Sir,

I have the honour to submit herewith a copy of letter
C.R.No. 1786 dated 3rd October 1918, from the President, District
Board, Bellary and to request the favour of orders as to whether
the proposal made therein for the payment of war allowances to
teachers in Local Fund Schools out of the savings in provincial
grants sanctioned to the Board for the maintenance of schools
for 1917-18 meets with the approval of Government.

2. A copy of the President's letter Dis. No. 860 dated

Copy of letter from the President, District Board,
Bellary to the Director of Public Instruction, Madras,
C.R. No. 1786 dated 3rd October 1918.

(1) Government in their order No. 976 D., dated 31st July 1918 having authorized the District Boards to sanction War allowances to Local Fund Servants at rates not exceeding those sanctioned for the Government servants, I have the honour to state that the savings of the grants made for the maintenance of schools for 1917-18 might be utilized for the payment of war allowances to teachers in Local Fund Schools. I suggest this as a possible alternative method of utilizing the savings referred to in my letter Dis. No. 860 dated 4th September 1918 and ^{with} to know as early as possible whether there is any objection to do so.

2. The cost is roughly estimated at Rs. 6046 for one year. The ordinary funds of the Local Boards in the District may not admit of this additional expenditure which is however necessary.

(2)

Copy of letter from the President, District Board,
Bellary to the Director of Public Instruction, Madras
Dis. No. 860 dated 4th September 1918.

With reference to your C. R. No. 2403 dated 12th March 1918, I have the honour to forward herewith a statement showing the balance of Provincial subsidy sanctioned for "maintenance of schools" remaining unspent on the 31st March 1918.

2. Regarding the utilization of this balance, the Presidents of Taluk Boards who were consulted in the matter desire that the amount may be expended as detailed in the statement below on (1) repairs to elementary school buildings, (2) extension of the Primary school building at Rayadrug (since raised to be a middle school), and (3) equipment of schools. There seems to be no objection to approving their

proposals except in the case of the extension of the Primary school building to fit proposed secondary Schools—a scheme probably needing proper designs and likely to take over a year and therefore not in my opinion a suitable object for these savings.

which is borne by Government.

With reference to the above G.O. I have the honour to
state that in this district there are 638 teachers and servants
in Elementary and Sessional schools under local board manage-
ment, the net cost of which is borne by Government. The
amount required to pay war allowance to them at the rate
sanctioned in G.O.No. 1676 L.Mis., dated 18th December 1918 is
Rs. 8,932. I request that Government may be pleased to sanc-
tion the amount.

2. The war allowance to teachers and servants in
Secondary schools whose net cost is borne by Government will
be recovered in 1919-1920 with reference to the letter of the
Director of Public Instruction No. Dis. 6517-18 dated 22nd

2. In the first place, the question is not merely of local interest, it affects the whole Presidency and for that reason the financial interests involved are large. Secondly, the expenditure will really be recurring because it is improbable that prices will diminish in any considerable extent in the near future. The incidence of the cost has to be decided. Attention in this connection is invited to G.O. No. 976 L dated 31-7-18 under which Presidents of District Boards and the Chairmen, Municipal Councils, are competent to sanction War allowances subject to certain conditions of which one is that the cost is to be met from local funds. It is observed however that provincial subsidies are asked for in certain cases, e.g. Malabar District Board and Nellore Municipality, and a distinction is attempted to be drawn between schools maintained by provincial subsidies and those not so maintained. I attach, however, little importance in this connection to the fact that some schools were started with and are being maintained by Government subsidies--for not only can Government not pledge itself to an unlimited liability extending to all time, which is what the local bodies desire, but it would not be equitable for Government to pay a subsidy which would enable it to pay War allowance to only some of the teachers under a local body (those in schools maintained by Government subsidy) while other teachers in the same place (those in schools maintained by local funds) were compelled by the presumed poverty of the local bodies to go without a War allowance.

It is desirable that War allowances should be paid to all teachers who are eligible therefor and that they should be treated in this respect not less favourably than other servants of local bodies. But it is for Government to decide whether with reference to the financial stability of the local bodies concerned the additional cost has to be borne by the local bodies or to be met either in whole or in part from provincial funds.

44 19 14
3. I can point out no source because, as already observed, the expenditure is really recurring and savings in provincial subsidies would be normally available for only one year.

The most humble representation of the Board
of Elementary School Teachers, working under the
Quarter Taluk Board.

Most Honoured Sir,

We most humbly beg to represent that we
have submitted one registered memorial peti-
tion dated 14-12-18, ⁱⁿ your honour, praying
for payment of Grain Compensation and
War Allowances, and another to the President,
Taluk Board, Cumbur. Through the proper chan-
nel; but to our great disappointment have
have been informed by the President, Taluk
Board, Cumbur, that the Board regretted
that its funds did not permit the grant of
the allowance. Copy of the proceedings is
herein enclosed for favour of your honour's
kind perusal.

We therefore most humbly pray that
your honour will be pleased to grant
some subsidy for the payment of the above
mentioned allowances and thus protect us,
in these severe famine days as we have been
working in the department with half belly
full.

Sir,

We the undersigned teachers of the Hindu Elementary Schools under the management of the Tellicherry Municipality beg to bring to your kind notice our grievances as follows:--

We understand that our schools are maintained out of the Government Subsidy annually disbursed to the Municipality. We are not at present paid any famine or War allowance as is done in the case of all other Public Servants. The cost of necessities of life has of late so risen that we find it extremely difficult to make both ends meet with the meagre pay we now get. That we poor teachers do not get any income from any other source from the time our schools were taken under the Public management is a fact well known to the higher authorities.

We also understand that the Tellicherry Municipal funds at present are so low that they cannot afford to spare any money to give any relief to our miserable condition.

