From (Name) The Hon. Mr. J. H. Stone, M.A., F.R.H.S.C.I.E.

(Designation) Director of Public Instruction

To The Secretary to the Government of Madras,

Home (Education)

Department.

Sir,

In continuation of my letter R.C.No. 4560/16, dated 11th August 1917, I have the honour to submit herewith the plans bearing Nos. 224 (A) and 224 (B) with estimates amounting to Rs. 70,900/- for constructing a building for the Nadar's Secondary school, Porayar, Tanjore District and to recommend that a grant not exceeding one-half of the estimated cost may be sanctioned to be paid when funds become available.

2. A site for the purpose has been ordered to be acquired

2
in G.O.No. 1446 Home (Education) , dated 17th November 1917.

I have the honour to be,

S i r,

Your most obedient servant,

N. A. R. S.

for Director of Public Instruction.

P.V.S. 6/3

M
6.3.18

3
Copy of Chief Engineer's note No.535 W/A-1, dated the
10th May 1918.

The height from ground floor to first floor is excessive.
15 feet from the ground floor to the surface of the first floor
would be ample.

2. Prima facie, 20 feet width for a class room appears unsuitable,
but it all depends on the desks to be used. The annexure
to G.O. No.1026 Educational dated the 7th August 1917 shows that
four rows of dual desks with gangways require 21 feet. Three rows
could be got into 16 feet. Four rows can be got into 20 ft. by
sacrificing gangways against wall, as was done in the type design for
a model high school, but that is a bad arrangement and is out of date.

3. The Director of Public Instruction should be requested to state
if he is satisfied with the amount and suitability of the accommo-
dation provided in the design, and if not to furnish particulars of
the number of pupils in each room, and purpose of each room, the rooms
being numbered for identification.

4. When it is desired to build a single storeyed building
capable eventually of being converted into a two storeyed building,
it is much better to use a tiled verandah downstairs and dismantle
and rebuild it upstairs when the second storey is required. A
building such as D.P.I. No.224(B) with terraced verandah and
clerestory windows in the ground floor rooms cannot conveniently
be converted into a two storeyed building, and would involve the
dismantling of either the verandah roof or main roof.

5. There is no plan of the first floor. This omission should
be supplied.

Sir,
With reference to para 2 of your memorandum No.
532 B-2 dated 17th May 1918 in connection with the cons-
truction of a building for the Nadar's secondary school,
Porayar, Tanjore District, I have the honour to state
that I am satisfied with the amount and suitability of the
accommodation provided. The plans were prepared in
accordance with the Chief Engineer's previous type design
and it is not necessary to alter them in view of rule
51 (ii) of the Grant-in-Aid Code.

I have the honour to be,

No.

Station MADRAS, Dated the 20 June 1913. 191

From (Name) The Hon'ble Mr. J. H. Stone, M.A., F.R.H.S.,
C.I.E.,
(Designation) Director of Public Instruction

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

With reference to your memorandum No. 532 B-2 dated 17-5-18 and in continuation of my letter R.C. No. 45 of 16 dated 1-6-18 relating to the construction of a building for the Nadar's secondary school, Porayar, Tanjore District I have the honour to submit herewith a copy of letter R.C. No. 9 of 18 dated 8-6-18 of the correspondent and to state that the plans need not be altered as regards the size of class rooms. They were drawn up sometime ago on the type design at my recommendation and it appears inequitable to require an alteration in them with reference to the new design since devised by the Consulting Architect. I recommend that the grant may be sanctioned irrespective

cp para 2 of the
C.E. note on page
3C.f.

A

of the Chief Engineer's objection to the size of the class rooms.

2. The original plans and estimates are herewith sent.

I have the honour to be,

Sir,

Your most obedient servant,

N. A. Ariens

For Director of Public Instruction.

Copy of letter from the Correspondent, Nadar's High school, Poraiyar to the Director of Public Instruction, Madras R.O.No.9 of 18 dated 8th June 1918.

With reference to your R.O.No. 4560/16 dated 1-6-18 returning the plans and estimates relating to the construction of a building for the Nadar's High school, Poraiyar for revision in accordance with the Chief Engineer's note No. 535 W/A dated 10th May 1918, I have the honour to state that the revision of the plans and estimates cannot be done with ease as either the Executive Engineer or the Sub-Engineer is not prepared to arrange for the revision and to request that you will be pleased to recommend that the alterations may be made in the Chief Engineer's office or got revised by him.

2. With reference to para 1 of the Chief Engineer's note I beg to state that the height from ground floor to surface of first floor is only 15 feet 9 inches. If this nine inches should be found as too excessive the height may be reduced by 9 inches.

