No. 388

Government of India.
DEPARTMENT OF EDUCATION.
(Education.)

Simla, the 17th May 1918

From

The Hon'ble Sir E.D. MacLagan, K.C.I.E., C.S.I.,
Secretary to the Government of India.

To

The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

The Government of India have at their disposal during the current financial year a sum of Rupees five lakhs for non-recurring expenditure on industrial and technical education, and they would be glad to be favoured with any suggestions which the local Government may desire to offer for its utilization. Suggestions should be confined to cases in which the money can be usefully spent either in the current year or very soon afterwards.

2. It is requested that a reply to this letter may be given by the 1st July 1918 so as to enable the Government of India to distribute the money as soon as possible.

I have the honour to be,

Sir,

Your most obedient servant,

Smalley

Secretary to the Government of India.

From (Name) The Hon'ble Mr. J.H. Stone, M.A., F.R.H.S.,

C.I.E.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

Home (Education)

Department.

Sir,

With reference to Government endorsement No. 1360 A-1, Home (Education) dated 27-5-18, I have the honour to state that I have not ready any scheme other than that put forward in my letter Cur No. 10281/17 dated 15-12-17 for the extension of Manual Training in schools which has any bearing on Industrial Education.

I understand also from the Government of India's letter that the 5 lakhs in question is to be distributed among all Local Governments so that the amount that would come to this Presidency, besides being unfixed, is not likely to be large.

Desirable

para 6, p. 30f

1571/18. (R)

The estimated cost
Rs. 50,000/- has been
provided for in the
current year's
budget

Desirable as it no doubt is to give a more vocational or industrial turn to Elementary education, I do not think that the India's present offer can be taken advantage of for this purpose.

I have however been in correspondence with the Director of Industries about accommodation for this trade school in Madras and he considers that the building ~~is~~ on Pophams Broadway, now occupied by the Panchama Training school would serve the purpose. The transfer of this school is not undesirable on educational grounds and it has occurred to me that a contribution from India might be used to provide accommodation for it elsewhere; What the cost of this would be, I can only very roughly estimate but since it would probably involve the purchase of a site, I doubt if it could be done for less than Rs.75,000.

I have the honour to be,

Sir,

Your most obedient servant,

To The Secretary to the Government of Madras,
Home (Education) Department.
Ootacamund.

Sir,

I have the honour to reply to Government's Endorsement No. 1360A-1 dated the 27th May last asking for suggestions for the utilisation of the sum of rupees five lakhs which the Government of India have at their disposal during the current financial year for non-recurring expenditure on industrial and technical education.

2. I delayed my report until Mr. Fyfe had been able to visit Cocanada with reference to the proposed Engineering school at that place in his

site should be acquired and that brick buildings should be constructed with a view to the school being properly equipped as soon as the war is over and normal conditions are restored. About Rs. 30,000 could be usefully set aside for this purpose provided that Government adhere to their decision to establish a school at Cocanada. I am at present consulting the Collector, the President of the District Board, and the Chairman of the Municipal Council with reference to Mr. Pyfe's report and as soon as I get their replies I shall be in a position to address the Government. In the meantime I think that Rs. 30,000 might be set aside as the cost of site and building of the Northern Circars Mechanical Engineering School.

3. In G.O. No. 723 Home (Education) dated the 6th June 1918 ^{the} Government have also approved of the proposal to establish ~~a~~ Government Trade School in a permanent building of its own. I don't think that it will be possible to find in George Town a suitable building for a school and probably it will be necessary to acquire a site and construct a building. This I regard as a very important project and I think that Rs. 75,000 be usefully earmarked for this purpose. I have no other suggestions to make.

I have the honour to be,

Sir,

Your most obedient servant,

M. N.

Director of Industries.

NOTES.

Page 2

From the Officer in charge of the Dept. of Industries, N^o 102, dated the 25th June 1918.

The D.P.I. and the officer in charge of the Dept. of Industries have suggested the following objects for the utilization of a portion of the sum of Rs.5 lakhs set apart by the Govt. of India for non-recurring expenditure on industrial and technical education:-

- (i) Building for the Madras Trades School..75
- (ii) Building for a mechanical engineering school in the Northern Circars. .30

2. Madras Trades School. The Govt. have recently decided to place the Madras Trades School on a permanent footing. Mr. Innes suggested that the site and buildings of the Govt. Panchama Training School, Georgetown, should be made available for the location of the Trades School. As the D.P.I. did not agree to this proposal, Mr. Innes has been asked to select some other suitable site. He now suggests that a sum of Rs.75,000 may be earmarked for site and buildings for the school. It is submitted that the Govt. of India may be asked to sanction a grant of this amount. From the D.P.I.'s letter in the current file it would appear that he is now inclined to surrender the Panchama Training School premises for the location of the Trades school. If so, the sum of Rs.75,000 asked for may be utilised for site and buildings for the Panchama school.

3. Mechanical Engineering school for the Northern Circars. As early as 1914 the Govt. decided to establish a mechanical school in the Northern Circars.

(Separate file byinpoes)

private enterprise coming forward for the establishment of such a school. Mr. Innes recently stated that the school under private management will not impart instruction in mechanical engineering. It has therefore been decided to proceed with the original scheme for the opening of a Govt. school in the Northern Circars and Mr. Innes has been requested to submit his proposals to this effect. He states that he is consulting the local authorities and suggests that about Rs. 30,000 could be usefully set aside for this purpose provided that Govt. adhere to their decision to establish a school at Cocanada. The Govt. of India may be requested to ^{allot} ~~convey~~ this amount. A provision of Rs. 25,000 has been made in the current year's budget on account of the school but a good portion of this amount will be required to meet recurring charges e.g. cost of maintenance, etc.

4. A draft letter to the Govt. of India is submitted for approval. The file may be sent to the Finl. dept. ^{before the letter issues.} ~~before the letter issues.~~
