Ac. No. 664/18

Station MADRAS, Dated the 2nd March 1918. 191

From (Name) The Hon'ble Mr. J.H.Stone, M.A., F.R.H.S.,
C.I.E.,
(Designation) Director of Public Instruction,
MADRAS.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I have the honour to submit herewith the plans bearing Nos.222 A and 222 B with estimates amounting to Rs.8,500/- for constructing a building for the Canadian Baptist Mission Girls' school, Vizianagram, and to recommend that a grant not exceeding one-half of the total cost may be sanctioned to be paid when funds become available.

I have the honour to be,
Sir,
Your most obedient servant,

Raghuveer

For Director of Public Instruction

2.3.18

E. W. N O T E. 116.D-577 ⁵/₁₈

The Director of Public Instruction submits 2 Drawings bearing D.P.I.Nos.222-A and 222-B with a detailed estimate amounting to Rs.8,500 for a grant-in-aid, towards the cost of constructing a building for the Canadian Baptist Mission Girls' School at Vizianagaram, Vizagapatam District.

II. The Drawings and the estimate have been examined in the Chief Engineer's office and are returned for revision with the following remarks :-

(1) According to the site plan D.P.I.No. 222(A) the school is at a distance of about 5'-0" from the adjoining building on the left or east side, 1'-0" from that on the right or west side and 4'-0" from the compound wall in front or north side, and very near the latrines. What the existing buildings are like is not stated. Presumably they are to remain. If so the proposal to construct a school building leaving narrow insanitary spaces between it and the existing buildings cannot be recommended. Further, the planning of the proposed building suffers through its having to be confined within too small a space.

(2) The accommodation required to be provided is not stated.

(3) According to educational rules, access to class rooms should be had by means of doors opening to verandahs and there should be no communication from one

class

class room to another.

(4) The construction of the stairs and of the floor adjoining them requires illustration by detailed drawings. A separate room for the stairs would be a preferable arrangement.

(5) The wooden beams supporting the 1st floor should be 9" x 18" instead of 8" x 12" and the wooden joists 2 1/2" x 8" instead of 2" x 7".

(6) Steps to entrances in Ground floor are not shown on the Drawing.

III. The scheme requires complete revision

Station Madras , Dated the 30 August 191

From (Name) the Hon'ble Mr. J. H. Stone, M.A., F.R.E.S., C.I.E.,

(Designation) Director of Public Instruction, MADRAS.

To The Secretary to the Government of Madras,

HOME (EDUCATION) Department.

Sir,

With reference to your Memorandum No. 482 B-2 dated 18th May 1918 in connection with the construction of a building for the Canadian Baptist Mission Girls' School, Vizianagaram, I have the honour to submit herewith the revised plans bearing Nos. 228 A to C with estimates amounting to Rs. 9,000 received from the Correspondent and to recommend that a half grant may be sanctioned, to be paid when funds become available.

2. A copy of the Correspondent's letter dated 30th July 1918 is also herewith submitted.

I have the honour to be

Sir,

Your most obedient Servant,

R. Ariv

for Director of Public Instruction,

Letter dated 30th July 1918 from the Correspondent,
C.B.M. Girls' School, Vizianagaram.

1 Referring to your favour R.C.No.2170/17 dated June 20th permit me to say the matter has been carefully considered and we are forwarding new plans and estimates of our proposed school building.

2 Special attention has been paid to the points noted by the Chief Engineer in his note dated May 17th No.116 D/ and forwarded to me by you, June 20th.

3 In order to have as little delay as possible and secure accuracy in making new plans, our Contractor met the Chief Engineer who kindly referred him to the Assistant Engineer in Madras. He, in turn, went carefully over the whole scheme with the Contractor and very kindly gave minute instructions regarding the proposed building. Every care has been taken to follow the instructions and we now present the plans and estimates to you with the request that you will kindly forward them as soon as possible to the Director of Public Instruction to be forwarded to the Chief Engineer.

4 The estimate is 9000 rupees. We are applying for half the amount from the Government. As previously stated, we are prepared to comply with all the regulations and agree to maintain our school for twenty years at least and we hope, for many years more.

5 In regard to the proposed building, the objections made by the Chief Engineer, have been corrected.

(1) The plan of the present building is given. We propose to demolish it and erect our new building on part of the site. The present building has the greatest length running north and south. We propose having the greatest length of the new building running east and west. The existing building is in a dilapidated condition. The materials are very old and will not be of any use in our new building.

6 We propose acquiring the properties adjoining us, thus enlarging our garden and playground. Our school will be about 8 ft. from the road in the front and we have a good sized play ground at the back.

(2) It is proposed to accommodate 45 pupils in each of the three rooms down stairs and 60 in the upper hall.

(3) Our present plan provides access to class rooms by means of the verandahs and there is no communication from one class room to another.

(4) Drawings of the stairs and the floor adjoining them are given in detail.

(5) The wooden beams and the wooden joists have been altered.

(6) Steps to the entrance are shown on the drawing. Every care has been taken to follow instruction and to correct mistakes.

7 Our building is urgently needed. The strength of our school is increasing and the accommodation is very inadequate. If at all possible we would like to begin the work of building by the first of September and have the building completed by the end of March 1919.

8 We will greatly appreciate an early and favourable reply to our petition.

Note by the Chief Engineer, P. W. D.

no 672 D 76.10.18

In accordance with the remarks contained in the note by the Chief Engineer, No.116-D, dated 17th May 1918, the Director of Public Instruction submits 3 revised plans bearing D.P.I.Nos.228-A to C and a detailed estimate amounting to Rs.9,000 for a grant-in-aid towards the cost of constructing a building for the Canadian Baptist Mission Girls' School at Vizianagaram, Vizagapatam District.

II. The revised plans and the estimate have been scrutinised in the Chief Engineer's office, and the sizes and spacings of some of the roof/floor timbers altered where necessary. The wall plates under the ends of joists supporting terraced floor are unnecessary and have therefore been omitted. Provision is now made in the estimate for wrought iron works for the trusses, which was omitted in the estimate submitted.

By these alterations the total amount of the estimate is reduced from Rs.9,000 to Rs.8,800.

III. The Superintending Engineer should satisfy himself as to the nature of the soil and the suitability of the foundations.

IV. The end abutments in the front verandah should be increased from 2' 3" to 3' 0" to withstand the thrust of arches.

V. With these remarks the drawings and the estimate as altered in the Chief Engineer's office, the latter amounting to Rs.8,800 are recommended for approval.
