7th September 1919.

From

H. Muhammad Futtur Saheb Bahadur,

Honorary Secretary, Islamia Club, Mangalore.

To

J. K. Lancashire Esquire, I.C.S.,

Collector of South Kanara.

Sir,

With reference to your letter dated 1st September addressed to our President of the Islamia Club I have been directed to send you the necessary information required concerning the deputation of the leading members of the Club to wait upon His Excellency Lord Willingdon at the time of his forthcoming visit to South Kanara and to enable us to place before him the following grievances of the Muslims of the District.

1. Up till now Government has been pleased to grant to the Muhammadan community on account of their educational backwardness the concession of allowing their students to study in the schools and colleges under the Madras University on payment of only half fees. We now understand that this much appreciated concession has been withdrawn by the Director of Public Instruction. We do not know on what grounds this much needed concession has been withdrawn by him. It is our firm belief that some educational progress has been achieved by the youths of the Muslim community on account of this special concession having been granted to it. We pray that, if such report is true, a great set-back will be given to the advancement of the cause of Muhammadan education in South Kanara.

2. A great desideratum and a special grievance of Muslim youths in South Kanara is the want of a hostel for them. When His Excellency Lord Pentland visited South Kanara in October 1917, he was good enough to tell us that he would ask the Collector of

6-5780

South Kanara to see that a site for building a hostel for Muslim youths would be provided for. Since then we pointed out three sites within the Municipal limits of the town to the Collector in all of which cases we have been disappointed. For want of such a hostel the Muslim students attending the schools and colleges are very greatly inconvenienced. = Students coming to Mangalore from mufassal parts of the District have simply to shift for themselves in hotels which are not at all conducive for their mental and moral developments. Thus the starting of a Muslim Hostel is an indispensable necessity. As the Muhammadans of South Kanara are very poor, they have not been able to provide themselves with a hostel and will not be able to do so for a long time to come unless Government gives them a helping hand in the matter. Now we submit for Your Excellency's favourable consideration that one of the three sites mentioned below preferably the first mentioned plot may be kindly ordered to be given to us for constructing a hostel free of assessment.

- (1) Old Government Timber Depot lying to the west of the Taluk Office and to the east of the Police Playground.
- (2) The southernmost corner of the Maidan which lies to the east of the Government Telegraph Office.
- (3) A portion of unused and waste railway land near the European Cemetery.

3. On account of the necessity of advocating and safeguarding the special interest of the Muslim Community which is backward in this District, it is quite necessary that a special seat for the Muhammadans of South Kanara in the ~~reformed~~ reformed Madras Legislative Council must be set apart. As the Muhammadans of the two districts on the West Coast, that is, South Kanara and Malabar form more than one-third of the entire Muhammadan population of the Presidency, we pray that one-third of the number of seats set apart for Muhammadans in the reformed Legislative Council may be allotted to these two districts, that is, at least four seats may be allotted for these districts and one at least out of the four may be reserved for the Muhammadans of South Kanara alone.

4. We request that a certain percentage of the nominated seats in the Municipal Council and Local Boards of South Kanara should be set apart for them as it is otherwise very difficult for the representatives of the Muhammadan Community to secure seats in these bodies. In making our request for separate representation on the Local Boards and Municipality Council we have not asked for anything more than what the all-India Muslim League and the Provincial Muslim League have asked for. If our request in this respect is not granted, we will have no voice in the Local Self-Government and it will be a great injustice to this large and important community. The statement below will convince this fact beyond any doubt.

1.	The strength of the District Board is	24
	Muhammadan representatives only	2
2.	do Mangalore Taluk Board is	15
	Muhammadan representatives only	1
3.	do Coondapoor Taluk Board	16
	Muhammadan representatives only	1
4.	do Puttur Taluk Board is	17
	Muhammadan representatives only	2
5.	do Municipal Council is	21
	Muhammadan representatives only	1

In all these bodies Muhammadans are represented only by nomination, as they found it quite impossible to come there by election.

5. Want of a Secondary School for Muhammadans has been keenly felt here. We learn that there are Government High Schools started in large Muhammadan centres but the West Coast had not had the good fortune to have one till now. If one be started for the West Coast the Muhammadans of Malabar and South Kanara will thereby be much benefited. As we hear that the Government has sanctioned six Government High Schools for Muhammadans and also that four of them have already been opened in other parts of the Presidency, we pray that the remaining two High Schools at least may be started in South Kanara and Malabar. For this request, we also rely on the fact that not only more than one-third of the Muhammadans of the whole Presidency are in these two districts, but also that the Muslims of these two districts are more backward in education than those of other districts and consequently they require more encouragement from the Government in this respect.

