p 36 of the report

^{corrected upto 31st March 1918}
 gives the number of villages with a population of more than 1,000 that are not provided with an elementary board or aided schools, in respect of each dt in the Presidency. The figures for Malabar and S. Kanara are 250 and 129 respectively.

4. The percentage of male pupils to male population in Malabar is 7.2 while that for S. Kanara is 5.7 as against a Presidency average of 5.3.

The former stands 2nd and the latter 6th in the Presidency in the matter of elementary education. There does not therefore appear to be any need to ^{alone} call for ^{Special} proposals from these districts, in this direction indicated.
