimo, enclosing a copy of G.O No. 1650 Home (Education) Department of even date ordering the publication of Notification inviting applications from qualified Candidates for the State Technical scholarship available for award in this Presidency in 1918.

You request that I may favour Government with any recommendations I may have to make on behalf of any young man or promise who has given proof of the mechanical aptitude or industrial turn of mind as required by Government.

I have to state that I know young men who possess the necessary qualification as required by Government but owing to present conditions of the voyage they do not wish to go.

635/6 With reference to para 2 of your letter under reply I would recommend:

(1) Electrical Engineering in view of the fact that in large

7
RRR.

(2)

Cities all over India electric lighting and electricity are largely used in public and private buildings, firms, shops, bazaars, streets, Railways, Tramways & Telephones and it is very essential that competent and efficient men should be employed.

Motor Cars and Motor Cycles are largely used and are on the increase.

(2) Manufacture of Glass, Iron, Paper, Pencils, Soap, Match, Cement and Sugar. These are largely used and indispensable.

Weaving, Dyeing and the manufacture of leather goods are also essential industries.

Enclosure .

Application by Mr. P.I. Mathai for a State Technical
Scholarship

p. 12 inf

In forwarding herewith an application submitted by Mr. P.I. Mathai for a State Technical Scholarship, I have the honor to refer you to the letter of the Director of Public Instructions Ref. on C.No.33 of 1917, dated 11-9-17, in which he states that under instructions from the India Office Mr. Mathai had not attained the standard requisite to enable him to receive the scholarship applied for, but that his case will "receive consideration" next year.

*D

Sort of India

p. 1 of 800 833-8452

4-7-17

(E)

p. 12 inf

pp 13-21 inf

2. I can recommend Mr. Mathai as eminently suited for the award of the scholarship for which he applies. In paragraph of his application he sets out the examinations which he has passed. He has also attached a copy of his educational certificates, which show that he has sufficiently educational qualifications to profit by the study of plumbing and sanitary engineering.

I think it would be of special value at the present time to obtain some Indians qualified in first class sanitary work. This is a subject which it is very difficult to learn thoroughly in India on account of the scarcity of examples of really good sanitary work.

It would be difficult to find anyone more likely than Mr. Mathai to profit by instruction in Europe, because he has

12
been in charge of similar work in Madras for some years and
is well aware of the difficulties here, and will therefore
know what is of special value for the conditions that exist
in Indian towns.

I have the honor to be,

Sir,

your most obedient servant,

Whadley.

S I R,

With reference to G.O.No. 1650 Home (Education) dated the 22nd December 1917 I beg to apply for a State Technical Scholarship and submit the following information regarding myself :-

- not put up*
80247 Home file
12-3-17
on p. 60 of 80247-80
4-5-17.
1. I am a native of Travancore but became a naturalized British Subject on the 12th March 1917.
 2. I am thirty-four years old and have passed the following examinations :-

- ✓ Matriculation of the University of Madras;
- ✓ Mechanical Engineering, in the First Class, from the Victoria Jubilee Technical Institute, Bombay.
- ✓ Mechanical Engineering of ordinary grade, in First Class, from City Guilds Institute of London.
- ✓ Bombay Boiler Act Examination, Second Class.

3. I would like to study Plumbing and Sanitary Engineering.

4. I am for the last five years employed in the Madras Corporation Water Works Section as an Out-door-Foreman.

I enclose herewith copies of my certificates to show my mechanical aptitude.

I beg to remain,
Sir,
Your most obedient servant,

BYCULLA.

Bombay 11th March 1912.

Mr. P.I. Mathai was a student in the Mechanical Department of this Institute for three years and for $1\frac{1}{2}$ years he attended my lectures in Physics during the time I was acting head of the Physics Dept. I also had an opportunity of seeing his practical work in Heat, Magnetism and Electricity. It was quite to my satisfaction and he did well also in his examinations.

He holds the second class Boiler Act certificate and the first class certificate of the City and Guilds for the ordinary grade in Mechanical Engineering.

Also completing his course he was appointed a fellow student in the Mechanical department and during the time, I always found him very willing to do any work wanted for my department and it was carried out in a very capable manner.

