OFFICE OF THE DIRECTOR OF INDUSTRIES,

Madras, 24th May 1918

No. Gc 100

From

I. B. Green, Esq.,

Asst. ACTING DIRECTOR OF INDUSTRIES,

Madras,

To

The Secretary to Government,

Home (Education) Department,

Ootacamund.

Through The Director of Industries, Madras.

Sir,

I have the honour to state that in view of the fact that the work of the Indian Munitions Board is rapidly and continuously increasing it has been decided to prepare as complete a list as possible of persons suitable for employment under the Board. The Board considers that there must be a large number of persons in the commercial and official community who have special qualifications which would justify the Board in endeavouring to secure their services for war work, and I venture to request that I may be permitted to register my name for whole time service under the Board.

2. At the present time the Board have a special need for the services of gentlemen qualified to deal with a number of lines which are scheduled under eight separate heads. I am, by reason of my special knowledge, and combination of technical and administrative experience, well qualified for service under at least three of these heads namely, (1) Purchase of metals, hardware and miscellaneous stores, (2) Inspection of stores and supplies and (3) General administration and Secretarial work.

3. I am already nominally employed under the Board as a part time officer, but my special knowledge and experience is not utilised to anything like the extent which it could be in

other circles, and Munitions Centres, and I feel strongly that at a time when the Munitions Board are in need of officers possessing various kinds of technical knowledge and ability, it is a waste of man power to retain me at Madras. A considerable proportion of the time I have spent on Munitions administration up to the present, has been in connection with coir goods which are relatively of small importance, and could quite satisfactorily be looked after and inspected by a non technical assistant. Also the demand for this class of goods shows signs of slackening. I may add that if Government are prepared to agree to my services being placed at the disposal of the Indian Munitions Board, subject to the condition that if I accept such service, I must first resign my appointment of Assistant Director of Industries, I should be quite willing to do so.

4. I am afraid that the procedure I have adopted in addressing Government on this matter is somewhat irregular, and may be without precedent, but the times are exceptionable and in the special circumstances of the case, I ask to be excused.

I have the honour to be,

Sir,

Your most obedient servant,

L. Green

Asst. Director of Industries.

M.F.

Forwarded.

2. I have already told Mr. Green that I am not prepared to support this application. I have always taken the view that a qualified mechanical engineer is essential in the Dept. of Industries. Mr. Green has just accepted a
