Roc. No. 247/18

Station Madras , Dated the 15th June 1918

From (Name) D.A. Innes, Esqr., I.C.S.,

(Designation) Director of Industries, Madras.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I have the honour to report the following case for
the orders of Government.

2. Rev. Gomez Correspondent, St. Joseph's Industrial
School, Trichinopoly applied last July for a special two-
thirds grant towards a total estimated cost of Rs. 8500 for
the construction of a building for the school. The need
for the additional accommodation was explained to be due to
the fact that there was no room for holding drawing classes
the library or the office. What accommodation there was,
was only verandahs or sheds and these were occupied with
the machinery and workbenches. I enquired of the Corres-
pondent whether in view of the financial stringency the
building scheme could not be postponed. In his reply, Rev.

SK

Reverend Gomez explained that the existing accommodation was quite inadequate and that, as it was, he was having the loan of the orphanage for the classes, an arrangement which with the recognition of the school and the consequent rush of applicants for admission could not be continued for any length of time. As however the Manager applied for a two-thirds grant and money was needed in ^{many} other directions I informed him that while I recognized the claims of the school I could not in the then financial circumstances recommend a building grant.

3. The Correspondent renewed his application early in January last stating that as the need for accommodating the drawing class was very imperative the management had made up its mind to put up a more modest building which was done at a cost of Rs. 2883. He reported that the management was able to contribute only Rs. 400, that public charity supplied a sum of Rs. 1250 and that the balance of Rs. 1233 had to be raised as a loan. He requested that in the circumstances his action in putting up the building in anticipation of sanction be overlooked and prayed that a Government grant to help repay the loan ^(Rs. 1233) might be sanctioned. Mr. Fyfe who was consulted reported that the school has been doing good work and recommended that a grant towards the payment of the debt on the new building might be sanctioned, in consideration of the fact that the school had hitherto had no assistance from Government. I therefore asked the Executive Engineer Trichinopoly to inspect the building and inform me whether it was worth the amount spent on it and whether in his opinion a Government grant would be justified. He has now reported to say that the building is quite good and that a Government Grant would be justified.

4. Taking all things into consideration, I recommend that the manager's irregularity in commencing and completing the building without ^{obtaining} previous sanction may be condoned and that a building grant of Rs. 1233 may be sanctioned as a special case. The expenditure can be met from the provision of Rs. 20,000 made in the current year's budget under 25 Bm Scientific and Miscellaneous Departments "Grants-in-aid and scholarships for Industrial Schools".

General room

5. In the peculiar circumstances of the case, I have not insisted on the submission by the Manager of the application, plans and estimates etc. in strict conformity with the instructions issued in G.O. Circular No. 116 C dated the 4th January 1913 (P.W.D.). The correspondent will be required to execute the usual deed of agreement before the grant, if sanctioned, is paid.

I have the honour to be,
Sir,
Your most obedient servant,

M. N. S.

Director of Industries.

M. N. 18/6

Enclosures

- (1) Correspondent's application for Special grant Rs 12 Jan 1918
- (2) Copy of Correspondent's Supplement to accompany the application for building grant Rs 4.7.17
- (3) Copy of letter from the Executive Engineer Trichinopoly No 3987 D 7 6.18
- (4) Statement of actual Cost.
- (5) Plan of the building

which the articles are
proposed to be pur-
chased.

No. of article of the
kind already on hand.

Remarks.

In the case of Special
grants information as
to whether the manager
now is prepared to
contribute one half of
the cost of a special
grant cannot be
spared.

The need for the building was so
imperative that the management
found it necessary to erect it
at once. The management
however was able to contribute only Rs 400
Public charity contributed Rs 1250
The surplus Rs 1232-15-5
has been met with by a loan.
The management would be
thankful for a full or
part contribution of Rs
Rs 1232-15-5

Application for
Special

Grants for 17-18

This school was begun in the year 1908 and all the buildings have been put up solely from the funds of the mission without any Government aid. And it may be added that this Factory Industrial School has been a source of an annual deficit and no profit to the mission. As all the accommodation is in the shape of open Verandas or sheds which are fully occupied with the machinery and the working benches, there is no available accommodation for drawing classes or library or even an office room, to which the Inspector Mr. Wyfe himself would testify as he himself had to be received in an open shed where his private conversation had to be exposed to all the passing workmen and to avoid which inconvenience he had to be taken to the Press Office Room.