In conclusion I may say I always found him willing, painstaking and capable.

A.J. TURNER, B.Sc. (LOND) F.I.C.

TO

MR. MATHAI, L.M.E.

DEAR MATHAI,

Your fellowship period had now terminated and you inform
me that you are in search of a post.

Your First Class Diploma in L.M.E. Examination should be
sufficient testimony to the success of your work here as a student.

The whole of my experience of your work is confined to your
year as a fellowship student—1911—during some part of which
I have acted as head of the department.

Your work as an instructor in the workshops and an assistant
in the drawing office has shown you to be intelligent, well-informed
and willing to work. These qualities which have been so necessary
to your work in the Institute will prove the prime essentials of
any career especially that of an employee in a Mechanical Engineer-
ing works.

I shall be very pleased to be referred to by any would-be-
employer and shall with confidence recommend you for any post
suitable to a fellow leaving the Institute.

Yours faithfully,

P.M. BAKER.

D No. 1499

Station Madras. , Dated the 4th March 1918. 191
5

From (Name) C.A. Innes Esq., I.C.S.
(Designation) Director of Industries.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

With reference to para 2 of G.O. No. 1650 Home (Education) dated 22nd December 1917 publishing a notification in the Fort St. George Gazette regarding the award in 1918 of a State Technical Scholarship, I have the honour to say that I have consulted Sir Clement Simpson, Dr. Simonsen and Sir Frederick Nicholson, but none of them had any recommendation to make in the matter. I have received myself only two applications both of which are submitted herewith. One is from Mr. Joseph, Science Lecturer of St. Aloysius College, Mangalore. He applies for a scholarship to England to undergo a course in "The Chemical Engineering College". In this application he seems decidedly vague as to what he

pp 30+32 wt

The [unclear] [unclear]

29
proposes to do when he goes to England, but if his application is supported by the Principal of his College I think that he might be considered as a candidate for a State Technical Scholarship for the study of the chemistry of "Soapmaking and the use of South Indian Oils." I have told him to resubmit his application through the Principal of his college to the Director of Public Instruction, and have advised him to amend it as suggested above. I have also received an application from Mr. V.S. Kolandaivelu who is a student in the College of Engineering Madras. He has passed Intermediate and appears for the B.E. degree examination in March this year. He proposes to study the design and practical construction of steam and oil engines. Personally I do not think that for many years to come there will be any opening for a man trained in the design and construction of internal combustion engines in this Presidency, though I have no doubt that any one who has studied these subjects will be a better Mechanical Engineer for having done so. The applicant has studied four years in the College of Engineering Madras and what he really wants is a course of two or three years in some engineering firm in England. He might then become a really good Mechanical Engineer, for which there is always a good opening in India. I think that his application might be considered by the Director of Public Instruction.

Kolandaivelu
I have the honour to be,

Through the Director of Industries, MADRAS.

Respected Sir,

I beg to offer myself as a candidate for the Government State Technical Scholarship. I have been a student in the Government Leather Trades School for 3 years and I have finished my course here, for which I hold a certificate, I should like to proceed to England and continue my studies ^{of the} ~~in~~ ^{industry} ~~the~~ Leather ~~export~~. I have got the permission of my guardian and will abide with all the conditions mentioned.

I am 23 years old and I hold a School Final Certificate. I intend continuing my studies in Leather industry. I had been a student for 3 years in the Government Leather Trades School and I hold a certificate. Though the date of sending in the application has expired, yet I request you to consider my case as the advertisement of the 11th January escaped my notice.

I humbly request you to consider my case and grant me an early reply for which act of kindness, I shall ever be thankful.

I beg to remain,

From (Name) The Hon. Mr. J. H. Stone, M.A., F.R.H.S., C.I.E.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

Home (Education)

Department.

Sir,

With reference to G.O. No. 1650, dated 22nd December 1917
I have the honour to submit herewith 24 applications that have
been received in this office for the state technical scholarship
available for award this year. They include the applications
submitted to Government direct but subsequently forwarded to
me by Government for consideration along with the other
applications.

