8) The necessity of raising the Government College to the First Grade.

Arguments

8. The necessity of raising the Government College to the First Grade and of improving the status and scale of pay of the lecturers in the College.— A large number of South Kanara students have a special aptitude for science as can be seen from the University results. It is therefore proposed that the College be raised to the First Grade by provision being made for the teaching of science. Again, it is submitted that the status and the scale of pay of the First Assistant and the other — — lecturers in the College may be placed on the same footing as those of the lecturers in the Kumbakonam and Rajamundry Colleges.

Collector's note.

This subject was placed before His Excellency Lord Pentland in 1917 by the District Association and His Excellency's remarks are contained — on page 45 of the Book "Eighteenth — Tour of His Excellency Lord Pentland."

A request similar to the present one was made by ^{a deputation} the S. Kanara District Association which waited ~~on H.E. Lord Pentland~~ on H.E. Lord Pentland and at the time of his visit to Mangalore in 1905. H.E. fully sympathised with the desire of those interested in the College that its status should be raised to the first grade and that provision should also be made in it for the teaching of science. But in view of the opportunities which already existed for students to complete their course elsewhere ~~it was a~~ ^{the} question ^{was raised} whether the large expenditure which would be involved in raising the status of the College would not be more equitably ~~be~~ devoted to improving and extending secondary and elementary education. The General House of the meeting was ^{that} wherever these claims conflicted preference should be given to expenditure on elementary education.
