To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

The grants on behalf of cadets on the rolls of educational institutions due under article 43 of the Code of Regulations for European schools for the year ending 31st March 1918 are payable on or after 1st April 1918. The President, Association of the Heads of European schools, Madras, represents that owing to the operation of the Indian Defence Act, boys under sixteen years of age ~~cannot~~ be taken on rolls of the cadets corps, that consequently the numerical strength of the cadet corps in schools has been considerably reduced and that

+ Lec 5. b

CP. Sec. 5 of Act 17.

this

this has seriously diminished the capitation grants that may be claimed by the schools under article 43 of the Code of Regulations for European schools. He requests that as many of the schools are dependant upon this grant for the maintenance of their sports and physical instruction, the grants due to the schools for the current year and payable in the coming financial year may be calculated, not on the actual number of cadets on the rolls of the schools, but on the average of the grants paid to them during the past five years.

2. I beg to state that it is by no fault of theirs that the number of the cadets is below normal this year, and that the loss of even the comparatively small sums that they have been accustomed to receive from cadet grants will unquestionably be a serious inconvenience to the schools, which have small resources of their own and will in particular ^{very} make it difficult to meet the expense of games and physical training in general. I have the honour accordingly to request the sanction of Government to adopt the course suggested by the President with regard to the European schools in the Presidency.

I have the honour to be,

Sir,

Your most obedient servant,

Sir,

With reference to Government Memo. No. 607-B-1, Home (Education), dated 28-3-18, I have the honour to submit a statement received from the Inspector of European and Training schools showing the amount of cadet grants paid during each of the past five years and the average for 5 years. In the case of schools, Nos. 10, 17, 19 and 22 to 28, the average for the actual number of years during which they received the grants may be taken into account.

2. The amounts payable for 1917-18 calculated on the actual number of cadets on the rolls are not known yet as the applications for the grants for 1917-18 are due by the 15th May.

Letter R. C. No.96 E/18 dated 2nd July 1918

from the Inspector of European and Training Schools, Madras.

In continuation of this office letter R.C.No.96 E/18 dated 7th June 1918, I have the honour to state that the four schools mentioned in para 2 of my letter have no applications to make as there are no Cadets.

2. The Correspondent, St. Aloysius' High School, Vizagapatam, reports that the Cadets are enlisted under the Indian Defence Force. A copy of the letter from the Correspondent is enclosed.

3. The Correspondent, St. Joseph's School, Tellicherry, reports that he is not able to get the necessary certificate from the Commanding Officer.

Letter No.942 dated 18th June 1918 from the Manager, St. Aloysius' High School, Vizagapatam, to the Inspector of European and Training Schools, Madras.

I have the honour to forward the application for Cadet grants for 1917-1918.

The Officer Commanding would not allow all the cadets to be put on one list. List I includes Senior Cadets and List II Junior Cadets.

I have to make the following remark about the Junior Cadets. On the 1st April 1917, all the cadets above 14 years of age were enlisted as Junior Cadets under the I.D.F.,. They made their preliminary training and then had four hours drill a week. This lasted till August, when they were left aside. They put in more drills during these four months than they used to do in one year under the Volunteer System. The Officer Commanding objects to marking them as efficient as they did not go through their musketry course. But under the I.D.F. rules a junior cadet has not to go through such a course. Under the circumstances, I hope you will be pleased to sanction the grant for them as well.

The Officer Commanding would like to know by what rule he must guide himself henceforth to mark down a Junior cadet as efficient or extra-efficient.

A new cadet corps comprising all the boys from 12 to 16 years of age was restarted on the 1st April 1918, but after a trial of three months, I find that the number of hours of drill (90) required by the Military authorities is excessive. As the Junior Cadets are not exercised on the same days as the Senior Cadets for want of Sergeant Instructors, our playground is occupied every afternoon in the week and the result is that games are practically done away with, which you will admit, is highly regrettable.

I am to day addressing the Officer Commanding Southern Brigade on the subject requesting him to obtain from the Government of India that the number of hours of drill for Junior cadets be reduced to two a week during the nine months of class attendance with a minimum of 60 a year in order to allow a margin for casualties.

I should feel very thankful if you would be pleased to take the matter in hand and address Government on the subject.

The question of paying cadet grants due to European schools on the basis of the average grant for the past five years is a new one and has no precedent. No indication is given as to ~~whether~~ how many schools ~~do~~ really deserve the concession and how many do not, having regard to their financial ability to meet the expenditure connected with sports and physical instruction. Though sanction to the relaxation of the rule is asked for only for one year, ^{the necessity, therefore, is likely to} ~~it will~~ continue so long as the Indian Defence Force Act, 1917, is in force, that is, during the continuance of the present war and for a period of six months thereafter. It is to be hoped that no renewal of the sanction to be granted now will be ~~applied~~ applied for.

"Code of Regulations for
European Schools"

I could find a special fund (in approval of
for.) to such school under E.R.E.S.
44(f) amounting to the difference
between the five years average and the
cash fund actually earned but a loss
is practically
never any margin in the budget for
European schools this would probably involve
a transfer from cash funds to five years fund,
and I do not see that anything would be
gained by this.

Every European school has a difficulty in
meeting its ordinary expenses, even when
it has an endowment and only a few have.
This is the reason why I don't want them
to lose any considerable part of their cash
fund on which they have relied for years as
a source of income they could depend on.

Financial Department.

The proposal of the Director of Public In-
struction in his letter dated 16-3-18 (on pages 1-2 C
is that the cadet grants due to the European Schools
under article 43 of the Code of Regulations for Eu-
ropean Schools for the year 1917-18 (payable in 1918
1919) should be calculated, not on the actual number
of cadets on the rolls of the Schools, but on the
average of the grants paid to them during the past 5
years. Home (Education) Dept. anticipate that the above
procedure may have to be continued so long as the
Indian Defence Force Act, 1917 is in force Vide- A
page 1 ante.

2. The above relaxation of the rule, which does

not throw any extra cost on provincial funds
benefit the schools to the extent of about Rs. 3,224
(vide- B on page 4 ante.)

Submitted that there seems to be no objection
to the proposal being accepted in Financial. Orders
are solicited.

14/2/18. / see here to doubt.

Whether anything more should
be given as cash grants than
that is admissible under the
rule. If it is necessary to
aid the schools specially to
meet the expenses of grants
etc this is another matter &
should come up for considera-
tion separately; but actual
grants for a definite purpose
e.g. cash grants should be
regulated in accordance
with the rule on this subject.

The two proposals are

- (1) The D.P.I.'s: to disburse the grant on the average of cadet grants hitherto paid
- (2) The C.S.'s - to disburse the cadet grant or share them, & Supplement by special grant.

The first plan is simpler; & perhaps in the long run cheaper.

The Govt. approve the proposal of the D.P.D. to calculate the Cadet grants payable to the European schools for the current year, under art. 43 of the Code of Regulations for European Schools, on the average of the grants paid to them during the past five years instead of on the actual number of Cadets on the rolls of the Schools.