Of the 24 applicants, six have chosen subjects which
are not among those for the study of which there will be
facilities this year according to G.O. No. 75 Home (Education)

dated 22nd January 1918 and five have had no practical experience in the industries proposed for study. These have therefore been left out of account. Twelve others have selected Engineering for their study but having regard to G.O.No. 290 Home (Education) dated 28th February 1918 and the memorandum enclosed therewith these applicants who do not possess University degrees have ^{also} been left out of account. There remains as the only suitable candidate B.K. Ramaprasad and I recommend him for the scholarship. His name was also suggested last year, but in G.O. No. 1072 Home (Education) dated 22nd August 1917 Government stated that his case would be reconsidered this year if recommended again. His application then received was submitted to Government along with my R.C.No. 33/17, dated 16th April 1917.

2. If my recommendation is approved, I shall arrange with the Surgeon-General, Madras, for the medical examination of B.K. Ramaprasad by a Medical Board and submit the Board's certificate to Government in due course.

I have the honour to be,

Sir,

Your most obedient servant,

R. A. Arivu

Department.

Sir,

In resubmitting herewith the enclosures received with Government endorsement No. 914 A-1, dated 5th April 1918, I have the honour to report that my recommendation for the state technical scholarship for 1918 was submitted to Government in my letter R.C.No. 442/18, dated 5th April 1918 and to state that I do not propose to alter the recommendation already made.

I have the honour to be,

S i r,

Your most obedient servant,

R. G. Trine

for Director of Public Instruction.

(EDUCATION)

Sir,

With reference to my R.C. No. 442/1918, dated 5th April 1918, I have the honour to inform you that the Principal, College of Engineering, withdraws his recommendation, on the ground of subsequent misconduct, of candidate M.S. Narayanan, ^{6a} in the list of candidates for a Government Technical Scholarship and to request therefore that his name may be removed from the list.

I have the honour to be,
S i r,
Your most obedient servant,

L. Stone
Director of Public Instruction.

Simla, the 6th May 1918

From

The Hon'ble Sir E.D. MacLagan, K.C.I.E., C.S.I.
Secretary to the Government of India.

To

The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I am directed to refer to your telegram no. 126, dated the 25th April 1918, and to say that the Secretary of State has been asked by cablegram whether facilities are procurable for the training of State technical scholars in electro-chemistry with special reference to electric furnaces, electrolysis and the manufacture of fertilizers from atmospheric nitrogen.

2. I am, however, to point out that the local Government's enquiry has been made at a very late date.

I have the honour to be,

Particulars about the Candidates who applied to the Govt. for the State Technical Scholarship 1918.

Candidates	Industry proposed to be studied	Qualifications		Remarks
		General	Technical	
72 Mumtaz Rao	Weaving and dyeing industries (Facilities for study not available in Coimbatore)	Completed the Matriculation course of the Madras University.	Underwent a course of four years in textile manufacture in the Victoria Jubilee Technical Institute, Bombay and obtained a diploma in Cotton manufacture with a degree of Licentiate in textile manufacture. He has also passed the two grades of Cotton spinning, weaving and dyeing and bleaching - City & Guilds examinations of London Institute. After completing the course in the Institute he worked for some time as a probationer in Drishaw Pettit Mill, Bombay and served as a designer for 6 months in Sholapur Spinning & Weaving Co. Ltd. For the last 3 1/2 years employed as assistant weaving master in the same Mills.	Age - 27. (Low educational qualifications & above presented age. Not eligible)
S. Parameswaran	Either Mechanical or Electrical Engineering.	Passed Matriculation examination ↓ Too low a standard ↑ of the revised rules at 2	The applicant is a third year / student in the School of Mechanical Engineering in the Kala Bhawan Technical Institute, Baroda. (Final year)	Age 24 Low educational qualifications. Not eligible
C. K. Vaidyanathan	Mechanical engineering	S. S. L. C. Kolar	— do —	Age 25 — Do —
T. J. Joseph	Either a study of Chemical engineering or of Chemistry of Soap making and of oil and fats.	B. A. (Hons) in Physics in the 2nd class.	Employed as the Science Lecturer of the St. Aloysius College, Mangalore.	Age 24. Subject patented one for which facilities for study in England available. (dun)
Kolaudavelu	Mechanical Engineering - Design & Construction of internal combustion engines.	Intermediate examination in Arts - in first class.	At present studying in the fourth year class of the Mechanical Engineering Course in the College of Engineering, Madras.	Age 23. The Chamber of Commerce, Indian Chamber of Commerce, Beardsell & Co., Sahib Meerut. He is also

