From

The Honorary Secretary to the Central Committee, European
Schools Improvement Association, Calcutta, 20th April '18.

To

The Secretary, Govt. of India, Department of Education,

S I M L A:

I have the honour to inform you that at a meeting of the
Executive Committee of this Association recently held the
questions of providing opportunities for university education
for promising students, and of founding scholarships for deserv-
ing students, at different stages of their education, both of
which are objects of the Association, as set forth in the appeal
published in "The Times" on the 30th April 1911, were considered.
The following is an extract from the Minutes of the meeting:-
"The view was held that no decision could be come to in the
absence of more precise information than the Committee possessed
as to the extent to which ~~promising~~ promising students are not
already provided with such opportunities, or will not be provided
with them under the operation of the rule that only graduates of
the Indian Universities shall be eligible to the state scholar-
ships, similarly, as to the extent to which scholarships are
required in addition to those already founded. The Honorary
Secretary was directed to request the Government of India to
furnish the Committee with as much information on these points
as their nature--i.e. their complexity, etc.--permitted, and
report to the Committee.

2/. I am to ask you to be so good as to let me have as full
information as the circumstances permit.

I am directed to forward, for information, a copy of
the marginally noted papers and to request that the Honorary
Secretary to the
Central Committee of
the European Schools
Improvement Association
dated 17th April 1918, from
the Honorary Secretary to the Central
Committee of the European Schools
Improvement Association, to the
Secretary to the Government of India,
Department of Education, Calcutta.
I have the honour to be,
Sir,
Your most obedient servant,

Secretary to the Government of India.

Simla, the 27th May 1918.

From

The Hon'ble Sir E.D. MacLagan, K.C.I.E., C.S.I.,
Secretary to the Government of India.

To

The Honorary Secretary to the Central Committee,
European Schools Improvement Association,
11, London Street, Calcutta.

Sir,

In reply to your letter, dated the 20th April 1918, I am directed to say that the Government of India regret that they are not in a position to supply you with information as to the number of scholarships which are at present awarded annually to students of the domiciled community at different stages of their education and as to the extent to which additional scholarships may be required. They are, however, addressing the various local Governments and Administrations with a view to their furnishing you direct with as much information as possible on these two points.

2. With ^{regard} reference to the existing opportunities of the domiciled community for the University education in Western countries, I am to say that two - ~~XXXXXX~~ of the various ^{State} scholarships - one for males and the other for females - are reserved for students of the community and that though preference is naturally given to graduates in the selection of a scholar for the scholarship for males, the possession of a degree is not absolutely a sine qua non for this scholarship. On the question of providing additional facilities for University education abroad and in India, I am to invite attention to Resolutions IV(iii) and (iv), V(i) (ii) and (iii) and XV(v) of the Resolutions passed at the Conference on the education of the domiciled community which was held in Simla in July 1912 and to the remarks thereon in this
