PROCEEDINGS No. 1457-W

Madras the 5th November 1919.

Received

Registered 191

ENCLOSURES.
No.

READ the following paper:—

From the Superintending Engineer, III Circle, No.3348 dated 16th/21st April 1919.

Note by the Chief Engineer, P.W.D. No.2022 Wks-A/19-1 dated 5th November 1919:—

At the instance of the President District Board, Anantapur, the Superintending Engineer, III Circle, submits for

Plan No.I site survey.	approval the 4 marginally noted draw-
" II -do-	ings and estimates amounting to
" III Tiffin Shed etc.	Rs.56,500 for constructing a High
S.E.III No.38/19 Main school building.	

School with out-buildings at Penukonda-Anantapur District.

II. The drawings and the estimates have been scrutinised in the Chief Engineer's office and the following alterations are given effect to;

- The plan of the building should be turned 90 % so that the building may face the local fund road, as shown in green;
- The sizes of rolled steel girders and the spacings of some of the roof timbers have been altered where necessary.
- The running sunshades provided over the windows facing North have been omitted and the windows facing south and west protected by sunshades.
- The dwarf compound walls attached to the main building

with

with galvanised iron palings and ornamental gates are considered unnecessary and they have been omitted.

III. (a) A lump sum of Rs.2000 is provided in the estimate to cover railway freight of such materials as tiles slabs etc., which is considered unnecessary, as the rate in the schedule includes railway freight also.

(b) Generally the provisions for "contingencies and petty supervision" are made only 5 % and 2½ % respectively. The necessity for making the enhanced provisions of 7½ % and 5 % for these items respectively, has not been explained. The Superintending Engineer should satisfy himself about the points (a) and (b) noted above and also about the nature of soil and the suitability of the foundations thereof.

IV. With these remarks, the drawings and the estimate the latter amounting to Rs.51,200, as altered in the Chief Engineer's office, are recommended for sanction.

O R D E R:-No.1457-W, dated 5th November 1919.

The estimate, as altered by the Chief Engineer, amounting to Rs.51,200, for constructing a high school with outbuildings at Penukonda, Anantapur District in accordance with the plans S.E.III No.38/19 and No.120/18-19 is sanctioned, subject to the remarks of the Chief Engineer in his note read above. The buildings will be located as shown on the site plans Nos.1 and 2.

2. The plans and the estimate are returned to the Superintending Engineer III Circle.

(True Extract.)

Under Secretary to Govt., P.W.D.

To
The Superintending Engineer III Circle,

Public Works Department.

From the Superintending Engineer, III Circle,
No.3348 dated 16/21st April 1919.

Note by the Chief Engineer, No.350 D., dated
25th June 1919.

Regarding High School at Penukonda.

D. W.

The Superintending Engineer, III Circle, for-
wards plans and estimate, the latter amounting to
Rs.56,500 for constructing a Board High School at
Penukonda, Anantapur District. The plans and esti-
mates have been scrutinised by the Chief Engineer
and his remarks thereon are contained in his note
read above. As a result of the scrutiny the amount
of the estimate has been reduced to Rs.52,500 and the
estimate as thus altered is recommended by the Chief
Engineer for sanction. The file may now be sent to
the L & M Dept. for necessary action:

L. & M. Department.

The estimates for the buildings for the Board
High School, Penukonda, as revised by the Chief
Engineer, P.W.D., amount to Rs.52,200. In his letter
dated 3rd March 1919 the P. D. B. Anantapur, stated
that neither the Penukonda Taluk Board nor the Anan-
tapur District Board had any money to spare for the
building and applied for a full grant from Government.
The Secretary, Home (Education) Deptt. noted in that
connection that the policy of Government (which was
then under consideration) was to give only half
grants in the case of buildings for Secondary School.

* excluding balances under union funds, endowments, debt heads and Provincial grants.

NOTES.