In these circumstances we most humbly beg that you may be pleased to sanction an enhanced Subsidy towards payment of famine and war allowances to us and there by relieve us from the miseries we are compelled to undergo

Sir,

We, the teachers of the mappila Elementary schools of the Tellicherry municipality most humbly and respectfully beg leave to place before you the following facts for your kind consideration and early orders—

We beg to represent that we are people who draw a scanty salary and hence severely subjected to the pangs of the present famine created by the war and the like circumstances which aid the situation all the more painful and miserable. Ordinarily too, when the normal conditions prevailed our monthly emolument was so small that we were only just able to meet the bare necessities of life. The worst of it is; that for the past few months the price on food stuffs, viz. rice and its accessories of indispensable daily use were gradually growing higher and higher till at last abject poverty and misery have established their permanent sway over our poor economic homes and that we are ^{quite} sorry to see that matters are likely to remain either in the same state or still worse in the days to come. In short, we must

say that we are so much reduced to indigence
by the ever-increasing want even as to render our
earthly existence almost impossible - We also beg
to add that the H. board has sanctioned famine
batta for the teachers under it -

Under these circumstances we
earnestly request that you may be pleased to take
a sympathetic view of our present pitiable condition
and grant us a famine allowance at an early date
and thus relieve our distress -

We beg to remain,
Sir,

The Head master,

Challapalli

Sir,

We, the teachers of the Board middle school
Challapalli, respectfully beg to approach
your kindness for a second time.

It needs no telling that the prices of all
food stuffs and clothing have abnormally
risen to nearly four times their normal
value and even the well-paid officers find
it very difficult to live hand to mouth.
This year famine is felt even from the very
beginning of the year.

The agriculturist may not feel it, the
merchant may not feel it, the Vakil
may not feel it, and the officials who
have other sources of income may not feel it
as their incomes are not limited.

But the school master feels it. He
whom all others of call the petty school
master with a limited income and who
has no other means of livelihood feels it.

It is a pity that the position of the school
- master is neglected and unencouraged
of whom even the Julius Caesar the
greatest Roman conqueror said that
his father only gave him being and that

it was his schoolmaster that made it dear
to him. In the graph of education our
Country occupies the lowest place for
want of sufficient encouragement and to
encourage schoolmasters is also to encourage
education

We also beg to bring to your kind
notice that the Govt. itself has already
declared this year as famine year and has
kindly granted an allowance of Rs 6/- from
January 1919 and of Rs 3/- from March 1918,
to all its servants drawing Rs 50/- and less. for 16 Feb
7-19 (B)

It is as much famine to L. F. servants
as it is to Govt. servants and more so to
the L. F. teachers.

Moreover Sir, we are paid from the
provincial funds and the board of revenue
and Repalle already sanctioned war
and famine allowances to their teachers
even last year.

We, therefore beg that you will reconsi-
-der our case and sanction the said
allowances with retrospective effects
as in the other Govt. departments.

Sir,
In view of the high prices of food stuffs
the District Board has resolved to grant to all Local Fund
servants including school masters with full retrospective effect
the war allowances sanctioned to Government servants on G.Os No
535 dated 26-6-18, 811 dated 4-10-18, and 16 dated 16-1-19. Govern-
ment have been pleased to promise in their order No. 1484 Home
(Education) dated 22-11-18 to bear the extra cost on the account
of war allowances in the case of the school masters the net
cost of which is borne by Government. The Local Boards in this
district being very poor, the District Board requests Govern-
ment to ^{reimburse} ~~reimburse~~ it to the extent of the extra cost involved

in the payment of these allowances to teachers and servants not only of the schools the net cost of which is borne by Government, but also of the other schools namely those under the management of the Boards. It would be invidious to grant the allowance to one set of teachers and deny it to the other.

I have the honour to enclose two statements A and B. Statement A shows the expenditure to be incurred on account of the schools the net cost of which is borne by Government and statement B shows the expenditure on account of the other schools. I request that Government will be pleased to make a grant of the amounts shown in these statements.

A copy of the resolution of the District Board on the subject is enclosed.

Sir,

With reference to G.O.No.1484 Home (Edn.) Department, dated 22nd November 1918, I have the honour to state that this District Board has allowed to all its employees the war allowance sanctioned to Government servants in G.O.No.535, Financial, dated 26th June 1918 and No.811, Financial, dated 4th October 1918 and that a sum of Rs.6,359 is required for expenditure this year for the payment of the said allowances to the teachers and servants of elementary and secondary schools maintained by the local boards in this district with the aid of provincial grants. I request you therefore to be good enough to arrange to get a grant of Rs.6,359 to this District Board at an early date.

2. I may add in this connection that the District Board is considering the question of extending to its servants the revised rate of war allowance sanctioned to Government servants in G.O.No.16, Financial, dated 7th January 1919 and that, if the District Board allows it an application will in due course be made for a further additional grant.

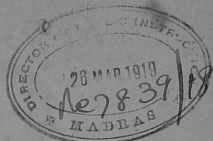

I have the honour to be,

Subject. Utilization of a portion of the balance of Provincial grants towards the payment of war allowance in Local fund schools.

The P.S.B., Bellary, requests sanction to utilize the balance of the Prov^l grant for education on the payment of war allowance to teachers in Local fund schools. Recently, the P.S.B., Chittoor, asked whether the teachers in the Board high school at that place might be paid war allowance from the Board funds and the expenditure involved might be included in the net cost of the school which is met from Prov^l funds. This file dealing with this has been sent to D.M. and Fin^l Dept^s for remarks. The decision in that case may ~~be~~ it is submitted, be awaited before dealing with the present case.

The Clutter School cannot be a precedent for practically the expenditure falls on the State & the teachers can be treated like other Government servants.

