Sick Certificate.

R.C.No.338/18 dated 31st October 1918.

I, Lieut-Col. E. M. Illington, I.M.S., II Surgeon, General Hospital, Madras, do hereby certify that Mr. Arthur Henry Gilks, Workshop Instructor, College of Engineering, Madras, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and that the circumstances of his case are such as to render leave of absence for a period of 3 months highly desirable, the leave to date from 23rd August 1918.

General Hospital
Madras,

- (4) Disease: Lacerated wound leg (Right) 1822
- (5) Habits:
- (6) Total service 2 years and 8 months
- (7) Amount of previous sick leave with dates: Nil
- (8) Date of return from last sick leave and from what station: Nil

Medical History.

Patient is a teacher in Mechanical Engineering in the Civil Engineering College, Madras. On 23rd August 1918 while he was at his workshop a large pulley revolving at high velocity gave way and one of the pieces of the pulley struck his right leg. On examination there was a lacerated wound about 9" long by 5" broad on the front and outer aspects of the right leg. The soft tissues were extensively bruised. Patient is unable to dorsiflex his ankle owing to a tendon having been severed. The wounds have not healed yet.

/Sd/. E. M. Illington

Lieut-Col. I. M. S.,
II Surgeon

General Hospital,
Madras,
30th October 1918.

Letter R. C. No.338/18 dated 10th December 1918
from the Principal, College of Engineering, Madras.

I have the honour to submit herewith a letter from Mr. A. H. Gilks, Workshop Instructor, relating to his pay during the recent period of his absence on privilege leave when he was in Hospital owing to injuries received in the Workshop.

2. The Professor of Mechanical Engineering who was responsible for the machine in connection with which the accident occurred reports as follows:-

"The pulley causing the accident was attached to the shaft of a 2 H. P. shunt wound direct current motor, and the accident was caused by the motor "running away" due to a break in the shunt field.

I carefully examined the shunt field coils of the motor after the accident, and found the wire broken in each coil. The breaks all showed signs of having been caused by corrosive action, possibly due either to the action of salt water during transit of motor from England, or from acid having been spilt between the coils and mica insulation surrounding them during the process of manufacture".

3. From the foregoing it is evident that the accident was in no way due to carelessness on the part of Mr. Gilks, and in view also of the fact that no substitute was entertained during the Instructor's absence I strongly recommend his application as deserving most favourable consideration.

Letter dated 7th December 1918 from Mr. A. H. Gilks, Workshop Instructor, College of Engineering, Madras, to the Principal College of Engineering, Madras.

I beg to submit the following petition with the hope that you will view it with favour and give it your strongest support.

I was severely hurt on the morning of the 23rd August by the breaking of a wooden pulley in the workshops during the

4

execution of my duty as Workshop Instructor. I have since been an inmate of the General Hospital being discharged, as only being able to do light duty at present on the 22nd November and have produced a medical certificate.

The accident was not in any way due to my own fault and in addition to being on half pay, I have had to meet all the Hospital charges.

Under paragraph 665 of the Civil Service Regulations, the Managers of State Railways have power to grant full pay for a period not exceeding six months to any subordinate who may happen to meet an accident under similar circumstances to mine, if supported by a Medical certificate.

I therefore request that you will be so good as to recommend to Government that the period of my absence from College may be treated, in accordance with the above paragraph as being on duty (i.e., from 23rd August 1918 to 22nd November 1918) and should the Government be able to see their way to refund my Hospital charges I should be very thankful.

Proceedings of the Director of Public Instruction,
R. C. No. 7430/18 dated 7th December 1918.

Privilege leave on half pay for three months from
23rd August 1918 is granted to Mr. A. H. Gilks, Workshop Instructor
College of Engineering, Madras.

Leave to Mr. A. H. Gilkes, Workshops Instructor
College of Engineering, Viragapatam

[G.No. 117A] From the Dir. of Pub. Instr. R.C. No.

7400 d/ 19th Dec 1918.

Enst of the Acct. Genl. No this P.A. 1/19621

Dated 16th January 1919

Regr.

As pointed out by the Acct. Genl.,
Art 665 of the C.S.R. is inapplicable to the
present case. Mr Gilkes, however, sustained
injury while in the performance of his duty
and through no fault of his own. In
consequence, he had to undergo medical
treatment and incur additional
expense. It appears ~~rather~~ rather hard
that he should be put to further loss
by the deprivation of half his pay. No
substitute was appointed in Mr Gilkes'
place during the period in question and
the full pay is therefore available.
On the circumstances it is for consideration
whether Mr Gilkes may not be treated
as on duty instead of on leave and granted
full pay. The Acct. Genl. may, it is subd,
be consulted u.o. whether there is any
objection to the course suggested above.

as on duty instead of on leave and granted
full pay. The Acct. Genl. may, it is subd,
be consulted u.o. whether there is any
objection to the course suggested above.

1/1/19

NOTES.

Page 2

A period of absence from duty (except for short periods for which casual leave can be granted under local orders of the Local Government) cannot be treated as "duty", simply because a substitute was not appointed, and the pay of the appointment was ^{therefore} fully available. Any regular leave admissible to the officer under the Civil Service Regulations should only be granted.