has been
eight posti
rs and overse
the P.W.D. cadre according to the proportions exist
several grades. All the men actually working in, or intended
the Agricultural Department are to be absorbed in the new scales
pay and when they are so absorbed, it is not clear why the P.W.D.
cadre should not be reduced according to the usual procedure.

3. Industries Department. Here too, there is no reason
when the permanent arrangements are introduced, the six appoint-
ments required for this department should not be provided for
in the P.W.D. cadre according to 'proportions'.

4. The arrangements now proposed by P.W.D. and embodied in the
draft are based on the present pay of the men working in the two
departments. It is submitted that these arrangements may be -
accepted as a temporary measure.

5. If the above suggestions are accepted, the distribution of the
14 posts between the two departments will be as shown below:-

Revenue Department

To Deputy Secretary.

Please see draft order submitted which

21-

H.D.

Home Dep

Attention is solicited to the statement
prepared by the Director of Agriculture in
tion with the officer in charge of the Deptt
tries from which it will be seen that out of
posts included in the Upper subordinate establi
of the P.W.D., which has to be distributed betwe
the Agricultural and Industries Deptts, the latte
Deptt. is to get Sub Engineer

Supervisor 1st grade
Supervisor 2nd grade
and Overseer 1st grade

No. of posts.
1
1
1
3
6

The Finl. Deptt. agrees ~~not~~ this distribution only
s a temporary measure and suggests that as two of the
three first grade overseers now working in the Deptt.
Industries vacate their posts by promotion or other
re, the three posts on the first grade should be
buted proportionally ^{adly} over the three grades of
eers i.e. one on each of the three grades vide
3-5 on page 17 ante. Though this may be the
de of distribution adopted, Mr. Innes may
the first instance be requested to state
objection to it. A draft u.o. n

	No. of posts.
1st grade	1
2nd grade	1
3rd grade	1
4th grade	3
	<u>6</u>

It can be seen that all the three overseers are in the first grade. It is ~~therefore~~ however to distribute the no. of posts proportionately over several grades of the cadre. As there are three overseers it would be more appropriate to distribute the three posts of overseers now shown in the first grade evenly over the three grades (i.e. each grade).

From col. III of the statement referred to above it is seen that all the three persons proposed to be taken over to the Deptt. of Industries are actually drawing Rs.100 the pay of overseers of the first grade. The proposed distribution as per statement may therefore be temporarily approved, but as two of the three men vacate their places by promotion or otherwise their posts may be filled up by overseers of the lower grades in the proportion suggested in para.1 ante. Mr. Innes has requested u.o. to state whether he has any objection to the above suggestion.

Has not yet passed the B.E. Degree Examination and undergone workshop training

Chemistry Demonstrator in the Madras

Age 24 Has not had previous exposure of metal industries in India Not eligible under the rules

nil

Age 22: He was already granted Scholarship of Rs 30 p.m. for the Institute of Textile Manufacturers at the Victoria Jubilee Technical Institute Bombay Co.

Age 22.2.18 (Not eligible as he has not undergone special training in mechanical engineering subject)

