(Designation) Director of Public Instruction, C.I.E.,

To The Secretary to the Government of Madras,  
Home (Education) Department.

Sir,

I have the honour to submit the enclosed site plan and an estimate amounting to Rs.8,000/- for filling up a tank known as the "Captain's tank" in Calicut for use as a playground for St. Joseph's European High School, Calicut, and to recommend that a grant not exceeding two-thirds of the cost may be sanctioned payable when funds are available. The Executive Engineer, West Coast Division, considers the estimate reasonable.

2. The correspondent of the school requests that

that the execution of the work may be entrusted to the Public works Department. The Executive Engineer whom I consulted does not see any objection to carrying out the work by his department, provided permission of Government is obtained, and I beg accordingly to request that the necessary permission be accorded, in the event of the grant recommended being sanctioned.

Sir,

With reference to Government Memorandum No.1347 B-2,  
 Home (Education) dated 3rd August 1918, regarding the  
 grant recommended for a play ground for the use of St. Joseph's  
 European High School, Calicut, I have the honour to state  
 that when applying for the grant, the Correspondent of the  
 School stated that no other site for a play ground was  
 available in proximity to the school and that the plot of  
 land for which he had already applied for a grant was not  
 suitable for a play ground. The plot of land referred to

An application has been received from the authorities of St Joseph's European high school, Calicut, for a grant not exceeding two-thirds of the cost (Rs 8000) of filling up the tank known as the "Captain's tank" in Calicut for use as a playground for the school and it is stated that the Municipal Council of Calicut to whom the tank belongs is willing to make it over to the school authorities provided the latter fill it up at their cost within three years. The Collector of Malabar is requested to report whether he finds any objection to the filling up of the tank (as proposed) or whether the site of the tank will be useful for any good purpose.

is the one for which a half grant has since been sanctioned in G. O. No. 146, Home (Education) dated 8th February 1918. As regards the ownership of the tank, I beg to state that I find from the copy of a letter from the Collector of Malabar addressed to the Correspondent that it belongs to the Municipal Council who are willing to make it over to the school authorities provided the latter fill it up at their cost within three years. I saw the tank during my last visit to Calicut and advised the Correspondent to apply for a grant for its acquisition.

2. As regards the rate of grant, I beg to state that very liberal grants have been given for play grounds for Non-European Schools, the whole cost even, in some cases. I have therefore recommended two-thirds grant for the play ground for this School although only a half grant was recommended towards the extensions to the building occupied by it.

Sir,

With reference to Government Memo No. 2453-B-2,  
Home (Education) dated 10-12-18 in connection with the  
question of a grant-in-aid for the purpose of filling up  
the tank known as the Captain's tank in Calicut, I have

Subject.

Grant to St Joseph's  
European high school, Calicut.

[No 1347 D]. From the A.P.D., Re. No. 1070/188, 27. 6. 18.

Please see art. 50 of the Code of Regulation

for European schools for the objects for which grant may be given. Acquiring land for school purposes is one of the objects. It is not clear whether "filling up a tank" for use as a play ground can be regarded as coming within that provision. If it can be so regarded there is no objection to a grant being sanctioned.

2. It is not known whether filling up the tank is the only way of securing a play ground. No information is furnished as to whether there are or not, lands themselves either close to the school or not far from it for use as a play ground. If there are such lands the cost of acquiring them may be less. The ownership of the tank also is not clear. The fact that the Statute on page 5 of Current file is signed by the Collector of Malabar suggests the possibility of the tank being Govt. property. If so, how it is proposed to transfer <sup>(the tank)</sup> to the school authorities and what title they are likely to have in ~~the~~ <sup>it</sup> ~~land~~ <sup>land</sup> are details should be made clear. It is for consideration whether information on these points may be called for from the Collector of Malabar or from the D.P.O. himself.

3. As regards the grant itself, it is observed that in G.O. No. 146 Home (234) of 8. 2. 18 the S.D. recommended and the Govt. sanctioned only a half grant to the school towards the cost of a lamp acquired for it. Similarly in an application twice submitted to Govt. regarding the grant for certain extensions to the same school building the S.D. definitely repudiated the claims of the school authorities for a two-thirds grant and recommended only a half grant. In the present case, however, he recommends a two-thirds grant, but gives no ~~special~~ reason for the recommendation. In the absence of reasons, the grant may, it is submitted, be limited to one-half instead of two-thirds of the estimated cost.

4. When the question of grant is decided the request regarding the execution of the work by the officers of the P.W.D. may be remitted to that department for consideration.

The Ltn has since furnished a copy of G.O.

of that G.O. that the closing of the tank was sug-  
by the Sanitary Commissioner even in those days. It  
appears therefore to be no harm in filling up  
tank as proposed.

2. From the Director's letter read above it  
observed that the proposal to fill up the tank  
was known to the Collector of Malabar  
if the site was of any use for Govt purposes  
would have moved in the matter. It is  
consideration whether the Collector's silence  
may be taken as indicating that the site

As already observed in para. 3 of the office note on page 2 also the condition cited above does not exist in the case of the school under reference and the proposal to sanction a grant in case of one-half of the estimated cost cannot be justified. The maximum amount of the grant may therefore be limited to one-half. <sup>and the acceptance of financial will also be required</sup>