In the case of non Govt servants presumably the Dt Rd must pay. If we give in in one district, we shall have to do so in all districts.

However I should like to know what the D.P.I recommends. See also A alone

4/11/18

D.P.I. Mys

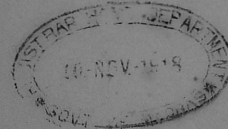

I think Clutter is a precedent, because I do not see that there is any difference in the status of teachers employed by Govt & Non-Govt. Clutter school. Govt. is born by Government or not.

If not a precedent for all schools, it would be a precedent for the considerable number of schools of which the Govt. school is not. Taking all

status it would not seem right to pay the
war allowance from provincial funds only in the
case of the schools the mt. cost of which is met from
provincial funds (i.e.) provincial funds should
met the cost in every case or in some.

This seems to be a matter proper for a
settle. The principle involved is whether local
or provincial funds should met the cost in all
cases. This is difficult to make a recommendation
without knowing what the cost would be.

The file relating to the pay-
ment of war allowance to teachers
in the Board high school, Chittoor
has since returned from L.H.
& J.M. Dept. The latter Dept.
has agreed to meet the cost
involved from Prov^l funds on
the condition that war allowance
is granted by the D. & B. Board to
all its employees. The D. & B.
considers that there is no difference
between the case of teachers

is met from Prov^l funds & those

in schools where the net cost is met by the boards themselves. This argument ignores the fact that the authorities financially responsible for the management of the schools in the two cases are different.

2. The President, Taluk Board, Chittoor, has also applied for a subsidy of Rs 1900 from Govt towards the payment of war allowance to the teachers & servants in certain schools under its management. In forwarding the application, the D.P. suggests that the expenditure involved may be met from the unspent balance of Rs 20,000 out of the Govt subsidy sanctioned to the Dt Board for elementary education.

3. From the President's letter it will appear that these schools are now maintained solely or partly with the aid of Govt grants and that the application for a subsidy is based on this ground. In respect

pages 4 to 5 - cp.

p. 11 q. cp.

of these schools, the Govt have not accepted the liability to meet the entire net cost and the decision in regard to the Chittoor high school will not therefore ~~not~~ apply to them.

4. It is submitted that teachers in board schools are servants

of the board concerned ~~and~~ such, the boards should ^{themselves} meet the charges involved in the payment of war allowances to the teachers. If the financial position of a local body is unsatisfactory, the Govt may consider the question of rendering ^{aid} ~~help~~ either by granting additional subsidy or by permitting the local body concerned ~~and~~ ~~concerned~~ to utilize unexpended balance for education, if any, with it towards the payment of war allowances. Thus, each case will have to be dealt with on its merits.

Bellary. The budget of the District Board for 1918-19 as modified by Government in G.O. No. 442 L, dated 28-3-18, closed with a deficit of Rs. 8280 under general funds and in order to wipe off the deficit and to provide a small working balance of Rs. 1000 the Government permitted the District Board to reduce the allotment on communications from its own funds by Rs. 9280. With reference to the actuals for 1917-18, the budget for the current year will close with a balance of Rs. 40,939 under general funds but this is due to the fact that in 1917-18 there was a lapse under the allotment for Communications, the outlay on communications met from the ordinary income of the local boards being only 51.18 per cent. of the prescribed minimum, ^{viz} half the land-cess plus net income from tolls. The condition of the roads in the district is poor and much has to be spent to improve them. It is submitted that in the circumstances the District Board will not ^{be} in a position to pay from ^{its} funds war allowances to teachers of local funds schools which are ~~roughly~~ roughly estimated at Rs. 6040 for one year.

Chittoor. With reference to the actuals for 1917-18, the budget of the District Board for the current year is estimated to close with a balance of Rs. 13896 or 4.2 per cent of the estimated ordinary receipts against the prescribed minimum of 5 per cent. In 1916-17 as also in 1917-18 the normal expenditure exceeded the normal receipts by more than Rs. 7000. It is therefore submitted that the District Board cannot meet from its funds the war allowances which come up to nearly Rs. 1900 a year.

3. With these remarks the file may, it is submitted, be returned to the Home (Education) Department. U.O.

With reference to para 3 of the Int. As stated in para 4 of note on page 5 ante, ~~if the~~ it is proposed to deal with each case on its merit.

Financial assistance will have to be rendered to a local board or municipal Council ~~only~~ towards the payment of war allowance to teachers only if the local body is absolutely unable to meet the expenditure from its own funds. In the present case the two local bodies, ^{the} Bellary St Board, and the Chittoor Taluk Board are unable to grant ~~the~~ allowance ~~to teachers~~ from their own funds. I agree with the A.S. It is the principle we object to. If Home Dept wish to assist local bodies to 'suffice' their teachers' pay in the time of high prices, they should raise that as a general question.

It is but natural that the local bodies should look to govt. for further aid to enable them to pay war allowance to the teachers entertained when inducements were offered in the shape of provincial subsidy. They may ^{legitimately} plead that, but for such inducements, the schools would not have been opened or the teachers entertained at all.

3 As has already been pointed out, the govt. have not undertaken to meet the net cost of ^{the} schools opened with the aid of provincial subsidies. But this circumstance need not be taken as precluding altogether the consideration of the requests now made by local bodies.

4 There are three ways of dealing with the requests:-

- (i) To rule that the extra expenditure in the payment of war allowance to the teachers in question should be met entirely from the funds of the local bodies. Under this ruling, no additional subsidy will be given and the local bodies will not be permitted to divert for the purpose any unspent ^{balance} portion of the educational grant sanctioned in previous years.