Name of Candidate	Proposed to be studied	General	Technical	Technical	Remarks
Mr. Narayana	High electrical engineering	Intermediate examination in Arts	Studying in College of	the fourth year (final year) class of the engineering	Age 21 (B.D. has since intimated that the Candidate's name should be removed from the list)
A. Sivagurunathan	Advanced Commercial S.S.L.C. holder education	S.S.L.C. holder	Almost completed his two years course in the	School of Commerce, Calicut.	Age 20. Subject selected not one for which star-ship is usually awarded
P. Govinda Menon	Higher electrical engineering	B.A. degree examination - Mathematics branch			Age 21 Apparently the Candidate has not acquired a knowledge of mechanical drawing and descriptive geometry. Nor has he undergone training in a workshop. Not eligible.
M. Sundaram Nayudu	Commercial Study including Banking, insurance etc or Leather Goods industry, Textile industry, Study of oils, Soap making & perfumery or Electrical engineering.	- do -	now manager of Messrs Hajee Fazeer Mohamed & Co	Tanners and skins & hides export merchants, Madras.	Age 32. (far above the prescribed age viz 25 - vide para 10 of the revised rules - at flag 2.) Has not specified definitely the subject he wishes to study, over age; not eligible.
S. Ramaswami	Mechanical or Electrical Engineering.	(Not stated)	Holds a 1st Class Honour's Diploma in Mechanical Engineering of the Centria Jubilee Technical Institute, Bombay, and a certificate of competence of the Second Class granted under the Bombay Boiler Inspection Act 1891. Now studying in the same institute for an additional technology viz Electrical engineering. He worked as an apprentice for 6 months in the Royal Marine Dockyard, Bombay.		Age 22 Low educational qualifications. Not eligible.
P.P. Rajambika	Mining Engineering (metal mining in particular) preferably at the University of Birmingham	S.S.L.C. holder	Underwent practical training for about a year in Surveying, levelling etc as an apprentice under Mr. M. He has apprenticed two years & does of appren	Subordinate of a municipal engineer. He served as a surveyor for about a year in the Madras Port Trust. He has been Asst. Chief Engineer & Chairman of the Port Trust. He is a mine in Kolar Gold fields for a period of 1 year. He may be allowed to take the Scholarship after his period	Age 21. The applicant is strongly supported by Sir Francis Spring but Mr. Jameson is of the opinion that mining Engineering is not likely to afford much scope for employment in the Presidency where the mineral resources are decidedly poor. (also para 10 of revised rules - p. 1 of 81) Low educational qualifications - not eligible.

Particulars about the Candidates who applied

Name of Candidate	Industry proposed to be studied	General	Other
12. A. S. S. N. N. B. B.	Textile industry	Read up to the Intermediate Standard	Passed the final Institute B. Sc. & obtained a diploma with the title "Bleaching & Dyeing" as an assistant for one year.
13. S. Hanumantha Rao	Electrical engineering	Appeared for the Intermediate in Arts examination but failed	Passed the Engineering
14. P. S. Srinivasan	Paper making, leather or dyeing industry	Studying in the Senior B. A. class Chemistry & Physics branch.	
15. S. V. S. S. S.	Mechanical Engineering	Intermediate Examination in 1 st Class.	Student of Engineering
16. P. K. K. K.	Metallurgy or any other industry	Passed the Chemistry branch of the B. A. degree Examination in 2 nd class	Now working as a Christian
17. V. P. P. P.	Electrical or Mechanical engineering	Reading in the Senior B. A. class.	

Particulars about the candidates who applied for the State Technical Scholarships 1918. 82

Name of Candidates	Industry proposed to be studied	Qualifications		Remarks
		General	Technical	
18. B. K. Rama Prasad	Electro-chemistry with special reference to Electric furnaces & Electrolysis & the manufacture of fertilizers from atmospheric nitrogen.	B. A. (Hons)	Has been working in the Research Laboratory of the Indian Institute of Science since July 1916. During the summer of 1917 he worked at the mechanical workshops of the Tata Iron & Steel Works at Sakchi near Kalmati and during this summer he shall be working at the Hydro electric Station Siradi Kundam.	Age 24. Recommended by the D.P.D. (It is doubtful whether the subject selected can be brought under 'electrical engineering'. If not, enquiry will have to be made of the India office whether facilities for training in the subject are available - bly)
19. P. J. Mathai	Plumbing and Sanitary engineering	Matriculation examination	Passed the following examinations:- (1) mechanical Engineering in the first class from the Victoria Jubilee Technical Institute, Bombay. (2) Mechanical Engineering of ordinary grade in 1st class from City Guilds Institute of London (3) Bombay Civils Act examination. Second class. He has been employed for the last five years in the Madras Corporation Water works Section as an outdoor foreman.	Age 34 - Strongly supported by Mr. Madley, the Special Engineer, Corporation of Madras - But the Govt. of India have finally decided not to award Mr. Mathai a Scholarship for the study of Plumbing & Sanitary Engineering. V.D.P. of G.O. 290 & 28.2.18 (X)
20. U. Narasinga Rao	Electrical Engineering or Mechanical Engineering	S. S. L. C. holder	Completed Upper Subordinate Course of the Civil Engineering College, Madras & is now employed as a temporary upper subordinate in the P.W.D. in the Tanjore Sub. division.	Age 26 years. Low educational qualification. Not eligible.
21. K. M. Govinda Pillai	Mechanical Engineering	B. A. degree examination with Physical & Chemical branch.	Nil. Now a student in the Civil Engineering College.	Age 22. Has not yet obtained the B.E. degree and undergone workshop training.

