Submtho - Although the Govt. examination rules are quite definite in the matter of restricting permanency in the Sub overseer grade to passed Candidates of the Madras College of Engineering, there are men who have specially qualified for their posts by passing in the different Engineering branches in the Govt technical examinations and by long departmental experience - In this category I would place the applicant whose abilities both from a theoretical & practical point of view I consider to be far above those of the average Sub-overseer. The certificates he has obtained from various officers & the Govt. tests he has qualified in

bear ample testimony to this fact. He has worked smartly under me for 5 months as Sub overseer in charge of the Head Quarters Section Bezwada & I found him both in outdoor and office work up to the mark in every respect - I should say his appointment to a permanency in the Sub overseer's grade would be in the interests of Govt & forward his application with strong recommendation

**Testimonial given by W. A. Mathews Esquire, L. F.
District Engineer Kistna to G. Ramachandra Rao.**

This is to certify that the bearer Gumpana Ramachandra Rao is the son of the late Head Draftsman of my Office who was formerly the Special Draftsman of the Superintending Engineer's Office Bezwada and came to my office after taking his pension. He worked for more than 3 years in my office to my entire satisfaction. He died 9 months ago leaving his widow and family in very straightened circumstances. His son the bearer of this testimonial is a failed matriculate but has passed several Technical Examinations creditably. He is young and well behaved and I am sure is quite competent to hold the appointment of a Minor Irrigation Overseer or some such similar appointment and give entire satisfaction to his superiors. I wish him all success in life.

G. Ramachandra Rao Nayudu
Temporary Sub overseer, Kistna Central Dist.
II Circle, requests that he may be
permanently exempted, from the lower

the post of a permanent Sub overseer,
in the P.W.D. The offg Engr. Mr
R Power. Strongly recommends the
exemption applied for. The S.E. has merely
forwarded the application.

2 The petitioner is a permanent
baker in the II Circle. It is stated that
he has put in 8 years service in the
P.W.D. ^{both} temporary and permanent. He was
made permanent in Feb 1914. It will be
seen from the Stat. at p. 4 c7. that the man
has worked as a temporary and acting
draughtsman, and also as a temporary
acting executive sub overseer, for fairly
long periods, and the testimonials furnished
show that he acquitted himself well
in both the Capacities.

The subjects passed by the petitioners qualify him for the post of a minor Irrigation Subordinate in the Revenue Dept.

4. The principle which has been followed since Feb 1917 is to refuse permanent exemption, from the Lower Subordinate test, to men who have passed technical examination because,

(1) The chances of passed lower subordinate securing appointments are there by affected.

(2) The men who are now drafted into the

Lower subordinate establs should be men qualified both for executive & drawing duties, while the men who pass the technical examination are as a rule not qualified for executive work.

5. In the present case the petitioners have served in both the Capacities and is said to be qualified for the double duties. A general rule ~~such as~~ ^{now being} exemption are not ^{from this & that} granted, but recently an exception was made ^{in similar circumstances} in the case of one S. R. Krishna Ayyar, ^{an acting} sub-overseer in the III Circle and ~~in case~~ ^{he} was recommended to (201) for exemption. But there is ~~however~~ one difference between the two cases. (viz), that passed lower Subordinates are difficult to get in the III Circle, whereas this is not the case in the II Circle. It is for orders whether in view of the service the ^{petr.} man has put in in the Dept. & the S.