(ii) To agree to bear the ~~extra~~⁸¹ cost in full from Provincial funds and to sanction additional sub-
-sides to local bodies irrespective of their financial position

or (iii) To examine the financial condition of each local body that applies for aid and, if circumstances warrant to ^{give} ~~grant~~ further help to the local body either by the payment of additional subsidy or by permitting it to utilize in the payment of war allowance any unspent balance of the educational grants sanctioned in previous years.

5 This Dept. has already recommended the adoption of the last of the three courses mentioned above. The file may again be sent (no) to Fmt for further remarks.

I suppose that the general issue must be faced.

2. In the case of Gosh servants we have sanctioned war allowance - under conditions.

3. If local ^{authorities} ~~boards~~ sanction

Page 3 ante.

Similar allowances under similar conditions, the grant cannot be opposed. We however leave it to such authorities to decide whether such allowances should be sanctioned or not.

4 A considerable body of servants under local authorities is schoolmasters and the present proposal is to meet their war allowances out of subsidies. The D.P. I recommends that this course be sanctioned.

5. The necessity for the war allowance is recognised. And local authorities show sacrifice in granting war allowance to other servants. They cannot - certainly without curtailing their usefulness in the schools - grant the allowance to schools also out of their normal resources.

So I propose for adoption the D.P. I's proposal under the conditions already put forward. Another check course will be that every application for subsidy will have to come to Government.

Financial Department.

Attention is solicited to the notes and orders in G.O. 1484 Edn dated 22-11-1918 in which it was decided that "if a local body sanctions war allowances to all its employees, such allowances may also be granted, on the same terms that it allows to its other employees, to the teachers and servants in the schools under its management, the net cost of which is borne by Government."

Please see the Chief Secretary's note dated 30-1-19 on page 12 ante.

Page 15 ante

2. Home (Education) now propose that schoolmasters employed in all local fund and municipal schools (these are the employees of local bodies and not of Govt.,) should be paid war allowances, the cost of these allowances being borne by Government.

3. The intention of Home (Edn) is apparently

- (1) that the teachers in local and municipal employ should be given war allowances on the same scale as that allowed to Government servants in G.O. 16 Finl., dated 7-1-19., and Page 12
- (2) that the teachers in local and municipal employ should be given war allowances, irrespective of the question whether the local bodies are paying war allowance to other servants in their employ or not.

4. The condition at P in Home Secretary's note, on page 15 ante, viz, that every application for subsidy will have to come to Government will, it is respectfully submitted, lead only to a large number of references to Government and it is also very likely that each and every local body will plead inability to find the cost from its own funds.

*Subs that richer local bodies will say that they have got other pressing demands when they come to know that Govt are going to foot the bill.

NOTES.

Page 17

cf. page 5 ante

5. The fact remains that the teachers in local fund and municipal schools are the servants of local bodies not of Government; and if the Government undertake to sanction subsidies to meet the war allowances of these teachers, it is not unlikely that the Government will ere long be approached by local bodies for similar subsidies in order to enable them to pay war allowances to their other servants.

6. If, however, it is decided that the matter should be proceeded with, it is submitted that it seems necessary, to begin with, to request Home (Edn) to ask the D.P.I. to furnish an estimate of the expenditure involved.

Financial have so far agreed that in the case of schools under local bodies the net cost of which is borne by Govt. War allowances may be granted to the teachers provided that -

(a) the local body grants war allowances to its other employees

(b) the allowances granted to the teachers are on the same scale as that for the other employees subject to the maximum granted by Govt. employees.

2. We have also objected to local bodies being permitted to utilise the unspent balances of grants given to them for other purposes, on war allowances as such a course is dangerous from the Financial point of view and any such concession may be likely to be taken advantage of.

3. Secretary, Education has kindly explained the intention of his note to me and I understand that subject

(page 15 ante)

Page 9 ante

subject to the conditions at A above he proposes that war allowances should be granted to local fund teachers who are paid entirely by such funds, particularly in the case of Secondary schools.

4. The Education Department have confined their recommendation only to teachers as they are concerned only with this class of employees. It seems to me however that Financial must take a broader outlook and consider the necessity of all classes. In fact if we merely accepted the proposal of the Education Department, the position would be that those local bodies who are in a position to grant war allowances to their employees would be helped by Govt. to the extent of the allowances granted to their teachers, while those bodies who are unable to grant such allowances to their employees will get nothing from Govt. In other words, as a general case, the richer bodies will be granted aid while the poorer ones will not.

5. I think therefore that we should not accept the present proposal by Education Department but if it is considered necessary that Govt. should help local bodies in the matter of war allowances the Local and Municipal Department may be asked to consider the matter separately. They may consider the position of each local body separately and then work out what the total demand is likely to be.

This file relates to the payment
Provincial subsidies to enable local bodies
to pay war allowances to their teachers.
The several classes of schools maintained
by local bodies are, (1)

- (1) Schools, the net cost of which is
met by Govt.
- (2) Schools which have been started
with the aid of Provincial subsidy
+ for which the Govt. continue to
give subsidy, though they have not
committed themselves to a contin-
- uance of the grant for all time being.
- (3) Schools maintained by local bodies
from their own funds.
- (4) Schools which receive some subsidy
from Provincial funds towards the
pay of additional teachers employed
in them ^{towards} or the increase of pay of
existing teachers.

In the case of schools falling under the
first head, the Govt. have undertaken
to meet the expenditure on account of
war allowances subject to the conditions
mentioned at A on page 17 infra (G.O.

