Re No. 1825/18

Station, Dated the 14-5-1918

From (Name) The Hon'ble Mr. J.H. Stone, M.A., F.R.H.S.
C.I.E.,

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

Home (Education) Department.

THROUGH THE ACCOUNTANT-GENERAL.

Sir,

I have the honour to request that you will be so
good as to obtain the sanction of Government with effect from
1-7-18 to the transfer to the ninth grade of the Provincial
Educational Service of one of the posts in the fifth class of
the Subordinate Educational Service--Collegiate branch--in
view to the substitution of a post of additional Professor of
Physics for one of the assistant Professorships of Physics in
the Presidency College.

2. The present staff of the Physics department in the
college consists of a Professor in the Indian Educational
Service and three assistant Professors in the Subordinate
P.T.O.

Subordinate Educational Officer--Collegiate branch--besides a Professor of Mathematical Physics in the Provincial Educational Service. When this appointment was first created it was supposed that it would strengthen the Physics department of the college and make the appointment of an additional Professor of Physics unnecessary. Mr. Jones however states that the Professor of Mathematical Physics lectures to the Pass and Honours students on the mathematical methods used in Physics which work takes up his full time and that the assistants also now take part in the work of the B.A. courses though until last year they were unable to undertake any work in the Honours course. Mr. Jones reports that M.R.Ry. P.K. Anantanarayana ayyar, the senior of the assistant Professors in the Subordinate Educational Service--Collegiate branch--lectured to the Honours students in Physics last year which was of great help to them and that if he is transferred from the college as he will have to be in the ordinary course with a view to get into the Provincial Educational Service there will be no one on the staff equally competent to assist in the work of the Honours class next school year and that the work will suffer until some one else is trained to do the work which must necessarily take time. It is also pointed out that there are two professors in the Indian Educational Service and two assistants in the Subordinate Educational Service sanctioned for the Chemistry department in the college while the number of students attending B.A. Pass and Honours classes in that department is less than that in the Physics department, i.e. 28 against 38. The number of students taking Physics in the Intermediate is the same as that taking Chemistry i.e. 133. The Professor of Physics therefore strongly recommends the employment in the college of an additional Professor of Physics in the Provincial Educational Service who has had a thorough training in laboratory work and in experimental methods in order to cope with the heavy work of the Pass and Honours classes.

In the circumstances set forth above, I consider that Mr. Jones' proposal which is supported by the Principal, to be reasonable and that the immediate needs of the Physics department can be met by transferring the post of one of the Physics assistants in the Subordinate Educational Service in the college to the cadre of the

the Provincial Educational Service so that M.R.Ry.P.K. Anantanarayana ayyar who is already discontented on account of his supersession and consequent loss of promotion may be continued in the college in the new post. In this connection I beg to invite the attention of Government to my letter C.No.354 dated 11-1-18 and to G.O.No.209 Home (Education) dated 19-2-18 passed thereon.

3. From the details of the number of appointments in the Subordinate collegiate service given in the margin it will be

	Permanent.	Temporary.	observed that the number
I class (200)	2	..	of appointments in the
II .. (175)	6	..	First class is only 2
III .. (150)	7	1	which number is already
IV .. (125)	9	2	
V .. (100)	13	4	
	37	7	

small and which therefore I do not want to reduce making the service less attractive. I accordingly propose the reduction on this account of the ^{number of} permanent appointments in the last class of that service from 13 to 12. The extra cost involved by the proposal will be Rs.100 per mensem or Rs.800 during the eight months of the current year for meeting which I shall submit a reappropriation statement on receipt of the final issue of the Civil Budget Estimate. Considering the efficiency of the Physics department which the proposal is expected to result in the extra expenditure of Rs.100 per mensem should in my opinion not be grudged.

4. Before concluding I beg to add that Mr. Jones felt the need for the additional Professorship in 1914 but I did not then bring the matter to the notice of Government as I thought that the existing arrangement might be given a further trial. As already pointed out the existing system in the Physics department calls, as the result of the "further trial", for a revision in the direction indicated above.

I have the honour to be,
S i r,
Your most obedient servant,

W. K. Anantanarayana
4.5.18
for Director of Public Instruction.

Office of the Accountant-General,

M a d r a s,

Fort St. George, 1st June 1918.

No.G.A.30 - 8736

NOTES.

F o r w a r d e d.

2. There is no audit objection to the proposal being sanctioned.
3. The sanctioned scale of the subordinate Educational service (Collegiate branch) shown in para 3 of the Director of Public Instruction's letter has been compared with the audit registers of this office and found correct.
4. The reappropriation of funds promised should be made before any extra expenditure is incurred.

C.No.1432,

From the Director of Public Instruction, No.1825, dated the 14th May 1918.