Page 5

The budget estimate of the Dt. Board for the current year is expected to close with a balance of only Rs.15,340 under general funds so that the Dt. Board will not be in a position to meet one half of the estimated cost of the building viz., Rs.26,250 from its own funds. ^{unless a full grant is made from Govt funds.} it will not be possible to take up the construction of the building at present. Submitted that the Home (Education) and Financial Deptts. may be requested U. O. to consider the question of making a full grant for the work as a special case. It may be noted in this connection that the Penukonda School was raised from an incomplete to a complete Secondary School in G.O. No.757 Home (Education), dated 11th June 1918, and that the net additional cost involved by this proposal is met from Provincial funds vide para 2 (iv) of the G.O. and annexure I on page 8 of the same.

Id. 3-7-19 Id. 4-7-19

If the Dt. Bd. cannot find Rs.26,000, it may at least be asked to contribute such portion as its finances will permit.

L.A.C.
7-7-19

It could manage a quarter, I think. It need not pay all in one year.

H.G.S.
8-7-19

H. M. (L & M).

Anantapur is a poor district board and we have to stretch a point in its favour. I would however not give a full grant to any local board if I could avoid it. I would suggest in this case that the Dt. Board should contribute a fourth of the cost, and that contribution may be spread over two years. Send this

NOTES.

Page 4

this to Mr. Raghaviah U.O. and enquire what he says.

P. R.
9-7-19.

Mr. Raghavayya U. O.

This file and the linked file were received just two ^{days} after the last meeting of the District Board and the District Board will not meet again till the third week of next month. It is therefore not possible to consult the Board before ~~my~~ submitting my reply. But I have looked into our -- finances and I think the District Board may not find it difficult to contribute a fourth of the cost if the contribution be spread over three years. The District Board Engineer whom I have consulted says that the building will take three years to complete. I request Government to sanction the acquisition proposals and the estimate for the school buildings on the condition that the District Board should contribute a fourth of the cost -the contribution to be spread over three years. I am confident that the District Board would agree to contribute accordingly. I shall place the Government orders before the Board as soon as they are received and communicate the Board's resolution to Government.

T. Raghaviah,
President, District Board,
Anantapur.

C.No.1743 A. From the Supdtg.Engr.III Circle, No. 3348 dated 16-4-19.

Subject.- Construction of a building for the Penukonda High School.

The S.E. forwards plans and estimates the latter amounting to Rs.56,500 for the construction of a building for the Board High School at Penukonda. The estimates as revised by the Chief Engineer, P.W.D. now amounts to Rs.52,500. In his letter dated 3-3-1919, the President, District Board, Anantapur stated that ~~xxx~~ neither the District Board, nor the Penukonda Taluk Board had any money to spend on the construction of the building and applied to Government for a full grant for the purpose from Provincial funds. On this application, the D.P.I. remarked as follows:-

"A school building is certainly needed in this place, but Government cannot pledge itself to pay the cost of building a school for which even rough plans have not been drawn up."

2. The budget estimate of the District Board for the current year is expected to close with a balance of only Rs.15,340 under general funds, so that the Board will not be in a position to make a substantial contribution towards the cost of the building. In view of the impecunious condition of the District Board, it has been suggested that it should be asked to contribute only a quarter of the total estimated cost of the building- the contribution to be spread over a period of 3 years- and that the remaining three quarters should be met by a grant from the Provincial funds. The D.P.I. may be requested u.o. to state if he has any objection to the acceptance of this suggestion.

D.P.I. u.o.

U.O.No.235/19 dated
3-8-19.

None. I venture, however, to make the following suggestions regarding the plan itself:-

(a) I should prefer the whole building turned through a right angle so as to have the main entrance facing the Local Fund Road.

(b) The cost can be reduced by omitting the ornamental railings and wall which fence the front and rear of the building; these are not really necessary.

(c) Verandah (and sunshades) are not necessary (except perhaps for architectural effect) on the North or East of the building

NOTES.

Page 4

(d) Verandahs or sunshades are required only on the south and west of the building.

The adoption of (c) & (d) might reduce the cost still further.

I do not however press these points since they may not fit in with structural requirements and architectural effect.

R.L.
2-8-19.

Home (Edn.) Department.

