THE CHIEF ENGINEER & SECRETARY TO GOVERNMENT.

P. W. D.

MADRAS.

Through

The Principal, College of Engineering.

MADRAS.

Sir,

I, an Engineer student on Practical Course, beg to bring to your kind notice the very hard conditions under which we students are living now.

Last time the students approached you on the matter of the increase of their stipends, I hear you were -- sympathetic enough to recommend an increase and the Government provisionally sanctioned Rs.35, which went then long a way to relieve the stress.

But the conditions are growing worse every day. Though the War has come to a victorious end, the economic distress has been increasing and shows no signs of abatement in the near future. Famine is abroad. Even for a single man, under the existing circumstances, whether in Madras or outside, Rs.60 is not enough. In Madras House Rent and Hotel Charges have nearly doubled. Outside in our isolation each one of us has to engage for himself a cook and a house. The case of students who are married is much worse.

Further I beg to bring to your kind notice

that

2893

They are not at all underhanded but sanctioned both

That the Medical Department allows students during their House Surgeon Course, fine well furnished lodging-free, and an allowance of Rs.50. I further hear that an increase in their allowance is contemplated in the near future. -- For the present they receive a famine allowance of Rs.5.

Now that the War is over and the financial stringencies of the Government have relaxed, I request, the Government will kindly reconsider the case and grant us an allowance of at least Rs.50 (Fifty Rupees) and the Famine Allowance, of Rs.5. (Six Rupees).

C. No 2405-E

Dis.No.136/19-20,

Memorials from Engineer students for increased
stipend.

D.S.

With his endorsement read above, the Principal
College of Engineering, Madras, forwards petition
from certain Engineer students of the College and
going practical course, praying for the grant of

(1) a stipend of Rs.50 instead of Rs.35 as at
present, and

(2) a famine allowance of Rs.6.

2. As regards (1), attention is invited to
para.79 on page 72 of the Report of the P.W.D.
Reorganization Committee, from which it will be seen
recommended
that they have ~~XXXXXX~~ a stipend of Rs.50 for all
Engineer students undergoing practical training. The
stipend originally granted to these students was
Rs.25 and it was raised to Rs.35 last year in G.O.
No.574-Home (Educational), dated 1-5-18. The latter
amount has been fixed only as a provisional measure
pending the issue of the orders on the recommenda-
tions of the Committee. ~~(This is a provisional measure)~~
~~and~~.

As regards the second request of the memoria-
lists, attention is invited to G.O.No.16-Finl., date
7th January 1919. All subordinates in superior
servi

W.O. Camp N: 289/19819-8-19

I do not know that any case has
 been made out for increased 'subsistence'. A
 (or subsistence allowance) [Stipes] is not intended to cover the cost of a
 man living with his family. It is questionable
 whether it is intended to cover the whole cost
 of a single man under training. £35 per
 should suffice to maintain a single man -
 a student still, as these men are - who live
 quietly. A comparison of the subsistence all-
 made to these students with the 17p
 awarded to teachers - even to L.T. students,
 who are all graduates - (vide M.R. 118) shows
 that Engineer students are relatively ill-
 treated. War Allowance is not paid

to stipendiaries who are in training as teachers, and if it is granted to English students the claim will certainly arise if it is granted to teachers in training. Our present expenditure on stipends for those in training is about £44. per annum, the part of war is $\frac{2}{3}$ to all teaching stipendiaries will cost more than £42.