6-25-67 7
I hope that you will be kind enough to arrange for our
deputation with His Excellency and oblige.

I have the honour to be,

Sir,

Your most obedient servant,

H. MUHAMMAD RUFIR SAJJAD

Honorary Secretary.

✓ Site for building a hostel in Mangalore. They had applied for three sites, one in front of the Telegraph Office and the other two in the vicinity of Mangalore. All these sites were found objectionable, the first because it had been set apart as a drill ground for the Police and also because it was unsuitable for sanitary reasons, the second because it was wanted for the Municipality and the third because it had been already selected for the construction of quarters for the railway staff. If they point out any other unobjectionable site, their request will receive favourable consideration.

✓ A Government High School for Muhammadans on the West Coast.

As the total number of Muhammadan boys now studying in secondary schools in the whole district is only about 173, a separate High School for Muhammadans in this district can hardly be expected to prove successful, and it is doubtful whether many would care to go to a school in Malabar.

8 9
Supplemental note on the detailed list of subjects to be placed before His Excellency the Governor of Madras by the Islamia Club, Mangalore, on behalf of Muhammadan Community.

✓ In paragraph 2 of the letter, dated 7th September 1919, the Honorary Secretary of the Club makes mention of three plots and requests that the first mentioned plot may be given to them for the construction of a hostel free of assessment. The first plot had been set apart for the construction of a circuit house. In their memorandum No. 1625 C.P.W.D., dated 6th March 1919, the Government, however, directed that the plot should be made over to the Educational Authorities for the construction of a hostel for the Government College.

The other two plots have already been dealt with in my note of the 11th instant.

In the last sub-paragraph of paragraph 4 of the letter referred to above, the Honorary Secretary states that the Muhammadans are represented on the District and Taluk Boards and on the Municipal Council only by nomination, as they found it quite impossible to secure election. With reference to this, I have to remark that there was recently an election in respect of a vacancy on the Municipal Council and a Moulah gentleman was returned by a large majority in spite of strong opposition on behalf of the rival candidates, a Roman Catholic Christian.

- " The fact of the matter is that the

 of half fee is still allowed in the case

There are no Special Secondary Schools for Mappillas in S. Kanara; but there are 8 high schools and 9 middle schools in the district which are open to all classes. The total number of Muhammadan boys studying in secondary schools in the whole district was, on the 31st March 1918, only 171; scattered ^{in institutions} all over the district and it is therefore doubtful whether there will be sufficient justification for the opening of a separate secondary school in any one particular place. The Collr also considers that a separate school for Muhammadans in the district will hardly prove successful. In regard to the opening of a school in Malabar, the Collr doubts whether many from S. Kanara would care to go to a school in that district.

Rule 102 of the Madras Educational rules provides that fees, in all institutions above the grade of elementary, may be levied from Muhammadans and Oriyas and from girls and backward classes and castes at half the standard rates. Recently the Director of Public Instruction noted on the subject as follows:-

At 12-30 p.m. on Wednesday the 8th October 1919, at the Collector's Bungalow, His Excellency received a deputation from the Islamia Club, Mangalore. The deputation consisted of the following persons:

The Hon'ble Khan Sahib Haji Abdulla Haji
Kassim Sahib Bahadur,
Khan Sahib P. Koonjayan Sahib Bahadur,
Muhammad Schammad Sahib Bahadur
M. Muhammad Khan Sahib Bahadur,
M. Muhammad Sahib Bahadur,
M. Muhammad Puttur Sahib Bahadur.

Mr. R.H. Ellis, I.C.S., the Collector and Mr. A.C. Duff, I.C.S., the Private Secretary, were also present.

The deputation first brought to His Excellency's notice that, owing to the backwardness in education of the Muhammadan community, the Government had till recently granted the concession of allowing their children to study in the schools and colleges in the Madras Presidency on payment of half fees, but ~~that~~ they understood that ~~this~~ concession had been withdrawn by the Director of Public Instruction. On account of that special concession the youths of their community had achieved some educational progress and if the report was true they feared that a great set-back would be given to the advancement of the cause of Muhammadan education. In reply to His Excellency's query whether it would not be proper for well-to-do Muhammadan gentlemen to pay for the education of their children, it was stated that as most Muhammadans would not realise the value of education, they were unwilling to send their children to school if they had to pay full fees even though they could afford to do so: while exemption would prove a valuable incentive and encourage development. It was also pointed out that most of the troubles in Malabar were attributed to the ignorance of Moplahs. His Excellency promised that he would place their views before Mr. Littlehales, the Director of Public Instruction, but remarked at the same time that it was difficult for Government to admit that gentlemen who had sufficient income should not pay for the education of their children.

