Sir,

The Superintendent of Reper ^{Home} ~~House~~ at Sapatla
applied to me for aid towards the cost of constructing a
school house for leper pupils. I informed him that the
question of sanctioning a half grant would be considered if
detailed plans and estimates were submitted. The Superint-
endent now reports that he is unable to contribute any por-
tion of the cost for the proposed school house which is es-
timated at about Rs. 2,000/-. I have the honour to enquire
whether, as a special case for this special institution the
Government will be prepared to sanction a full grant for the

To The Secretary to the Government of Madras,
HOME (EDUCATION) Department.

Sir,

With reference to your memorandum No. 411 B-1 dated 5th March 1918 relating to the construction of a school building for the leper pupils of the Leper Home at Bapatla, I have the honour to submit herewith a copy of the letter dated 22nd June 1918 of the Superintendent with the plan and estimate referred to therein and to state that a report on the financial condition of the institution will be submitted as soon as it is received from the Superintendent.

I have the honour to be,
S i r,
Your most obedient servant,

P.T.O.

Copy to the Inspector of schools, 2nd circle who is required to obtain and submit the report at an early date.

Letter dated 22nd June 1918 from the Superintendent, Leper Home, Bapatla, to the Inspector of Schools, Second Circle.

Once again I am writing you concerning our little Leper Day School New Building in Bapatla. In May 1918 I saw the Hon'ble Mr. J. H. Stone, the Director of Education and presented to him a rough plan of the proposed school house to be erected in the Leper Home compound at Bapatla. He stated that he thought that the building that I had proposed to erect was too large and he suggested that a building 24 X 16^{ft} would be sufficient. I accordingly had a plan made and am sending it to you and hope that it will meet with your approval. I wish to say that I think that a little porch added to the front door would be an improvement to the appearance of the building and if you will agree to this addition and cost of it I will have it made.

I have prepared an estimate of the probable cost of most of the materials required for the erection of the proposed schoolhouse but it is impossible at present to say what will be the rates of some materials such as teakwood, hinges, bolts nails, flat and pan tiles, lime and other things, especially in

some months in the future. All I can say at present is that I promise that I will erect the school house for the sum of Rs. 2,200 and if I will have any money in hand at the completion of the building I will return it to the Government through you.

If the Director will kindly sanction Rs. 2,200 for the erection of this proposed building I shall feel very grateful but as I have informed you and the Director before I must have the money paid to me in advance so that I may be able to purchase the materials and pay the workmen as the work will be carried on. I have no mission money to spend on this school house, as we find it difficult to secure sufficient money to maintain the Leper inmates in our two Leper Homes in South India in this war time.

Hoping to have a favourable reply from the Director of Education with the Government of Madras and from you in the near future.

Copy of the letter dated 2nd July 1918 from the Correspondent
Leper Home Bapatla, addressed to the Inspector of schools, 2nd
circle.

.....

The supervisor of schools, Bapatla range brought an appli-
cation ~~from~~ form for our leper school house to-day and according
to his instructions it has been filled up and signed by me and he
has promised to send it to you by to-night's post. I informed the
supervisor that I cannot give the detailed information of the
maintenance of the Leper Home school because it is maintained by
Government grant and charitable money. The pupils receive food,
clothes, books, medicines and other things out of money collected
by the mission and monthly statements of accounts are sent to our
treasurer at the end of each month. The sum of Rs185/- grant
given by the Government, is not sufficient to maintain the two
teachers in our Leper Home school at present and all the other
money required to support the school and its pupils is provided by
the Mission. As the cost of food, clothes and other necessary
things for the leper pupils is very high at present, I cannot
maintain them under Rs6 a month.

2 I trust that you will kindly recommend the Government to
give the sum of Rs2200/- for the erection of the proposed school
house and arrange for the money to be paid to me through the
sub Treasury at Bapatla, as it will be very inconvenient and ex-
pensive to draw the money from the treasury in Guntur. I have
no Mission money in hand to commence the school house with. If
the money is paid to me soon, I will commence to buy the materials
from the 1st August 1918.

The Director of Public Instruction
submits plans and an approximate estimate
amounting to Rs.1,961/- for a grant-in-
aid towards the cost of constructing a
building for the leper pupils of the
Leper Home at Bapatla, Guntur District.

II. The Drawing and the estimate have
been examined in the Chief Engineer's
office and the following points are
observed :-

- (1) The scale to which the Drawing
is prepared is 1" = 6 feet, whereas the
scale to be adopted according to the
Educational rules is 1" = 8'-0".
- (2) A site plan showing the disposi-
tion of the proposed building relatively
to the existing ones is not submitted.
No information is furnished regarding
the nature of Soil at site.
- (3) The estimate makes provision for
palmyrah rafters and palmyrah wall plates
whereas the figured dimensions on the
Drawing indicate that a better class of
squared timber is proposed to be used.
It is sufficient if the roof is support-
ed by rafters each pair of which may be
tied with two collars as shown on the
Drawing in green ink.
- (4) For a small single storeyed
building like this the walls may be
1'-1½" thick instead of 1'-6" as shown
on the Drawing in green ink.

Building grant to the leper [No. 4118]. From the S.P.D., Re. No. 16258/17 dt. the 22-2-18.
school at Bapatla.

- C.F. The school for the lepers referred to by the S.P.D. is obviously under the management of the authorities of the Leper Home at Bapatla. The latter institution is being aided by the Govt. - please see G.O. No. 485 Pub. dt. the 9.6.08, 452 Pub. dt. the 10.3.16 and 347 Lem (med) dt. the 8.8.17. There appears therefore to be no objection to aiding the school. Ordinarily the building grant is limited to one-half of the cost of the building - vide art. 54 of the Grant-in-aid Code. In this case the authorities of the school are unable to find the other half. Seeing that the grant sanctioned in G.O. No. 485 Pub. dt. the 9.6.08 was a full grant, it is subd. that the Govt. may agree to a full grant in this case also. For a precedent, please see also G.O. No. 1236 Ed. dt. the 28-9-17.
- (V) (S) T

2. Under art. 50 of the Grant-in-aid Code, the grant is within the sanctioning ^(powers) of the S.P.D. This enquiring whether it can be sanctioned is due solely to the necessity to go beyond the limit ^{of} one-half laid down in art. 54 of the Code. Subd. that the S.P.D. may be informed as stated above.

3. A draft order is submitted for approval. If approved, it may be sent to ^{(S+M (Medical) and)} Financial for acceptance.

The D.P.I's further communication relating to the financial position of the institution has also been added to the file. The statement at p.17 does not much help towards a decision as to whether the pecuniary condition of the institution is such as to justify a full grant. But please see Secretary's note at p.2 ante and also the remark under item (b) on page 16 of C.f. The request for the payment of the grant, in advance, before the work is commenced cannot obviously be entertained.