Subject.- Conversion of one of the three posts of Assistant Professor of Physics in the S.E.S. into one of Additional Professor of Physics in the P.E.S. in the Presidency College.

The Director recommends the substitution of a post of additional Professor of Physics in the Provincial Educational Service for one of the three Assistant Professorships of Physics in the Presidency College. The extra cost involved in the adoption of the proposal is Rs.100 per mensem.

2. In the ~~xxx~~ proposals submitted in 1911 for the strengthening of the Physics department, the Professor of Physics recommended the appointment of one additional Assistant Professor in the Provincial Educational Service and two temporary demonstrators; but the Director in view of the fact that additions were not then made to the cadre of the P.E.S. pending the reorganization of the service, considered it enough to appoint the additional assistant in the first grade of the S.E.S. and this was accepted by the Govt.-G.O. No.310, Educational, dated 11-4-13. Again in his letter No.354/18, dated 11-1-18 the Director stated that it was undesirable to propose the inclusion of one Asst. Professor ^{of Physics} in the P.E.S. ^{while} general questions regarding the future of that service are under consideration. The Director has since changed his mind and ^{now} recommends the creation of a post of Additional Professor of Physics in the P.E.S. in place of one of the ^{three} posts of Assistant Professors employed in the College.

Anantapur)

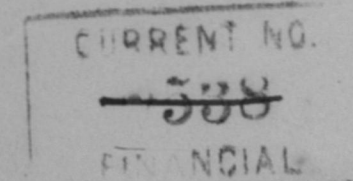

3. The Govt. have recently sanctioned additions to the cadre of the P.E.S. and the objections raised in 1912 do not therefore now hold good. As pointed out by the D.P.I., there are two Professors in the I.E.S. for the Chemistry department in the College, although the number of students in that department is less than that in the Physics department. Besides one of the Asstt. Professors (M.R.Ry., P.K. Anantanarayana Ayyar) is now ^{lecturing} ~~transferring~~ to the honours students in Physics and is thus practically doing the duties of a Professor and it does not appear right that he should be kept in a subordinate position while performing more responsible duties. The D.P.I.'s proposal to include one of the three posts of Asstt. Professors in the Physics Dept. in the P.E.S. cadre may therefore be accepted.

4. The Director has also made out a good case against a reduction in the number of posts in the 1st class of the Subordinate Educational Service, Collegiate Branch, and his proposal to abolish one of the posts on Rs.100/- may, it is submitted, be accepted.

5. The file may go U.O. to Financial for remarks.

Recd 17-6-18.

Recd (uo)

For the Asst. Secy.

Financial Dept.

The extra cost involved in the proposal of the D.P.S. to transfer to the Prov. Ed. Service one of the posts in the Subordinate Educational

Service, Collegiate Branch, comes to Rs 100 p.m.
or Rs 1200 p.a.

2. Please see correspondence, notes and orders
in S.O. 209 Home (ED#) & 19.2.18. The D.P.S. then
proposed ~~to grant~~ a compensatory local
allowance of Rs 50 p.m. to ^{M.R.R.} P. H. Anantanarayana
Ayyar, Senior Asst. Professor of Physics in the
Presidency College (the officer to be benefited by
the present proposal) to compensate him for
the loss sustained by him by being retained
in the College. The Govt. however negatived
the proposal. From the correspondence in the
C.F., it will also be seen that the present

proposal is also ~~intended~~ made in order to
benefit ^{M.R.R.} P. H. Anantanarayana Ayyar,

3. Apart from the personal consideration,
it is submitted that, as noted by the Home (ED#),
Dept. on pages 1-2 ante, the considerations which
led in 1912 for the inclusion of Anantanarayana
Ayyar's post in the subordinate service instead
of in the P.E.S. do not seem to exist now. The
D.P.S. also seems to have made out a case
for allowing one more P.E.S. officer for the
Physics Dept of the Presidency College. In the
circumstances, the proposal to transfer a
post from the subordinate service to the P.E.S.
may perhaps be agreed to. The rates of pay
of the posts to be created and to be abolished

call for no remarks.

4 The D.P.S. will have to be asked to forward a reappropriation statement to meet the extra cost in 1918-19, and he may be informed that extra expenditure should not be incurred there until the reappropriation of funds is 22.6.18 sanctioned.

22.6.18

A sanction number will be given after A.S. CS approve the proposal

is submitted that, as noted by the Home (CS) in 1912 for the purpose of a reappropriation of funds in the D.P.S. do not seem to exist now. The D.P.S. also seems to have made out a case for allowing one more P.S.S. officer for Physics Dept. of the Presidency College. In circumstances, the proposal to transfer from the subordinate service to the P.S.S. may perhaps be argued to be one of the best.

3. The reappropriation statement promised by the D.P.I. is awaited. No extra expenditure should be incurred until the necessary reappropriation of funds.
