VII. This Council recommends to His Excellency the Governor in Council that the scheme proposed by the Government of India dated the 4th September 1918 for the expansion of elementary education for boys during the next ten years may be adopted and that early effect may be given to it.

VII. This Council recommends to his Excellency the Governor in Council that

Attention is solicited to this Excellency the Governor's note on page 11 of Notes to G.O. No. 1351, Home (Education) Department dated the 4th September 1918, the scheme proposed by the Government of India and contained in their circular dated the 4th September, this year, for the expansion of elementary education for boys during the next 10 years may be adopted and that early effect may be given to it.

Our proposals for the expansion of elementary education will be contained in our Elementary Education Bill and they will supersede all previous proposals or programmes such as those in which the Government of India dated the 4th September, this year, for the expansion of elementary education for boys during the next 10 years may be adopted and that early effect may be given to it.

2. The draft Elementary Education Bill is to be discussed at the next meeting of the Executive Council and will, in due course, be published for criticism. For the reasons given in the note above it is suggested that the resolution as worded can be accepted. The position may be explained to the Additional Member at the meeting with a view to his supporting the resolution.

3. Orders are requested whether the resolution should be discussed at the meeting of the Executive Council, whether further particulars should be called for and as to who should be in charge of it.
