building and suggested that the land measuring 9 cents where the present school building is situated may also be acquired and added to the site already acquired. The cost of the acquisition of the fresh site and the improvements thereon including the present school building and of the erection of the new buildings have been roughly estimated by the Municipal Overseer to Rs. 3942/- and the Municipal Council at its meeting held on the 15th June 1918 has resolved to approach Government for payment of an additional subsidy of Rs. 1942/- required for the purpose over and above Rs. 2000/- already received, as will be seen from copy of its resolution No. 5 enclosed.

2. An application for the acquisition of the fresh site and of the improvements thereon has already been submitted to the Collector and Sub-Collector. The rented building in which the school is at present held has been condemned by the Educational authorities and the erection of fresh and suitable buildings cannot be put off any longer and I request that Government may be pleased to order payment of the additional sum of Rs. 1942/- at an early date.

I have the honour to be,
