Memo. Col. 762 B-2 8/12/19

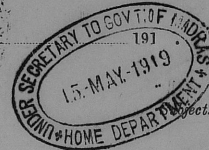

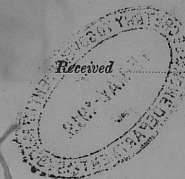

It has come to the notice of the Govt. that the boys in the Reformatory School, Chingleput, are stunted, badly grown and badly developed, and there is reason to suppose that this is a condition which has been accentuated of late years. Some 20 or 25 years ago the boys in the school were strong and of good physique and the Government are concerned to observe this falling away from the former standard. There are no such signs of retarded development and stunted growth in the Reformatory schools elsewhere.

1. It is therefore proposed when Mr. Coombes proceeds on leave, which will be from or after the 7-7-1919, to try the experiment of putting the school in charge of a medical officer, who, being continuously present, will, it is hoped, be able to diagnose the cause of the deterioration. The D.P.I. is accordingly requested to submit, in consultation with the Surgeon-General his opinion on the merits of this proposal and the latter officer is requested to suggest a suitable medical officer for the post. The Govt. consider that this is an experimental measure and the medical officer will act as ^{full time} Supdt. ^{temporarily without the services} of his school. ^{school rules will not be applicable.}

From (Name) The Hon'ble Mr. R. Littlehales, M.A..

To The Secretary to the Government of Madras,
HOME (EDUCATION) Department.

Sir,

With reference to Government Memorandum No. 762 B-2, dated 28th April 1919, I have the honour to submit that I consider the proposal to place a full time Medical Officer in charge of the Reformatory School, Chingleput, temporarily, without the services of a Deputy Superintendent eminently desirable at the present time in view of the physical condition of the inmates of the Reformatory. The Surgeon-General informs me that it may be possible to appoint on deputation or otherwise a senior Civil Assistant Surgeon as Superintendent, and that if the allowance of Rs. 100/- per mensem which is ordinarily granted to the District Medical and Sanitary Officer of Chingleput when he is appointed

3

(D)

Superintendent of the school (vide Rule 8 of the Rules for Reformatory School, contained in G.O. No. 158 Educational, 20th March 1907) be given to the Civil Assistant Surgeon so appointed, it might suffice to attract and retain him for some little time as Superintendent. The post of Headmaster of the school is in the cadre of Sub Assistant Inspectors of Schools, in the Subordinate Educational Service, and there should be no difficulty in placing a senior Civil Surgeon over him and in full charge of the Reformatory. The officer to be appointed will presumably occupy the quarters in the school compound now occupied by Mr. Coombes, the Deputy Superintendent. The momentum which the educational and industrial work of the school possesses will suffice to carry it safely over the period required for the Superintendent to become acquainted with the details of its working.

I have the honour to be,

Sir, Through the Director of Public Instruction, Madras.

With reference to Government Memo. No. 762-B-2, dated 28th April 1919, I have the honour to recommend the appointment of Civil Assistant Surgeon P. Krishna Warriar, L.M. & S., as temporary full time Superintendent of the Reformatory School, Chingleput, on a salary of Rs. 600/- per mensem. Dr. Krishna Warriar is an experienced Civil Assistant Surgeon of 11 years service and is Assistant to the District Medical and Sanitary Officer at Tinnevely. He has been directed to

Extract of notes connected with G.O. No. 123 Home (Education) dated 29-1-19 regarding the revised scale of diet for the boys in the Reformatory School.

..... Why are these boys "stunted badly grown and badly developed" as it is now proved that they are? This seems to me to be a most serious question for the Govt. which is responsible for the matter...

There is I believe no reason whatever why boys convicted of crime and sent to a Reformatory should not develop physically under proper diet and treatment. A small number may be affected by hereditary syphilis - but in this country such children generally die out in infancy. A small number may also have defective nervous systems - but this also is rare in India in comparison with Europe. Some further explanation of the state of the boys in the Reformatory School, Chingleput, seems to me to be needed. I have a very strong recollection of the boys in this School 20 to 25 years ago, and they were then a strong, well developed set. I have seen the Reformatory School at Alipur and there were no such signs of retarded development and stunted growth. I have also seen the boys at the great schools at Redhill and Chatham, and they were in splendid condition.