No. 1484 Hume (Sd), dated 22nd Nov 1915)

The question is whether any subsidy shall
be paid to local bodies to enable them

to pay war allowances to the teachers in the schools falling under (2), (3)

There have been individual applications from a few local bodies (Please see the current file & the linked cases) for

Provincial subsidy for this purpose. The Final Dept^y refuses to deal with each

individual case on its merits & remarks observes that "if local bodies want

" help in paying war allowances it is

" for d + m to come up with general pro-

" -posals showing the total expenditure

" involved, the extent to which the

" local bodies can meet it out of their

" own resources and the principles on which

" it is suggested that Govt^y Assistance should

" be given."

(I) ~~Resoln~~ In L.O. no 976 L. dated 31st July 1918 &

(VII) no 228 L. & 18.2.1919 local bodies have

been authorized to sanction war allowances

to their servants on the same conditions &

at such rates as may be sanctioned for

Govt^y servants from time to time. In the

Case of Municipal Councils it is expressly stated

that they may sanction the allowances "where

Necessary & where the Municipal balances

can afford the extra expense." It is really

for a local body to decide whether it can

pay

pay was alloe to its servants including
 teachers; & if it chooses to pay the
alloe it should, it is submitted, meet the
 expenditure from its own funds just as it
 would meet the pay of its establishments.
 The D.P.I. points out that war alloe
 should be paid ~~for~~ to all teachers who are
 eligible therefor & that they should be treated
 in this respect no less favourably than
 other servants of local bodies. It is true
 that if the local body pays war alloe
 to other servants it should pay it also to
 schoolmasters, but there is no reason why
 it should be given a subsidy for paying
 war alloe to teachers, nor why ~~it~~^{they} should
 pay the alloe to teachers alone when it
 does not grant it to other servants. The
 war alloes, if any, paid to teachers by local
 bodies should, it is submitted, be met from
 their own funds just as much as the
 war alloe to other servants, & if a local
 body cannot afford to pay any war
alloe to all, it need not pay it to any one.
 So far, only a few local bodies have
 applied for free subsidy & this shows that
 other local bodies ^{either} do not (use war alloe or
 are not in need of subsidy. If, however,
free sanction subsidy in the case of any

Come up with requests for ^{similar} subsidy.
Submitted that in the first place there
seems to be no need to grant subsidies
to local bodies for this purpose, except
in the cases referred to at A on page 17
^{for the following reasons}
Infra. & in the second it is not possible to
lay down any general principles on which
such subsidy ~~shall~~ may be given:—

- (1) Evidently only some local bodies pay
war allowance to their servants & if ~~only~~
these ^{alone} are to be helped with a subsidy,
the poorer local bodies who do not pay
war allowance will have to go without a subsidy.
~~But~~ The result will be that teachers under
some local bodies will get war allowance, ~~which~~
while others will not get it.
- (2) If war allowance is to be paid to ~~all~~ the
teachers under all local bodies, a
very large subsidy from Prov^d. funds
will be required. Even if such subsidy be
made, it will result in an enormous dis-
-tinction being made between schoolmasters
& other servants of poorer local bodies,
as these bodies are not likely to grant
the allowance to other servants ^{and} ~~even~~ Govt.
Cannot insist on their ~~paying~~ ^{paying} the allowance to
other servants

As pointed out by the S.P.I., it
 (3) It does not seem to be desirable
 to differentiate between the several
 classes of teachers mentioned in (2), (3), & (4),
 or page 21 ^{if salary is given} before. Either all of them should
 be paid war allow along with other
 servants of local bodies or none at all.

2. If the S.P.I. considers that the
 pay of the teachers is inadequate, that
 schools suffer ^{owing to the difficulty of securing} ~~for want of~~ qualified
 teachers for the present rates of pay,
 & that in the interests of ~~the~~ ^{the} elementary
 education it is necessary to
 increase their pay temporarily, it is open
 to him to formulate proposals for giving
 subsidies to local bodies to enable them to
 pay the increased rates of salaries.

ACA
 15/4/19

Based on the instructions made by
 the Government, The controversy about the advisability
 of making grants to local bodies to
 enable them to pay war allowance to
 school masters was ^{hitherto carried on} ~~between~~ the educational
 and the fin^l dept. The file has
 now been transferred to S & M and
 the dept is asked to formulate the
 proposals in which ~~the~~ ^{the} Govt assistance
 should be given in and to note on

the practical consequences of the acceptance of any such principle.

Primarily it is for the local bodies to find the money for the war allowance. There is no reason why in this respect any distinction should be made between the servants of a local body that work in the educational department and their other servants. ~~There is~~ In principle, therefore, ~~there~~ ~~is no ground for~~ it seems inadvisable to make a grant. However, the great majority of local bodies have ~~apartiate~~ acted on this principle and have managed until now to get on without Govt. help. It is only a trifling few that have come up for help. To accede to their request would open the door wide to a mob of applications from all local bodies. The sole ground or semblance of a ground, that ~~there~~ can be put forward in support of a claim for a grant is that the Govt. have ~~been~~ agreed to pay war allowances in all cases where the net cost of Municipal and L.T. schools is being ~~borne~~ paid from provincial funds. But these being quasi-Govt. institutions, their establishments stand on a footing analogous

94

to that of ordinary Govt. servants, and if Govt. chooses to pay them a war allowance, the fact affords no real claim to local bodies to demand from Govt. grants for the payment of war allowances to ~~the~~ the whole of their educational staff.

See

194
6.5.17

In a certain limited no. of cases - mostly Secondary School maintained by Municipalities & local boards - Govt. have undertaken to meet the net cost of the institution. They have also agreed, subject to certain conditions, that war allowance shall be granted to the staff of such institutions & may be taken into consideration in calculating the net cost. The D.P. argues that from this it follows that, in the case of all schools maintained by local bodies which receive a 'subsidy' from Govt., Govt. should not be reluctant to pay war allowances and premiums, in respect of certain boards which have approached him on the subject. to allow the

unexpended balance of certain prev. grants to be devoted to the pay^t of these allowances.

