is a first grade college and the latter a second grade college. These institutions now meet the demand of Malabar. ~~There does not appear to be~~ ^{does not appear to be} enough qualification for starting a second grade college at Kannur. The D.P. may be consulted (us) on the point.

2. As regards insufficiency of accommodation in the Municipal High School, the proper course for the Municipal Council is to get ready detailed plans and estimates for the additional building required and then to apply to Govt. ~~through~~ ^{for} the D.P. for a subsidy towards the purpose.

No doubt the complaint about inadequate accommodation is real. The High School has been ~~using this point on the Council for some time.~~ ^{From the administration report}

17-9-19 of the Municipality for 1917-18, it appears that the school worked at a profit. A subsidy of Rs 1,920/- is now being paid from Provincial funds towards the improvement of the pay of teachers and pandits in the school. In Govt 333 Hme (E.D.), of 12-3-18, a special grant of Rs 2000/- was sanctioned to the Council towards the provision of additional equipment for the school.

A city is unnecessary in (unincorporated)

The High School has for many years worked at a profit which is expended on some other objects than the proper management of the school. If the accumulated profits for the last ten or fifteen years had been expended on the school this urgent demand for a subsidy from Provincial funds need not have arisen. I have no figures with me, but I might suggest that, if they are readily available, the figures of the profit that has accrued to the school for some many years past would form interesting reading in this connection, and might be excerpted from the administrative report of the municipality, and forming the municipality brief.

We can readily find funds for helping in the buildings required for providing ~~extra~~ additional accommodation. But we insist upon the municipality finding some of money required. I think that a specific promise might be held out to the effect that if the municipality is prepared to find ^{one} half the cost of making such alterations and extensions of buildings as are agreed to be necessary

P.S.G. (U.O.)

Returned with the following extract from His Excellency's reply:-

"I hardly think that a case has been made out for the establishment of a second grade college at Camanore. You have one at Tellicherry only 15 miles away; there are also the Government Victoria College at Palghat, the Basel Mission College and the Zamorin's College at Calicut all in your district; while close by at Mangalore there are the St. Aloysius College and the Government College. I would also invite your attention to the fact that for a number of years your High School has been financially a profitable institution so that you ought to have a margin of resources with which to improve its facilities. I must also ask you to remember that you have not yet imposed the full taxation which you are entitled to levy. The remedy for deficient funds therefore lies to some extent in your own hands and I hope that you will realise that there can be no real progress in local self-government until you are

prepared to realise and meet your own responsibilities."

IV. Educational Requirements. Unless Your Excellency considers that it would be a luxury to have a second grade College at Cannanore so near Tellicherry where one already exists, we beg that a second grade College may be established here. This place is far better suited for such a College than Tellicherry owing to better climate and more accommodation available. If this is considered impracticable the condition of our High School may be improved by making liberal grants. The school is an old institution established in 1861. Though it is a prosperous and self-supporting institution its surplus income and the resources of the Municipality do not enable us to spend any thing towards its improvement. Accommodation is urgently needed and admission to several deserving boys of the town has to be refused for want of sufficient accommodation. A sum of Rs.10,000 at least is required for additional buildings and other improvements.