The next point urged by the deputation was the want of a hostel for Muslim students in South Kanara which they considered an

At 12-30 p.m., on Wednesday the 8th October 1912, at the Collector's bungalow, His Excellency received a deputation from the Talukda Club, Mangalore. The deputation consisted of the following persons:

Mr. N. H. Ellis, I.C.S., the Collector and Mr. A. G. Pitt, I.C.S., the Private Secretary, were also present.

The deputation first brought to His Excellency's notice that owing to the backwardness in education of the Muhammadan community the Government had till recently granted the concession of allowing their children to study in the schools and colleges in the Madras Presidency on payment of half fees, but that they understood that this concession had been withdrawn by the Director of Public Instruction. On account of that special concession the youths of their community had achieved some educational progress and if the report was true they feared that a great set-back would be given to the advancement of the cause of Muhammadan education. In reply to His Excellency's query whether it would not be proper for well-to-do Muhammadan gentlemen to pay for the education of their children, it was stated that as most Muhammadans would not realize the value of education, they were unwilling to send their children to school if they had to pay full fees even though they could afford to do so; while exemption would prove a valuable incentive and encourage development. It was also pointed out that most of the properties in Malabar were attributed to the ancestors of Moplahs. His Excellency promised that he would place their views before the authorities, the Director of Public Instruction, but remarked at the same time that it was difficult for Government to admit that gentlemen who had sufficient income should not pay for the education of their children.

The next point urged by the deputation was the want of a hostel for Muslim students in South Kanara who they considered an

indispensable necessity. They had pointed out to the Collector three sites within the Municipal limits of Mangalore for this purpose but they could not get any one of them. Mr. Ellis stated that the sites referred to could not be made available for various reasons. His Excellency asked the Collector to go into the matter and do what he could to assist them to get a suitable site for a hostel.

(a) The next request of the deputation was that as the Muhammadans of South Kanara and Malabar formed more than one-third of the entire population of the Presidency, one-third of the number of seats set apart for Muhammadans in the reformed Legislative Council (i.e. 4 out of 13) might be allotted to those two districts and that one at least of the four might be reserved for the Muhammadans of South Kanara alone. His Excellency said that he could not say anything to them on the matter until the Reforms Bill became an Act and the conditions as to territorial and special representation were known but that he would bear their request in mind.

The deputation next requested that a certain percentage of nominated seats in the Municipal Council and Local Boards of South Kanara might be set apart for Muhammadans as it was otherwise very difficult for them to secure representation on those bodies. His Excellency observed that in nominating non-officials to those bodies the claims of the Muhammadan community were already taken into account and that in view of the fact that a Moplah gentleman was also recently elected to the Mangalore Municipal Council by a large majority in spite of strong opposition he found it difficult to agree that any seat should be specially set apart for them.

The last request was the establishment of a secondary school for Muhammadans in South Kanara. The deputation pointed out that Government had sanctioned six High Schools for Muhammadans in the Presidency, four of which had already been started in other parts and urged that in view of the fact that more than one-third of the Muhammadans of the whole Presidency were in South Kanara and Malabar and that the Muslims of those districts were more backward in education than those of other districts the remaining two might be started

The next request of the delegation was that as the Muhammadans of South Kanara and Malabar formed more than one-third of the entire population of the Presidency, one-third of the number of seats set apart for Muhammadans in the reformed Legislative Council (i.e. 4 out of 13) might be allotted to those two districts and that one at least of the four might be reserved for the Muhammadans of South Kanara alone. His Excellency said that he could not say anything to them on the matter until the Deforms Bill became an Act and the conditions as to territorial and special representation were known. But that he would bear their request in mind.

any seat should be especially set apart for them.

in those two districts. His Excellency pointed out that there were only 171 Muhammadan boys studying in secondary schools in the whole of the South Kanara district and consequently there was hardly justification for opening a separate secondary school for them in the district. The deputation then suggested that at least one High School for Muhammadans might be started both for South Kanara and Malabar. His Excellency undertook to consider the suggestion.

In conclusion, His Excellency said that he was very glad to have met them and assured them that the interests of the Muslim community as much as those of any other community were very much in his mind.

The deputation then thanked His Excellency and withdrew.