2 The Ed. Dep^t propose to accept this provided that, such allowances in such cases have also been sanctioned by the local body to its other employees from its own resources. They also propose to allow the Ed. grants given for other purposes to be utilized for this object.

3 The dep^t desire that the whole question of such allow^s, not only to the educational employees, but to all employees (eligible under the rules) should be considered. They desire information

- (a) as to the total cost of giving financial aid to all classes of employees
- (b) how far local bodies can meet it out of their own resources?
- (c) the 'principles' on which aid sh^d be given.

4 I am unable to suggest any 'principles' that are very satisfactory, and that, at the same time, will be of general application. It has hitherto been accepted that grants for pay & allowances of establishments are not

a suitable form for provincial aid.

As I think that this principle should be adhered to. We do just enough, as it is to pamperize local bodies, and pressure to increase pay & all cases of establishment is a form of pressure to which local bodies, no less than Govt., are equally susceptible.

5 If local bodies get the idea that this form of aid is likely to be given, as a matter of general policy. There is no doubt that they will all come up for grants, and it will be a matter of great difficulty to distinguish between one body and another in granting the grants. For, I take it, there is no local body that could not, more or less plausibly, show us that its low paid staff are feeling the pinch & so that the money which it might be in a position to devote to their relief might be most usefully employed on other objects. However, once it is admitted that grants may be made for such a purpose, it will be next to impossible to withdraw. These 'one allowances' are, it is true, temporary: so are the grant-in-compensation allowances, which have

97

to a great extent become merged in pay. I have little doubt that the same thing will happen with the new allowances. At present, when a local body is to consider the question of allowance for low-paid staff, it has in the first instance to see whether, and to what extent it can afford it; to consider possible economies in staff; &c. &c. It is very voluntary that local bodies should do this. If the time contemplated by F.C. is adopted, they will not do so. They will simply send in the B.C. to Govt. - Nothing could be more detrimental to the development of any sense of financial responsibility. No general reference ^{has been made} to local bodies as to the second question put by F.C. for obvious reasons. As to the first question it has been estimated that the total cost of new allot. to local boards & Council employees would come to Rs 11.63 lakhs annually ^(around). I have no doubt that not more than a third of this would be met from local resources if the principle of giving such grants were generally accepted. Is F.C. prepared to find a summing, and probably permanent charge of the balance?

For these reasons I am against raising the general further, as I understand the chairs to do. Local boards must cut their coat according to their cloth, and only when it can be shown that the most absolute necessity exists, should this rule be departed from. This means that individual applications for local boards must, if they apply, be reported on the merits - ~~not~~ and no applications should be encouraged.

The question has been raised because apparently Mr. Balfour considered that it would be "unfair" that the L.E. in schools, of which Local Boards are agreed to bear the whole rate cost, should get the same allowance, while those in schools in respect of which Local Boards has accepted no such special liability (what?) It is not clear to me why this conclusion follows. In the case of the 'rate cost' schools Local Boards have decided that it is necessary to increase the 1st ward of these (middle & secondary) institutions, & to enhance their efficiency. And I think that Secondary (or middle) school L.E. is not supposed to be primarily the business of local boards - of local boards, any how. In the case of the other schools, no such special liability has, it seems to me, been accepted. Local

indeed I have enlarged them up to a certain point, and if satisfied that such a sum can't be got or retained for the rate of pay fixed, it is open to them to increase the salaries. But I see no reason to have such an increase or the benefit accorded to a special class of schools, and still less to drop in the whole question of the pay of even allowances to the whole of the lower establishment of local bodies.

I should like to know where the real difference of opinion arises. I am for granting the subsidies to teachers in some instances, only in case where the non-teachers subordinates are so paid. The figures are Rs. 2.51 lakhs; otherwise 7.12.

I should be surprised to learn that a local body is paying allowances to "others"; if so, I would ^{allow the same} ~~insure~~ in the case of Rs. 2.51 lakhs also under such bodies. Even in the case of schools run on the 'net cost' system, the allowances are not to be paid unless other local servants are similarly paid. I agree to A subject to the above.

- (1) the total expenditure involved;
- (2) the extent to which the local bodies can meet it out of their own resources ^{and}
- (3) the principles on which it is suggested that Govt. assistance should be given."

2. (1). The L+M Deptt calculate roughly that the cost of giving war allowances to all employes of District Boards and Municipalities would amount to 11.63 lakhs ^(per annum) of which 2.51 lakhs are for educational establishments alone.

(2) The L+M Secretary considers that not more than a third of the cost can be met by the local bodies. The balance, viz, $\frac{2}{3} \times 11.63$ or 7.75 lakhs per annum will have to come out of Prov. funds.

(3) The L+M Deptt are unable to suggest any principles on which Govt. aid should be given.

grant of Provincial aid to local bodies to enable them to give war allowances to their employes on the ground that they should pay their establishments according to their means and that Provincial aid in the form suggested would be detrimental to the development of any sense of financial responsibility.

3. It is submitted that Finl. never intended that any such assistance should be given, but merely stated that to give assist ~~to~~ ^{local} certain ^{bodies} to pay war allowances to their teachers would result in applications for grants in respect of war allowances paid to other classes of establishments. The result of such an extension of the proposed aid is now shown in the L.H. Dept. notes. Finl. may agree with the conclusions of L.H.