The history of jail administration in this Presidency leads to but one conclusion on this subject, and that is that when the population of an institution such as this shows these symptoms the only remedy is to be found in a change in management. Major General Gifford has done all that could be done in a few hours' inspection, but how is it possible to ascertain in such an inspection...

goes on during the other 364 days of the year? The case of a School is far more difficult than that of a Jail because the weights of the boys are not established. When a man reaches adult age, his weight becomes more or less fixed under normal conditions, hence a convict's weight on admission is a fair index to what he would weigh if properly fed and worked, and if a large proportion of men lose weight after admission to jail, it is absolutely certain that something is wrong and most probably that they are not getting the prescribed food. But with boys who ought to be gaining weight every year - there is no such rough and ready test. Nevertheless on Major General Giffard's finding, which fully supports the impressions I received in February 1917, regarding the physique of the boys, it can hardly be doubted that something is wrong, and in my opinion there is no remedy except a change in the management. Mr. J.W. Coombes completes 30 years' service in London next and he told me sometime ago that he contemplates early retirement.

If Mr. Coombes retires, or if he is transferred to other work, I should be much inclined to put the School for a time in charge of a Medical officer, who might, being on the spot day after day, be able to discover what is wrong.

In R. 20 Home (20?) of 1.2.19 Mr. Coombes was permitted to proceed on combined privilege leave and furlough for 15 months and 8 days from or after 7.7.1919. With reference to the remarks of the Hon'ble Sir Alexander Cardew, ^{now His Excellency the Governor} at X on p.2 and attention is ~~requested~~ solicited to rule 8 of the rules for the Reformatory School, under which the St. Medical and

(D)

and Sanitary Officer shall ordinarily be the Supt and the Deputy Supt shall belong to the Provincial Educational Service. This rule was based on the suggestion of the Govt of India in their letter, Home Dept, No 1621 dated the 11th Decr 1885, which was accepted by the Govt in para 2 of L.O No. 1271 Jnd of 14th May 1886. It would therefore appear that a Medical officer cannot be appointed as Dy Supt during the absence of Mr Coombe on leave, unless the rule is modified in view however of the fact that the Medical officer is to be appointed as Acting Supt of the School, there seems no objection to such a course even though the rules provides that "the District Medical and Sanitary Officer shall ordinarily be the Supt."

2 It is for consideration whether within reference to the D.P.D may be requested to report in consultation with the Surgeon General as to the advisability of appointing a suitable Medical officer as acting ^{who shall be on that spot day after day} Supt during the absence of Mr Coombe.

dated 13th May

The D.P.I. agrees to the proposal to place a full time Medical Officer in charge of the Reformatory school, Chingleput, temporarily without the services of Deputy Supdt.

2 There is no objection to the allowance of Rs 100/- ^{usually} granted to the Dt Medical and Sanitary Officer when he is Supdt of the Reformatory School, being given to the Civil Assistant Surgeon when he is appointed to the post. The Surgeon General's suggestion in this regard may be accepted.

3 The Civil Asst Surgeon who may be appointed to the post of Supdt of the school may be permitted to occupy the quarters in the school compound now occupied by the Dy Supdt, as the Civil Asst Surgeon should be continuously present on the spot and as there will be no Dy Supdt to occupy the quarters.

(Medical) Deptt has forwarded for perusal of this Deptt a draft D.O. to the Surgeon General regarding the pay which may be given to a full time Medical Support of the Chungking Reformatory School. The points referred to in paras. 2 and 3 supra may also be embodied in the draft D.O. so that the Surgeon General may take them into consideration in selecting a suitable Medical officer for the post. & vide position marked B in para. 2 of the memo appended.