Particulars about the candidates who applied for the State Technical Scholarships 1918.

Subject:- State technical scholarships.

(C.No.982-A) From ^{the} D.P.I. No.442 dated 5-4-1918.

The D.P.I. recommends the name of B.K. Ramaprasad for a State technical scholarship this year.

2. With their letter No.175 dated 18-3-18, the Govt. of India have communicated a copy of the revised rules relating to the State technical scholarships. The maximum number of students from this Presidency who can hold technical scholarships in Europe at one time, is four (Vide rule 2 of the revised rules.) There is no definite information as to the number of scholars from this Presidency who are at present drawing scholarships in Europe. Following is a list of candidates who were awarded scholarships since 1910:-

	<u>Name of scholar.</u>	<u>Remarks.</u>
1910-11.	T. Kumaran Nayar.	Returned and now employed at Jamalpur.
1911-12.	M.C.Sitaraman) H. Sakaram Rao.)	
1912-13.	Tombat Sakaram Rao.	Returned in 1917.
1913-14.	P.K.Rajamanikkam.	Returned in 1916 (now Ag.Principal Leather Trades School, Madras)
1914.	D.M.Amalasadvala.	
1915.	(not awarded)	
1916.	Muliyil karuven.	
1917.	(not awarded.)	

Messrs Tombat Sakaram Rao and P.K.Rajamanikkam have already returned to Madras in 1917 and 1916 respectively. The tenure of the scholarships awarded till now, extended generally over two years, though

85

in special cases it may be extended to three years. (I)
 Vide Col. 5 on p. 4 of G.O. 588 dated 29-5-16. It would therefore appear that all scholars sent previous to 1913-14 would have completed their courses of study. There cannot then be more than two candidates (Amalasadwala and Muliyl Karuven) that will be holding scholarships at present. There are therefore not less than two scholarships available for award this year.

3. The subjects in which facilities for training are available this year are those set out in Memo. No. 1733-1 dated 7-4-17 on page 88 of G.O. No. 589 dated 4-5-17 (Vide also G.O. No. 75 dated 22-1-18. There are in all 25 applicants for the scholarships this year. The statement at D gives particulars as regards the industry they propose to study and their general educational and technical qualifications. The 'remarks' column shows whether they satisfy the new rules promulgated by the Govt. of India. Nos. 1, 4, 7, 9, ^{10, 11, 12, 13, 20, 22, 23 and 24} ~~10, 11, 12, 13, 20, 22, 23 and 24~~ in the statement have ^{either} selected subjects which are not included in the approved list ^{for the current year of} ~~for the current year of~~ are either deficient in general educational qualifications (not reaching above the Matriculation standard) or are too old (being far above 25 the age prescribed in para 10 of the revised rules). The Govt. of India have already declined to grant a scholarship to No. 19, P. I. Rathai (G.O. No. 290 dated 28-2-18). Of the remaining, the only candidates whose claims appear to deserve consideration are:-

Subject selected.

No. 5 V. S. Kolandavelu.	Mechanical Engineering (Design & Construction of internal combustion and steam engines).
No. 15. S. V. Ganapati.	Mechanical Engineering.
No. 16. B. M. Rama Prasad.	Electro-Chemistry with special reference to electric furnace and electrolysis & the preparation of

No.25. S.R.Gershom.