4. The Home (Edn.) Secretary is still of opinion that subsidies may be granted to local bodies for payment of war allowances to teachers in schools which were opened with the aid of Govt. subsidies, if the local bodies pay the allowances to other classes of its employes. Home Secretary evidently thinks

that such cases will be rare. From page 8 of LHM notes below, it appears that Seventeen District Boards pay war allowances to their employees. As regards Municipal Councils, LHM have not got the necessary information. It would therefore appear that the assistance contemplated in the Home Secy's note is not likely to be a small matter. In the circumstances, I incl. may it is submitted, adhere to the decision that no subsidy can be paid to local bodies for granting war allowances to teachers — except in the case of schools, the net cost of which is borne by Govt. HOME (EDUCATION) DEPARTMENT

G.O. No. 1010, 18th August 1919

War allowance

Declining to entertain the applications of local bodies for additional subsidies from Provincial funds towards the payment of — to teachers in their employ or to permit them to utilize for the purpose unspent balances of Provincial grants given to them for education in previous years.

READ—the following papers:—

G.O. No. 1484, Home (Education), dated 22nd November 1918.

ABSTRACT.—Informing the Director of Public Instruction that, if a local body sanctions war allowance to all its employees, such allowance may also be granted to the teachers and servants in the schools under its management, the net cost of which is borne by Government and the expenditure so incurred may be taken into account in calculating the net cost to be paid from Provincial funds.

G.O. No. 228 L., dated 18th February 1919.

ABSTRACT.—Authorizing district boards and municipal councils to sanction war allowance to their servants on the same conditions and at such rates as may be sanctioned for Government servants.

Order—No. 1010, Home (Education), dated 18th August 1919.

In G.O. No. 228 L., dated 18th February 1919, district boards were authorized to sanction war allowances to local fund servants in their districts on the same conditions and at such rates as might be sanctioned for Government servants from time to time, and municipal councils were also authorized to sanction similar allowances where necessary and where the municipal balances could afford the extra expense. Applications have now been made to the Government by certain local bodies for additional subsidies from Provincial funds towards the payment of war allowance to teachers in their employ.

2. In G.O. No. 1484, Home (Education), dated the 22nd November 1918, the Government have already decided to meet from Provincial funds, subject to certain conditions, the expenditure incurred in the payment of war allowance to the teachers and servants in those schools under the management of local bodies, the net cost of which is met from Provincial funds. This order does not apply to the large number of elementary and other schools opened by local bodies from time to time with the aid of subsidies from Provincial funds, as in their case the Government have not given any specific undertaking to meet the net cost. The status of the teachers employed in them differs in no way from that of other servants employed under the local bodies. If a local body sanctions the grant of war allowance to these and other employees, it must be prepared to meet the extra cost involved from its own funds.

- (1) in what institution has Govt. undertaken to build the 'net' out. Why was it thought best to accord this special treatment? In my opinion is that the 2nd is limited & that out of them are secondary or 'incomplete' secondary schools.
 - (2) Govt. has also provided 'subsidies' to build houses for school. What classes of schools? Was not the pay of the teachers on which the subsidies were calculated revised with reference to changed conditions as to price, the need for improving the position of the teaching class & so on. What was the general result of improvement in rates of pay? Is the whole cost of these new schools borne by the subsidies? Or are the subsidies in part devoted to supplementing the pay of teachers in schools already maintained?

P.T.O.

The local and municipal educational institutions, the net cost of which is borne from Provincial funds are given below:-

Institutions.

Reasons for meeting net cost.

1. Board Secondary School, Chittoor, Chittoor Dt.

The institution was originally maintained by Govt. and when the District Board was formed, its management was transferred to the District Board subject to the condition that the net cost is met by Government. (G.O. No.164 Bd., dated 29-3-1887).

2. Board Secondary School, Russelkonda, Ganjam District.

It was originally a Lower Secondary school maintained by Government. When in 1869 it was transferred to the District Board, the Government undertook to bear the net cost. The staff of the school was raised to that of a complete secondary school with a view to afford facilities for the secondary education for Orissa. The Government continued to bear the net cost.

3. Board Middle School, Koilkuntla, Murshid Dt. (The Government agreed to bear the net cost of the school only for five years from 1917-18).

The Government provided educational facilities for a backward locality in a remote part of the district and far away from railway communication. (G.O.No.493 L, dated 29-3-1917).

4. Board Middle School, Hosur, Salem District. (Only one half of the net cost is borne by Government).

The reason was the necessity for a secondary school in Hosur and the inability of the Local Boards to maintain one such school.-(G.O.No.269 L, dated 22-2-1916 and G.O.No.916 L, dated 20-6-1917).

5. Board Middle School, Angadipuram, Malabar Dt. (Only one half of the net cost is borne by Government).

There was necessity for a complete secondary school in the locality, and in accordance with the policy of Government to rely on aid agency in regard to the opening of secondary schools the Government decided to entrust the management of the school to the local board, which agreed to bear only one half of the net cost. (G.O.No.1205 L, dated 22-8-1917).

Institutions.

Reasons for meeting net cost.

6. Board Middle School
for Girls at Vatakan-
tara, *Kalabarasshiet*

The Government were main-
taining an elementary school.
The District Board undertook
to take this over and raise
its status utilizing the
income from an endowment. The
Government agreed to meet the
net cost in pursuance of the
policy of increasing the
number of secondary schools
for girls. - (G.O.No.668 L,
dated 3-5-1917).

7. 47 Local Fund Middle
Schools (given in
Annexure III to G.O.
No.757 Bd., dated
11-6-1918).

In accordance with the
policy of increasing the
number of secondary schools,
under the control of an aided
agency.

8. 15 Local Fund Secondary
schools (given in
Annexure I to G.O.No.
757 Bd., dated
11-6-1918).

9. Municipal secondary
school, Octacamund.

Under the scheme for the
management of the trust
property known as the Breeks'
Memorial school, provision was
to be made by the D.P.I. for
the education of the children
of the more respectable
native inhabitants of
Octacamund at or in another
school or schools in
Octacamund. The Director
proposed that a new municipal
school should be opened by
the municipal council with
standards, Infant to four and
forms I to III; but as the
council pleaded inability to
provide funds for such a
school the Govt. undertook
to bear the net cost of
maintaining ~~it~~.

