Local and Municipal (Legislative) Department

Resolution regarding Annual Financial -
Statement:--

The Hon'ble Mr. K.Sadasiva Rhat.

LXXXII. This Council recommends to His -
Excellency the Governor in Council that a sum
of Re.30,000 be provided under 22.F.Education
Special schools for opening an Engineering
school at Calicut ~~for~~ or other convenient
centre on the West Coast and the said amount
be met by a corresponding reduction under 45.F.

Home (Education) Department.

Besides the College of Engineering, there is at
present only one institution for the training of lower
subordinates, viz: the school of Engineering opened at
Vizagapatam in July last. The desirability of opening
another Engineering school in the southern districts
was mentioned in para 3 of the Hon'ble Gillman's note
on page 6 of notes to G.O.No. 569 Finl., dated 31st
August 1917, but the P.W.D recently ~~expressed~~ expresses
the opinion that to meet the needs of that department
more schools are not required at present (page 18 of
notes to G.O. No.1348 Home Education dated 18-10-18).
The question of opening a Civil Engineering school
in the southern districts was again mooted at the
recent meeting of the Finance Committee; and the D.P.I
has been requested to submit a report as to the need
for such an institution. It may be mentioned in this
connection that the P.W.D reorganisation Committee
have recommended that Colleges should not undertake

(K)

the training of lower subordinates and that such training should be given in separate technical schools. The D.P.I is being asked to offer his remarks on the recommendations. If they are accepted, it is quite possible that more schools for the training of lower subordinates will have to be opened in mufassal centres. The subject of Engineering education is still in the melting pot so to speak and it is not now possible to say what the ultimate decision will be. In the circumstances the additional Member's proposal that provision should be made in the next year's Budget for the opening of a Civil Engineering school on the West Coast cannot be entertained. The resolution may be opposed in this vein. *It seems as a result of the consideration above referred to, the question of the school is decided upon, partly signed will not start in the way, but it is a measure to provide that without a return cost.*

2. Orders are ~~being~~ solicited as to whether the resolution should be discussed in the Executive Council whether any further information should be collected and as to who should take charge of the resolution.

3. The file may be sent U.O to the D.P.I for remarks.
