No. 2771/18

Station M. S. R. & S., Dated the 14-2-1919

From (Name) The Honourable Mr. R. Littlehales, M.A.

(Designation) As. Director of Public Instruction.

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

I have the honour to submit herewith the plans bearing Nos. 239 (a) and 239 (b) with estimates amounting to Rs. 7760 for the construction of an upper storey over the existing dormitory of the Wesleyan Mission Girls' High School, Woreiyur, Trichinopoly and to recommend that a grant not exceeding one-half of the total cost may be sanctioned.

2. A copy of letter No. 2907 dated 19th April 1918 of the Executive Engineer, Trichinopoly Division, regarding the strength of the foundations is herewith sent.

I have the honour to be,
Sir,
Your most obedient servant

R. A. Arne
for Director of Public Instruction.

Letter No. 2907 dated 19-4-18 from the Executive Engineer, Trichinopoly Division to the Correspondent, Wesleyan Mission, Worsaiyur, Trichinopoly.

I have the honour to return the plans and estimate for the proposed extensions to your school. I have calculated the pressure on the foundations at the point marked $\odot$. I find that it will be 1.14 ton per square foot. Although I have not seen the nature of the sub-soil yet I think that with so low a pressure almost any soil would support this pressure. I have no doubt that the soil is good if not the pillars could be underpinned on to deepen foundations. I would however ask you to call the attention of the Director of Public Instruction that as Mr. Moore the Chief Engineer of the South Indian Railway has certified on the plan that the strengthening of the foundations which he proposes would make them strong enough, his certificate should ~~be~~ ^{be} accepted without any further enquiry.

2. I cannot send on the papers to the Director of Public Instruction because they must be accompanied by an application in the form prescribed in Appendix M of the grant-in-aid file.

(True Copy)

The Director of Public Instruction submits, for approval, plans bearing No. 239(a) and 239(b) and a detailed estimate of Rs. 7,760/- for the construction of an upper storey over the existing dormitory of the Wesleyan Mission Girls High School, Worsaiyur, Trichinopoly District and recommends that a grant not exceeding one half of the total cost may be sanctioned.

II. The drawings and the estimate have been examined in the Chief Engineer's office and it is observed that the estimate is quite unintelligible and its details do not appear to agree with the plans.

(a) Quantities in the detailed and abstract estimates do not agree with each other in several cases e.g. items (6) 21, 47, 51 etc. and in fact the two copies of the abstract estimate themselves differ/one from another ^{vide} the last two items.

(b) In the event of ~~tear~~ beams being used, the provision of Rs. 54/- for hoisting steel beams is considered unnecessary.

III. It is not clear what portion of the old materials are proposed to be utilised in the new work.

IV. The place where the pressure on foundations is said to have been calculated by the Executive Engineer ^{Trichinopoly Division} is not traceable on the plan.

V. The plans have not been signed by

copy nor has the certificate referred
to by the Executive Engineer in his
letter 2907 dated 19-4-1918 been attached.
The general specifications required by
rules do not accompany the estimate. In
fact the plans and estimate have been
prepared without any regard to the in-
structions given in Circular No. 116-C
dated 4-1-1913.

VI. Under the circumstances the
Chief Engineer finds it impossible to
check the plans and estimate which are
now returned for revision on the above
lines and resubmission.

The plans & estimates have not
 been prepared by a qualified person
 They have however been examined
 in the Chief Engineer's office and
 are found to be defective in many
 respects. The Chief Engineer therefore
 finds it impossible to check them
 & desires that they should be
 returned to the School authorities for
 revision and resubmission on
 the lines recommended in his
 note read above.
