The real object of this
Step on the part of Govt.
is, besides provision of
facilities for secondary
education, the prevention
of "flocking of pupils into
"concentric centres" and of
the removal of young
children too far from
their homes for purposes
of study.

The policy of the Govt in regard
to the opening of secondary
schools is to rely ~~on~~ mainly on
aided agency. But the Govt
decided last year that as an
alternative to the provision
of additional hostel facilities,
it might prove more econo-
mical & satisfactory to adopt
the policy of increasing the
number of high and middle
schools under public manage-
ment. Accordingly, the Govt have
sanctioned recently the opening
of 18 high schools and 48 middle
schools under the management
of local bodies in the current
year. The net ^{additional} cost of these
schools is to be borne from
Provincial funds. The Hon'ble
Mr. K. Rama Ayyangar ~~reports~~
suggests that permanent
high & middle schools be
opened with aid from Prov-
funds in certain centres
in Madurai, Ramnad & Sivakasi
Dh. None of the ~~add~~ ¹⁸ high
schools.

The real object of this
step on the part of Govt
is, besides provision of
facilities for secondary
education, the prevention
of "flocking of pupils into
"concentric centres" and of
the removal of young
children too far from
their homes for purposes
of study.

just sanctioned by the Govt as
to be located in any of these
districts; ~~and~~^{but} of the ^(new) middle
schools Nagura got four ~~and~~^{and}
~~Kovilpathi~~ Tirunelveli ~~two~~^{two}, of which
Kovilpathi was mentioned in the resolution is one,
~~one more got a school.~~ With
regard to ~~this~~^{the selection of centres for new high schools,} the S.P.T remarked
as follows:-

p. 2 of 2. 75-7 (J)
11. 6. 18

"No high school is proposed for
" x x Madura, Ramnad, Tirunelveli
" x x chiefly because the
" needs of secondary education
" in these districts are reported
" to be met ^{by} ~~from~~ existing high
" schools and partly because
" of the absence of middle schools
" suitable for development."

Again in regard to the places selected for the location of new middle schools he observed

p. 478v. ibid (5)

as follows:—

"As regards Ramnagar, the Inspector
is of opinion that none of the
existing elementary schools
is so important as to justify
its being raised in grade, and
that the demand for secondary
education is amply met by
the

The middle & high schools in that district. Moreover in the only two localities in which the provision of facilities for secondary education was suggested viz, Kaniyapuram & Sattur, private enterprise has stepped in. It will be further noticed that Madurai will have the largest number of new schools viz, 4.

3. It will thus be seen that the requirements of the three districts, Madurai, Ramnad, and Trinevelly, have been fully considered ~~by~~ in connection with the proposals for the starting of new schools. The following statement shows the number of high ^(+ middle) schools in the three districts on the 31st March 1917:—

	No. of high schools.	No. of middle schools.
Madurai	8	4
Ramnad	7	6
Trinevelly.	12	14

~~It is~~ With the schools recently sanctioned, Madurai will have 8 middle schools, & Trinevelly.

It will also be noted from the comparative Stat. printed on page 2 of notes with p. 757 Es. 11.6.18 Trinevelly is well provided with high & middle schools and it stands third among the mufassal districts even in mere number of schools.

It will also be noted from the comparative Stat. printed on page 2 of notes with p. 757 Es. 11.6.18 Trinevelly is well provided with high & middle schools and it stands third among the mufassal districts even in mere number of schools.

and Trinevelly 16. Of the places specifically mentioned in the Resolution, Kovilpatti will as shown above be provided with a middle school with Govt. aid, Kammudi & Sattur will have ~~for~~ schools under private management ~~schools~~ and all the others, except Sivagiri & Tirumangalam have at least one middle school each. It is for private enterprise to take the initiative in respect of opening schools at the excepted & other places and the Govt. will be prepared to aid them with grants. Govt. have not started on any elaborate scheme of opening secondary schools throughout the Presidency, ~~but~~ so as to replace other agencies, present & prospective, in the field. They have only undertaken a small measure of advance with the ~~primary~~ object explained in ~~the~~ para 1 above. The policy in respect of secondary education remains as before, viz: of relying largely on private agencies for its extension.

4. The file may be sent to the D.P. for remarks in the first instance.

The resolution moved I think he should
but on the general view that Govt. have
formulated a scheme which for the extension
of secondary education by local bodies
which is as extensive as financial ex-
penditure at present permit. The extension
of the new schools has only been decided after
careful weighing and cannot be altered.
The Hon. Member might be told in the
course of the debate that moved Govt.
be in a position to extend the system
that during the places he mention
will be considered. Some of them have
secondary schools already or sy. schs.
near them. Of course a week before the
resolution will be provided with details
information about each place.
