There are 81 Night Schools under public management and 897 under private management. Of the 81 under public management 25 are Board Schools and 56 Municipal. The latter schools were opened this year out of a special allotment in the budget of Rs.11,000 in the larger Municipalities to meet the needs of labouring or backward classes who were unable to attend school in the day time. These schools, being under public management, will undoubtedly serve a useful purpose and be regularly worked. The chief difficulty about Night Schools in the past has been that they were often of a bogus character, being opened by an irresponsible individual in the hope of getting grant. It was difficult to exercise any effective supervision over such schools, to detect irregularities and to see that they were regularly working. The department encourages Night Schools under private management when they are properly worked, as the figure showing their number indicates, and gives grants. So far as possible a separate teacher for a Night School is recommended, as the same teacher cannot do full justice to a day and a night school. The expense of starting night schools has, however, been minimised, despite a separate teacher being required, by locating Night schools in day schools' premises and using to a certain extent the appliances and furniture. It is hoped that it will be possible to open a few more night schools under public management in 1919-1920 out of the budget provision.

In the note on page 2 *supra* it is stated that 'it is hoped that it will be possible to open more night schools, under public management in 1917-20 out of the budget provision'. ~~Decided to do so~~ There is a provision of Rs 12,000 in the next year's budget for night schools. This amount is intended for distribution to municipal councils for the maintenance of the schools opened in the current year. The cost of these latter is estimated at Rs 12,072 as shown below:-

			Cost
(H)	hs. N-1254 22.9.18.-	33 schools	Rs 7,311
(R)	hs. N-1570 29.12.18-18 "		3726
(Q)	hs. N-1676 27.12.18-5 "		1,035
		<u>56 "</u>	<u>12,072</u>

The full provision of Rs 12,000 will be spent on these schools. ~~There is no balance left with which more schools can be opened.~~ It is not known what the D.P.I. means exactly by the last sentence.

NOTES.

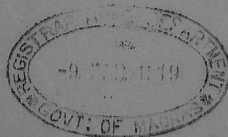

Page 5

Office of the D.P.

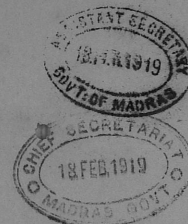

There is no provision in the budget for 1919-20 for the opening of new night-schools. The provision of Rs. 2000 is required for the maintenance of the schools opened in 1918-19. My predecessor was apparently of opinion that there might be savings in the aggregate provision for the payment of subsidies to local bodies for the opening of new schools, and that these savings might be devoted to the opening of new night-schools.

2 The success of these schools is still problematical, especially in the smaller municipalities where there is likely to be only a small demand for them and where the supervision is possibly lax; and it is my intention to call for a report on the working of these night-schools about May next. But for my own part, I should have preferred to make separate additional budget provision on the assumption that the night-schools would turn out a successful venture and with the idea of making continuous progress in any scheme, such as this, which is embarked upon, and which has been successful in other countries.

3 On the other hand the cost of each school is small—Rs. 207 p.a.—and I shall consider each application for the opening of a new night-school which I receive and, if necessary, apply for Govt. for budget transfer or additional allocation.
