(Designation) President, Taluk Board, Madanapalle

To The Secretary to the Government of Madras,

Local & Municipal Department.

Thro

The President, District Board,

Sir,

chittoor.

I have the honour to state that out of the - - amounts granted by Government since 1913-14 under Educational subsidies a sum of Rs.8703-3-3 has been left - - unspent till 31-3-1918. On looking into the matter I found that the reason for the accrual^a of the savings is due - partly either to delay in opening new schools or to give effect to revision of the establishments of existing - - schools on account of which such subsidies were sanctioned and partly to vacancies occurring frequently in the -- sanctioned establishments of the several schools opened or revised with the aid of the subsidies.

2. There are 75 schools under this Board and 35 of them are schools opened and revised with the aid of - -

of subsidies. of the 40 old schools also, there are several which have similarly been revised with the aid of the provincial funds; but neither the new schools nor the old are - - - equipped adequately. The question of equipping them properly has been under consideration for the last two years and the Taluk Board has after carefully ascertaining both in my tours and in consultation with the Educational authorities the needs of the several schools finally approved the accompanying -- indents for (1) furniture and (2) books and maps amounting to Rs.4,200 and Rs.4,500 respectively, vide.T.B.R.No.24 dated - 12th June 1918(copy enclosed).

3. These indents I beg to submit are to meet the requirements of both new and old schools, as the Taluk Board is otherwise unable to meet the cost of equipping the old schools from its funds. I may also add that it is proposed to provide the 24 schools which have pukka built schools buildings where the -- teachers and assistants meet monthly, with an additional set of school books written in the telugu language both on general -- literary and elementary science subjects with the view that not only the students and teachers but the general public of the -- village and surrounding hamlets may have access to them.

4. I have the honour to request that Government will be - ~~xxxx~~ so good as to accord sanction to the two indents amounting to Rs.8,700 from the balance of the provincial subsidy viz., - Rs.8703-3-3 referred to in para 1 supra.

I have the honour to be,

sir,

Your most obedient servant

The Madanapalle Taluk Board proposes to utilise the savings out of the educational subsidies sanctioned in recent years on the following objects:-

- | | |
|---|-----------|
| (i) Purchase of furniture for elementary schools. | Rs 4,200. |
| (ii) " " of books & maps for those schools | Rs 4,200. |

2. Item (i) may, it is submitted, be approved. As regards item (ii), the President, Taluk Board, explains that it is proposed to provide 24 schools which have suitable buildings with an additional set of school books, written in the Telugu language both on general literary & elementary science subjects with the view that not only the students & teachers but the general public of the village and surrounding hamlets may have access to them. It is not usual for Govt to provide funds for starting libraries for the general public. But the question how far Govt might help in the establishment of public libraries useful to the general public was considered.

- ⑤ in G.O. No. 310 d., dated the 28th February 1917. The D.P.S. to whom a reference was then made on the subject stated that if funds were available for a system of free libraries it should be built up on the basis of school + college libraries and that the means taken should be special grants to school libraries that were prepared to make suitable arrangements to put their books at the service of the public at large. He also suggested that libraries in schools under public management might similarly be made available to the public and that to this end their efficiency might be enhanced by increased expenditure from Govt. funds or by making special subsidies to local bodies. As the cost of these measures was estimated at about Rs 4 1/2 lakhs, he doubted whether the scheme could be undertaken while the war lasted. He therefore suggested that ~~as a~~ as an experiment a beginning might

might be made with the libraries in foot training schools for masters. It was however decided that even this experimental scheme might be deferred till the conclusion of the war as it was not urgent.

3. In the present case the school libraries are proposed to be supplied with books useful to the general public as well as to the school pupils at the cost of Provincial funds. It is for orders whether the proposal may be sanctioned.

The books are primarily needed for the schools and will secondary be made available to the public also. By the approval of the proposal a ~~the~~ small beginning will be made in the direction of having ~~a~~ combined school & public libraries. The D. P. I. ~~appears~~ recommends the proposal. Apparently no additional maintenance

cost will be retained by letting the public have access to the books; and presumably the local body will draw up suitable rules for the regulation of the use of books by the public. Money is available & we may approve.
