With reference to letter from the Committee of the Lawrence Memorial School, Cotacamund, C.No.2071, dated the 9-8-19, re: the provision of funds required for the completion of the junior school building now in progress, it is observed that the Govt. have not, since the issue of G.O., No. 556 Edn., dated the 30-4-18, been furnished with any definite estimate of the ultimate liability involved in this building scheme. As a preliminary to the consideration of the question of Govt. grant in aid of the building construction, the Committee is requested to submit a complete and clear report specifying -

- (1) what the eventual cost of the project ~~will~~ ^{be} be,
- (2) what expenditure has been so far incurred on the scheme from school funds in the order of the instalments in which such has been incurred and
- (3) The extent of Govt. aid required mentioning the detailed objects for which it is sought.

Lo. 1715/B, from the Committee of the L. M. School

No: 2071, d/ 9.8.19.

Encl.: of the D. P. G., R. e. 7391/19, 2.9.19

A short history of the
Juniat School building now in progress
in connection with the Lawrence
Memorial School will be found in letter
(M) No: 681, d/ 27th May 1919 in which the
Govt: of India, Army Deptt., have been
asked for a non-recurring grant of
Rs 91,000 which was then calculated as
being necessary to complete the building.
The committee ^{has} ^(on 9th Aug: 19) stated that their contribution
towards the building ^{would} be paid
up this month and press for the
disbursement of the Govt: grant at
once. It has to be observed that the
Govt: have not till now been furnished
with accurate estimates of the liability
involved. The committee have been
giving at ~~different~~ intervals different
accounts so much so that it is difficult
to forecast with any degree of ^{approximate} accuracy
what the eventual cost of the building
scheme would be and in what proportion
it will be shared between State
Revenues and school funds.

finding the balance for future
determination. Some long temporary
diversions from the 75 lakh, earmarked
for the building, had to be
faced. These diversions however were
temporary only in name as they made
themselves felt permanently when
the School budget for 1919-20 came
up. The budget threatened to result in
a deficit which was only alleviated by
curtailing the provision for the junior
School building from Rs 62,000 to
Rs 40,000. The latter together with the
Rs 7,000 exhibited in the Revised estimate
for 1918-19, is a total of Rs 47,000 alone
was assumed to be the amount which
the School could contribute towards
the building. Later on, the Committee
forwarded certain correspondence
from Military Works officers who are in
charge of building operations. This

disclosed that the estimate would be Rs 1.38 lakhs which meant that .91 lakhs (1.38 - .47) should come without school funds and the appl to India is, as noted above, for this. Besides this, the committee has been promising to send up an estimate furniture and fittings. As far as has actually been subd.:

- ① what the ultimate estimate would be of this building scheme;
- ② how much the school has actually lent till now and in how many instalments.

Pending orders of Govt. I would treat this current provisionally under the European Code. Usually we will sanction $\frac{2}{3}$ of 1.38 i.e. .92 lakh.

I would assure the Committee that this Govt. pending final orders, will be prepared to pay an advance say not exceeding 60,000 Rs. & the work going on; & at the same time we will furnish more info on the draft memo put up. Meanwhile when Indira orders are received we can consider further

The amount required to keep the works going can be found temporary from the Educational Dept., 22-G. - Building Grants & European Schools. How much can be shared permanently I cannot state without reference to the head office. I do not think however that the C.R.L. was meant to cover a case of this kind, which is practically a grant from Govt. to Govt. or from Provincial Funds to an institution ^(financially) under the Govt's control. I do not know what the financial rules are which bear upon the case but I suggest that Govt. pay to the Military Works Committee or to the Committee of management of the Lawrence ~~Memorial~~ School a sum, not exceeding £60,000, equal to the estimated ^{cost of work} cost of the work done as certified by the A.C.R.L., and that this be debited against 22-G. - Building Grants & European Schools, without specifying bringing the application under the C.R.L.

The buildings for the Junior School of the Lawrence Memorial School was originally estimated to cost Rs 1,10,000, and it was stipulated that the school funds upto Rs 75,000 should be utilised on it. The question ^{as to how} of the balance of the estimate should be found was left for future consideration -

(E)

vide G.O. No. 566 Home (Edn) & 30.4.18 and Encl. note on p. 97 of notes to the G.O. Subsequently it was found that the school funds could not contribute more than Rs 47,000, while the estimated cost rose to Rs 1,38,340. The Govt of India in the Army department was accordingly requested to sanction a grant of Rs 91,000 towards the buildings. The Govt of India have not yet passed orders.

With refer: to 'K' in C. S's notes above, it appears that the money cannot be taken from the funded capital

as practically the whole of it was originally the property of the old Military male & female orphan asylums but transferred to the Lawrence Memorial School subject to the express condition that the latter should provide for the education of 200 boys & 100 girls of the classes that were eligible for admission to the respective asylum.

The property is consequently of the nature of a 'trust' and seeing that the income from the Endowments is already notoriously inadequate to provide for the education of the above-mentioned 300 pupils it seems inexpedient to draw on the capital of the Endowments.

2. The Principal assured us on the 4th of April 1918 (vide page 94 of notes to G.O.No.566, dated 30th April 1918) that he had a lakh of rupees to his credit of which Rs.75,000 were ordinary school funds available for any purpose sanctioned by Government, out of which he has only been able to spend Rs.47,000 on the School. I presume his accounts have been scrutinized to see what has happened to the balance, but do not find the result of the scrutiny in the file.

3. Meanwhile, he assured Sir Alexander Cardew that the C.R.E. had got the materials in hand at specially low rates—vide page 90 of the file above quoted and apparently a sum of Rs.50,000 was advanced for brick-making, etc. This being so, there should not have been such a large increase in the estimate on account of increase in the price of materials.

5. I presume we must sanction some advance, but it should not be more than the Engineers assure us is necessary to enable them to carry on for a period of, say, three months. Meanwhile, I should like to see a more complete file with notes on the points above referred to.

$p. 9406 - 20.566 \text{ (E)}$
 20.419

Since 4th April 1918 on which date the Principal wrote as to the availability of 75 lakh in the shape of ordinary school balances, the following items of expenditure not specifically provided for in the budget for 1918-19 had to be met from this 75 lakh:—

(I) Bonus to School Staff		
(II) Sanctioned in G.O. 833 d/25.6.18.		5,940
(III) $\frac{G.O. 1492 d.}{23.11.18.}$ (2) deficit in the working of the school during 1918-19		8,600
(IV) $\frac{G.O. 1543 d.}{2.12.18.}$ (3) Work allowances to School Staff in 1918-19		1,344
(V) $\frac{G.O. 1562 d.}{6.12.18.}$ (4) Extra cost on account of Chapel organ adjusted in the accounts of 1918-19		1,396
(XI) $\frac{G.O. 1042 d.}{12.8.18.}$ (5) Increased expense in the provision of hot water apparatus &c.		9,46
		<u>18,016</u>

The balance of Rs. 75 lakh is therefore .57 lakh. Even this amount could not be fully utilized for purpose of the junior school building because the prevailing high prices necessitated increased provision in respect of several items in the budget for 1919-20. As the budget for 1919-20, framed by the Committee resulted in a minus balance the Govt. reduced the provision for junior school from .63 to .40 lakh of Rs. per Rs. of notes at pp 243 of notes to
