temporary additional teacher on Rs.20 who is in charge of the School is only of the Elementary Higher Grade. The Inspectress's proposal is reasonable and I beg to commend it for the sanction of Government temporarily for one year from 1st September 1918

2. The extra cost during the current year amounting to Rs.180 can be met from the lump provision of Rs.53,200 in the budget for 1918-1919 made for, among other objects, the strengthening of the staffs of the Government Secondary and Elementary Schools for girls.

Sir,

p. 4 ante

With reference to Government memorandum No.1825, B-2 dated 27-9-18, I have the honour to state that the Inspectress of Girls' schools, Southern Circle, whom I have consulted, reports that Rs.30 is the least amount without Grain Compensation Allowance for which a secondary grade teacher will be available. It may be mentioned that rule 82 of the Madras Educational Rules allows the employment of a headmistress on Rs.30 when there are seven teachers which is the case in Puthur and that the head teachers

teachers of the Government Girls' school, at Dindigul, Srirangam and Pollachi are paid Rs.30 each and those in the schools at Erode and Karur Rs.40 each.

L. 1825/B, from the D. P. I., R. L. 5549/18, 17.8/18

Subject: - Employment of a temporary teacher on Rs 30 p. M. in the Govt. girls' school, Pathur.

Under rule 81 of the Madras Educational Rules the school would require as many as nine teachers. The Director's proposal to employ another temporarily ^(in addition) to the existing staff of seven would make the number only eight - i.e. one less than the number ^(under the Ed. Rules) admissible. The additional teacher may therefore be sanctioned. In regard to the rate of pay, Rs 30 does not seem excessive for a secondary grade mistress. In fact the Director's proposal makes for some economy. For, under Rule 82 of the Educational Rules, the nine teachers allowable under rule 81 will have to be graded as in the margin and would cost in all Rs 132 P.M.; whereas the eight teachers actually to be employed will cost only Rs 124. The proposed pay of Rs 30 p. M. to the new teacher may ^{therefore} be applied.

The Director wants

Six teachers on Rs 25, 20, 15, 12, 12 & 12 for the seven standards & three teachers on Rs 12 each for the 3 sub-divisions of Standards I, II & III

20, 14, 5 on 12 + 1 on Rs 30, now proposed

Sanction to employ the teacher from 18. Sep. 1918. As that date has ~~now~~ ^{away} passed the sanction may take effect from the date of contestation.

Should the H.P. come up later on for the full complement there will probably be an excess men the total pay admissible, I think therefore the pay should in this case be limited to Rs. 25/- without g.c.a.

It has been pointed out by the D.P.D. on several occasions that it is not possible to obtain and retain secondary trained mistresses on Rs 25 p. M. In the present instance the additional teacher proposed is to be in charge of the highest standard and be the headmistress. Though under Rule 82 of the Educational Rules only Rs 25 is admissible, the D.P.D.'s proposal as a whole results in a ^{diminished expenditure} of Rs 8 p. M. as shown at p. 1 ante. In the above circumstances financial may be asked again whether they still insist on Rs 25.

We may just put it to the D.P.D. by memo as to why Rs 25 should not suffice. If he says that Rs 30 should be paid we may then move this to reconsider.

years ago ever with tradition
of the above (Vib) goal at

The first of these is the fact that the
 number of people who are now
 living in the United States is
 more than double the number
 who lived here in 1900. This
 increase has been due to a
 number of causes, but the
 most important is the fact
 that the birth rate is still
 high, and the death rate is
 low. This is true of all
 civilized countries, and it
 is the result of a number of
 factors, including improved
 medical care, better sanitation,
 and a higher standard of living.
 The second of the causes
 mentioned above is the fact
 that the immigration of people
 from foreign countries has
 been very large. This is
 especially true of the United
 States, where the number of
 immigrants has been increasing
 steadily for many years.
 The third cause is the fact
 that the population of the
 United States is becoming
 more and more concentrated
 in the eastern half of the
 country. This is due to a
 number of factors, including
 the fact that the climate is
 more favorable in the east,
 and the fact that there are
 more jobs and opportunities
 in the east.