It is therefore proposed to build a storied building 53'9" x 23'9" ; the lower story as is clearly shown in the plan, is to be an open hall with only granite pillars and arches all round to give free ventilation. This will be used purely as the working place of the School students of Carpentry and Fitting.

The upper hall is to be divided by wooden screens into class rooms and library and office. As it is, we have been obliged to have the loan of the orphanage for our drawing classes.

With the present European war, the mission is unable to gather from European charity, funds enough to meet the total expenditure of the proposed building; but the management, however, offers to meet one-third of the total cost and requests the department two-thirds of the total cost.

The property which is a compound of thirty-nine acres of land and in which the building is to be erected, is in the possession of the Catholic Bishop of Trichinopoly, and which has been accepted as such by the Government Solicitor, the deeds having been recently submitted to him in connection with ~~another~~ another Hostel building Grant sanctioned by the Government, attached to R.C. Boarding and Training Section which is also situated within the same compound of thirty-nine acres of land.

I hope the department will favourably consider the proposal as especially there is a rush of students to this Industrial School after its recognition and as so far this school has received no aid from the Department.

Trichinopoly,

Copy of letter No. 3987 dated 7-6-18.

From

A.R.deChazal Esquire.,

Executive Engineer,

Trichinopoly Division.

To,

The Director of Industries,

MADRAS.

Sir,

Referring to your R.O.C. 247 dated 6th May, 18 regarding the St. Joseph's Industrial School, I have the honour to state that I visited the building on the 29th May. I prepared a detailed estimate of the work done at P.W.D. rates; it comes to nearly the same sum which the correspondent certifies he spent on the building.

(2). The work is quite good, the building will serve a useful purpose. I enclose a certificate in the usual form. I believe that a Government grant for it would be justified.

CM 1617 A. From the officer in charge of the
Dept. of Ed.; Rec 2478, 15:6:18.

Subject. Building grant to the
St. Joseph's Industrial School,
Trichinopoly.

Under the rules in chapter VIII
of the Grant-in-Aid Code managers
of schools who wish to apply
for building grants should submit
applications in the prescribed
form with plans & estimates
to the Director of Public Instruction
& the Director of Industries. ~~The~~
After the scrutiny of the plans
& estimates by the P.D., ~~the~~ grants
are sanctioned by the Director
or the Govt, as the case may be.
The grant is actually disbursed
only after an officer of the P.D.
has certified that the building
has been erected in accordance
with the approved plans &
estimates and after the
necessary deed of agreement
has been executed by the
management as laid down
in

Rule 57 of the grant-in-aid Code.

para 4, p. 2 of c.f.

¶ This will be met from the current year's Budget provision of Rs. 20,000 for Building Grants under 26 Bm (Page 214 C.F.E.)

Para 4 on p. 2 CF

p. 6 of c.f.

in rule 57 (ii) of the Grant-in-aid Code. The rules also insist that in the absence of the special permission of the Director or the Govt. the ^(construction of the) buildings must not have been commenced before the sanctioning of the grant. ~~However~~ These rules have ^{only} been followed in the present case. But Mr. Innes recommends that as a special case a grant of Rs. 1,233 towards the total cost (Rs. 2883) of constructing the drawing class & office room ~~may~~ for the St. Joseph's Industrial School, Trichinopoly, may be given. The Executive Engineer certifies that the building is "quite good" and that the cost reported by the management is nearly the same as that worked out by him. In these circumstances the grant recommended by Mr. Innes may be sanctioned. A draft order is submitted for approval. It may be sent to Govt. for acceptance.
