From (Name) The Hon'ble Mr. R. Littlehales, M.A.
(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
HOME (EDUCATION) Department.

Sir,

I have the honour to submit the
enclosed plans and estimates received from the President,
District Board, Malabar, for extending the buildings
occupied by the Board High schools at Alathur and Chowghat
and to state that I am satisfied of the need for providing
additional accommodation for the two schools. The plans
and estimates have been duly scrutinised by the Superintend-
ing Engineer, IV Circle (vide enclosed copy of his letter
No.1284 M/101 E dated 26th August 1919). I approve of the

the alterations made by that officer.

2. The President, District Board, informs me that a sum of Rs.2,400/- has been allotted agreeably to G.O.No.225 Home (Education) dated 21st February 1918 from savings in the Provincial grant for the maintenance of elementary schools towards the proposed expenditure and he requests that the balance may be borne from Provincial funds. I recommend that Provincial funds meet one half of the total cost of both schemes, i.e. 28300/2 or Rs.14,150, the remainder being met from Local Funds (by loan or private subscriptions if no other source is available).

I have the honour to be,

Sir,

Your most obedient servant,

Alexander

The D.P.D. submit plans and estimates amounting to Rs 28300/- for extending the buildings of the Board high schools at Alathur and Chowhat and recommend that Govt should make a grant equal to one half of the total estimated cost, viz: Rs 14,150/- towards the works in question.

2. It is submitted that in the case of a local body the amount of financial help from Govt is ~~has~~ determined mainly with reference to the ability of that body to face the charge in question. It may therefore be requested to examine the financial condition of the Board and to state what portion of the estimated cost of the buildings could be met from its own funds.

3. It may in this connection be pointed out that the St Board's expenditure on education during 1917-18 was poor, the percentage of net expenditure on education to

total current income being only 6.3 against a Pres average of

12.3 per cent. The Board request for a contribution of the entire cost ~~that~~ is ~~to~~ ^{to} be paid in advance.

As regards financial position, the Malabar St Board cannot be said to be impecunious as will be seen from the following statement:-

	1916-17	1917-18	1918-19
	Rs	Rs	Rs
Normal receipts	7,53,620	7,88,346	8,28,715
Normal expre	7,23,833	7,35,229	8,28,64
Surplus.	29,787	53,117	104

But the President of the St Bd has recently represented to Govt that in view of the special circumstances of the district necessitating a heavy outlay on roads and

medical relief, the Board is not in a position to increase its expenditure on education and has applied for special treatment in regard to educational grants. (This is being sub. for orders in the linked file).

(dislinked)

2. In working out the percentage expenditure on education, it has to be observed that the amount spent from the Board's funds on educational buildings is not taken into account. Further according to the calculation of the President (in the linked file), the Board's expenditure during 1917-18 was 8.8 against a Presidency average of 12.3 percent, exclusive of the outlay on buildings.

3. ~~In order to obtain~~ In the circumstances, the proposal of Home (Edn) Dept to sanction a ^{half} grant of Rs 14,150 towards the extension of the buildings of the Alatten and Chowghat schools may be accepted in this Dept.

The high standard of literacy in Malabar is eloquent proof that education has received and is receiving intelligent and adequate attention from the local bodies.

If the St. Bd does not spend more on education it is because, as explained by the President it has to ~~must~~ spend an unusually large percentage of its income on the upkeep of its communications owing to the very heavy rainfall of Malabar, and the very large number of streams ~~and with~~ which the country is intersected in all directions. The only other district which is at a similar disadvantage in regard to roads is South Kanara. It would not, therefore, be equitable to reduce grants for educational buildings in Malabar ~~on~~ on the score that it spends only 8.8% of its income on ~~for~~ education as against a Presidency average of 12.3%. ^{It should see} _{13.10.19}

In the notes to G.O. 1013 Educ
dated 19.8.19 it was decided
that subsidies to local bodies
for secondary school buildings
should ordinarily be limited
to one-half of the total cost.
It is proposed in the present
case to sanction a total subsidy
of Rs. 14,150 to the Malabar D.
Board, being half the cost of
buildings required for the
Board High Schools at Alathur
and Chowghat. Submitted that
in the circumstances pointed
out by L. & M. the proposal
need not be objected to.