It was sanctioned in G.O. No. 1201
Est. dated 16.6.1913.

K.K.
17.6.19

The resources of the municipality were found to be so very limited that there was no hope of the school being officially managed by the Council. It was, therefore, decided that the Government should bear the net cost. This was decided in a resolution of the Council dated 16.6.1913.

The main reasons were that the Council could not maintain the school in an efficient manner and the necessity for having in the town at least one school for the public.

Para 168M/1201

This was at the time of Government intervention. In 1906, the Council had decided to take over the school and the Government had assigned its management to the Municipal Council. The Council had to bear the net cost of the school.

This was a Government school till 1906. In 1906, the Council had decided to take over the school and the Government had assigned its management to the Municipal Council. The Council had to bear the net cost of the school.

In view of the slender finances of the Council the Government have undertaken to bear the net cost of the school. Apart from this undertaking, however, the school is in receipt of a fixed grant of Rs. 2298 a year. Para 209M/1089M of 4.6.13

In 1913 the Council wanted to transfer a municipal girls' school to Government. The Government in vetoing this proposal suggested on the other hand the transfer of the Govt. girls' school also to the Council, so that both the schools may be maintained by the contribution from Provincial funds. The Council having agreed to this proposal...

(2)(a) The following are the objects on which the recurring subsidies are now sanctioned to local bodies:-

- (1) maintenance of old schools,
- (2) cost of maintenance of elementary schools opened subsequent to 1911-12 with the aid of Provincial grants,
- (3) for opening new elementary schools or raising the ~~existing~~ standard of existing elementary schools,
- (4) employment of additional staff for existing elementary schools (opened either with the aid of Provincial subsidies or otherwise),
- (5) enhancement of salaries of qualified teachers in all elementary schools under local bodies,
- (6) payment of extra capitation allowance to teachers in elementary schools ~~for their~~ ^{under local bodies},
- (7) compensation for loss of fee income in respect of schools in which the headmaster is competent to appropriate the fees,
- (8) opening or maintenance of sessional schools,
- (9) revision of scale of salaries of the general staff, language teachers and pandits in secondary schools and colleges,
- (10) employment of staff for imparting instruction in Hindustani in elementary schools,
- (11) payment of net cost of certain secondary schools.

Thus the subsidies are mainly for elementary schools.

(b) + (c) The pay of teachers in elementary schools maintained by local bodies has from time to time been raised. The minimum pay for trained teachers which was originally (prior to 1912) Rs.8/- was raised to Rs.10/-, subsequently to Rs.11/- and a proposal is under consideration to ~~raise~~ raise it to Rs.12/- per mensem. The minimum pay for trained women teachers has also been raised to Rs.12 and its enhancement to Rs.13 is under consideration. Local Fund teachers are ~~not~~ eligible for grain compensation allowance. It was originally ordered that on the introduction of the enhanced rates of pay to these teachers (viz., Rs.11 to male teachers and Rs.12 to women teachers) ^{Rs.} grain compensation should be withdrawn in the case of all teachers then in receipt

of the allowance and drawing less than the minimum then prescribed. Subsequently however this direction was cancelled - G.O.No.1203 Ed1, dated 11-9-1918. even As regards untrained teachers, these were not allowed the minimum pay of Rs.8/- prior to 1912. They are not allowed to draw Rs.10 per mensem.

(d) The Government give grants for meeting the entire cost of new elementary schools and continue the amount of the subsidy as calculated on the basis of the initial expenditure. If owing to increase of strength or the opening of higher standards additional cost has to be incurred the Government do not recognize any liability for meeting this cost as a matter of course but give an enhanced subsidy if possible.

(e) As ^{will be seen from the} ~~stated in~~ answer to para 2 (a) of the Secretary's note, the Government grant subsidies for increasing the pay of teachers even in schools which were not opened with the aid of subsidies and for employing additional teachers for the existing classes or for opening higher classes in existing schools.

(3) (a) From ~~an examination~~ ^{examination} of the budgets of district Boards it would seem that provision has been made by 10 District Boards for the grant of war allowance to all its establishment while ~~other~~ ^{other} district boards provided for the payment of the allowance to ~~its establishment~~ ^{its establishment} certain other sections. War allowance is given by the municipal Councils of Vizagapatam, Coonoor and Ootacamund. The budgets and reports do not show whether other councils pay the allowance or not, nor is the amount of the allowance paid by the ~~councils mentioned~~ ^{only Coonoor} known even approximately.

The Vizagapatam ~~has~~ ^{has} applied for a grant from Govt funds to enable it to meet this expense which is estimated at Rs 22,400 per annum. The file is linked with this.

Subject: War allowances to teachers
in sessional and elementary
schools under the Malabar District Board.

The P.T.B., Malabar, states that
that a sum of Rs. 8,932 is required
towards the payment of war
allowance to teachers in
sessional & elementary schools,
~~under the management of the~~
~~State Board~~ "the net cost of which
is borne by Govt.," and requests
that a grant of this amount
may be made from Provincial funds.
The elementary & sessional
schools referred to are presumably
schools opened in recent years
with the aid of subsidies sanc-
tioned by Govt. In respect
of these schools, the Govt. have
not given any undertaking
that the net cost will be met
from Provincial funds. The Govt. are
not therefore bound to contribute
towards the payment of war
allowances.

 These teachers are servants
 of the local boards and will
 have to be treated like any
 other employee of the boards.
 But, before informing the D.B.
 that a grant cannot be sanc-

 therein proposed that, if a local

 expenditure on account of
 war allowance, the Govt