86 Subject selected.

Leather Industry.

4. The D.P.I. recommends B.K.Rama Prasad for the scholarship. The subject selected by him 'Electro-Chemistry' can hardly be treated as falling under 'electrical engineering', one of the approved subjects for the current year. The Govt. of India state that the grant of scholarships for the study of chemical industries in the United Kingdom is of doubtful utility and that before any such scholarship is granted, enquiry should be made as to the possibility of providing in Europe a complete training in the special branch of industry concerned, full particulars being furnished to the India Office as to candidates' qualifications and prospects of finding employment on their return to India. Apparently the candidate is not willing to study 'electrical engineering' as such. Even if the candidate chooses that subject, it should have to be ascertained whether he has received special instruction in mechanical drawing and descriptive geometry.

5. Nos. 5 and 15.— V.S.kolandaivelu and S.V. Ganapati—are now students in the Engineering College and have ~~appeared~~ ^{presumably} for the B.E. Degree examination held recently. If they pass that examination, they will become educationally qualified, though they must still be regarded as deficient in respect of practical training in a mechanical engineer's shop. (Vide item 1 in Annexure I to the Govt. of India's letter No.175 dated 16-3-18).

6. Mr. Innes recommends Mr. Gershom (No.25) for a State scholarship for the study of leather industry. The particulars furnished as regards the candidate's qualifications and connection with

Item 14 in annexure
[to the Govt of India]
letter no 175 of 18-3-18

(Z)

Item 1 in the
annexure referred
to above

(Z)

industry selected are ~~even~~ meagre and, is to be considered, it must first be ascertained whether the conditions in item VIII in the annex to the Govt. of India's letter quoted above are satisfied, ~~and~~ for what position he desires to qualify and whether he proposes to take up scientific research in his subject.

7. Under rule 3 of the revised rules, the selected candidate should execute a bond undertaking to repay the amount of the scholarship he has received if he fails to return to India when instructed by the Secretary of State to do so. Rule 10 requires that he should also pass a searching examination as to physical fitness.

8. The recommendation of this Government should reach the Govt. of India by the 15th May next.

NK
23/4/48

para-2.

It is clear from the letter from the Govt. of India at slip (2) that the new rules are to come into effect in the current year. The rules are very elaborate & if they are strictly enforced almost all the candidates that have now applied will have to be eliminated.

V. S. Kolandavelu & S. V. Ganapathi will satisfy most of the conditions except practical training in workshop for a year & this on the assumption that they will pass the B.E. examination for which they have appeared. In the usual course they will undergo practical training here & the proper course seems to be to consider their case

next year after their training is over
 we may wire to India to ascertain
 whether provision can be made
 for training in Electro-chemistry to see
 whether Rama Prasad may be given
 a scholarship.

we may also ask Mr. Dimes to report
 what exactly is the nature of training
 desired by Mr. Gershon. If he intends to
 qualify for a managership of a factory
 only his application can be submitted
 December 1918 provided other conditions
 are satisfied. If he however intends to
 pursue scientific research as applied
 to leather industry, his application will
 have to be considered alone; but we
 have very meagre information
 to proceed with his application just
 at present.

He desires further training in England
in tanning with a view to becoming manager of a
tannery.

He has now got a job in David Sasson's tannery
in Calcutta and I think that he might be told to re-
his application next year. Now that he has got a
footing in the trade, I think myself that he would
well to stick to his job at any rate for a year.
is still anxious to go to England, but after a year
in the tannery at Calcutta may change his mind.

to S. Dakshinamurti

department of the Indian Institute of Science, Bangalore and at the mechanical works of the Tata Iron & Steel works at Sakchi. It is for orders whether his name may be recommended to the Govt of India. Ordinarily, recommendation for State technical scholarship should reach the Govt of India by the middle of the month and the candidate selected is required to be in England by the middle of September. Even if the Govt of India saw the scholarship to Rama Bai it may not be possible for him to reach England in time. The A.G. has stated in another connection that no steam will be available till the third week of September and that even then no second-class accommodation will be available. 2. It may be noted here that in the revised rules for the award of State technical scholarship

para 2 of India's letter,