Please see L & M and H.M's (L & M) notes on pages 1-3 ante. This Department may, with the concurrence of Financial, agree to a threefourth grant being made from Provincial funds towards the work in question. The D.P.I. has no objection to it.

2. The suggestions of the Director in regard to the plan of the School building may be remitted to the P.W.D. for consideration.

3. The file may be returned to L & M through Finl. and P.W.D.

C.R.
6-8-19

R.R.
7-8-19

Finl. u.o.

Financial Department.

The case relates to the construction of a building for the Board High School, Penukonda in the Anantapur district. The estimate as scrutinised by the Chief Engineer amounts to Rs.52,500, but this may perhaps undergo a slight reduction if the proposals of the D. P.I. in his note on pages 5-6 above ante are accepted.

2. The L & M Dept. propose (and the Home Dept and the D.P.I. support the proposal) that in view of the impecunious condition of the Anantapur District Board, Government should bear threefourths

P.W.D. should consider these.
L.D.
4-9-19.

9. The budget estimate of the District Board for the current year is expected to close with a balance of only Rs.15,340 under General Funds, so that the Board will not be in a position to make a substantial contribution towards the cost of the building. In view of the impecunious condition of the District Board, it has been suggested that it should be asked to contribute only a quarter of the total estimated cost of the building - the contribution to be spread over a period of 3 years - and that the remaining three quarters should be met by a grant from the Provincial Funds. The D.P.I. may be requested u.o. to state if he has any objection to the acceptance of this suggestion.

None. I venture, however, to make the following suggestions regarding the plan itself:-

(a) I should prefer the whole building turned through a right angle so as to have the main entrance facing the Local Wind Road.

(b) The cost can be reduced by omitting the ornamental railings and wall which fence the front and rear of the building; these are not really necessary.

(c) Verandah (and sunshades) are not necessary (except perhaps for architectural effect) on the North or East of the building.

of the cost of the building, the remaining one-fourth being contributed by the Dt. Board. The usual policy in such cases is that the cost should be shared equally between the Government and the local body. It is understood that it has recently been decided that the usual half-grant principle should be adhered to, deviations therefrom being made only in special cases, with reference to their merits. In the present case, it is submitted that Anantapur has been recognised to be one of the poorer district boards. It received a part of the special grants distributed since 1917-18 among poorer district boards for communications. In regard to the Ceded districts it has also been conceded that Govt. will be prepared to consider the propriety of making full grants from Provincial funds for bridges and causeways-
Vide para 3 of G.O.1411 L d/- 10-8-14 and page 7 of notes thereto.

Submitted that in the circumstances this Dept. may agree to meet three-fourths of the cost of constructing the school at Penukonda.

I observe the case has been to L & M (I & M H.M. Finl. should see.

I & M Department.

It has recently been decided that all orders in regard to the according of technical sanction to estimates for works, whether executed by the P.W.D. or the L.F. Agency, should issue in P.W.D. The present file may therefore be transferred to that Department for issue of orders, through Home (Education) Department who will sanction the grant on receipt of the orders from P.W.D. and who will while doing so no doubt circulate the file to H.M. (L & M) and H.M. (Financial). The P.W.D. has to take the ~~D.P.I.'s~~ D.P.I.'s remarks on pages 5-6 supra into consideration which ^{le} sanctioning the estimates.

Note by the Chief Engineer, P.W.D.
No. 2022 Wks.A-1 dated 5-11-19:-

D.W.

The proposals of the D.P.I. in his note
on pages 56 ante have been considered in the
office of the Chief Engineer, P.W.D. who consi-
ders that they are good ones except the proposed
omission of verandahs which are required not
only for access but also for architectural
effect. As a result of these proposals the
amount of the estimate has been reduced to
Rs. 51,200 and the Chief Engineer recommends
the same for sanction.

A draft order on the case is submitted.
It does not seem necessary to send the draft
order to Home (Education) or L & M for
acceptance, as the amount now sanctioned is
less than the amount approved by that Depart-
ment. A copy of these notes may be sent to
that departments for information as requested
by them on page ^{above} ante.