3. With reference to para 2 of the note I beg to state that the dual desks required for boys of 18 years are only 3' 10" long according to the Inspector's R.O. 398 G1/17 dated 21st September 1917, thus the space required for four rows of desks of this dimension is 15' 4" leaving a space of 4' 8" for five gangways. Here I beg to represent that ~~the~~ all the boys will not be 18 years but of 16 years and less also, in which case the desks of 3' 8" will suffice. If 2 desks of 3' 10" and 2 of 3' 8" be put in each row the space left out for five gangways will be 5'. The gangways against the walls need not be

sacrificed.

sacrificed. If, still, the Chief Engineer insists on the width being 21 feet, I shall gladly carry out his instructions.

4. With reference to para 4 of the note, I beg to represent that in the present plan the verandah is a terraced one, meant not to be dismantled when a second storey is ^{built} ~~is tiled~~ as pointed out in the section on G.B. second floor. I think of raising the present terraced roof of the verandah to the level of the main roof by raising the pillars and by removing the clerestory windows. This, I think, will remove the difficulty.

5. With reference to para 5 of the note, I beg to state that the plan submitted is that of the first floor. There is a second floor only on the front hall as shown in section on G.B. that the height of the first hall is 15 feet and that of the 2nd hall is 14 feet.

6. I further beg to state that the cost of the rolled steel girders alone comes to Rs.21,700/. If the Chief Engineer thinks that ~~the grant may be sanctioned with the~~ teak wood beams may be used in place of steel girders the cost will be reduced by about Rs.13,000/.

I pray therefore that you will be pleased to recommend that the grant may sanctioned with the alterations and suggestions pointed out by the Chief Engineer marked in the plans.

The plans and estimates etc., are resubmitted under a separate registered book-post.

N. A. Ariens

For Director of Public Instruction.

Memo. 532 B-3 of 18-8-18

With reference to the correspondence ending with his letter D.C. No. 456 of 16-8, the 20. 6. 18 regarding the construction of a building for the Nadar's Secondary school, Porayar, Tanjore dt, the S.P.O. is requested to obtain and forward to Govt. a plan of the first floor as required in para. 5 of the Chief Engineer's Note No. 553W/A-1 of the 10. 5. 18.

2. The proposed construction of the verandah upstairs at each end where there is no wall underneath to support it should be shown on the plan. The height from ground floor to first floor should not exceed 15 ft. The terraced roof (section A-B) should slope to throw off rain water. This should be done by means of Camber pieces on the girders, and should be illustrated.

3. With reference to the Correspondent's statement of about the difficulty

p. 6 C.P.

pag 3 C.P.

10
2

difficulty of getting the plans and estimates revised by a competent architect. The Govt. observe that as the proposal is to construct a building ~~estimated to cost Rs. 10 lakhs~~ involving ~~large~~ outlay, it is of extreme importance that the design should be in proper form. ~~and~~ ^{They therefore suggest} that the management should endeavour to obtain the services of a professional ~~competent~~ ^{man} for the purpose.

No. 4560/16, Dated the 16-8-18

From (Name) The Hon'ble Mr. P. Littlehills, M.A.
(Designation) Ag. Director of Public Instruction

To The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

With reference to your memorandum No. 532 B-3 dated 16-8-18 in connection with the construction of a building for the Nadar's secondary school, Porayar, Tanjore district, I have the honour to submit herewith the revised plans and estimates received from the correspondent with a copy of his letter R.C. No. 9 of 1918 dated 14-1-19.

2. The plans and estimate sent with your endorsement are also herewith returned.

I have the honour to be,
Sir,
Your most obedient servant,

Raavine

for Director of Public Instruction.

R/6-2

13
Copy of letter R.C.No.9 of 18 dated 14th January 1919 from the Correspondent, Nadar's High school, Poraiyar.

With reference to your R.C.No.4560 of 16 dated 26-8-18 and 15-11-18, I have the honour to resubmit herewith the original plan N C.No.8/15 prepared by the Executive Engineer, Cauvery Division dated 16-1-15, Compass Survey showing the proposed site, the estimate by the Sub-Overseer Veerasholan dated 19-2-18 together with revised plans and estimates prepared by Mr. Sreenivasa Naidu, Technical Inspector, Poraiyar dated 13-1-19 in duplicate, and to request that you will be pleased to recommend a half grant ^{on} Rs.72,205 as detailed below:-

Cost as per revised estimate is
Fees for the preparation of plans
and estimates

Rs. 72,005

Rs. 200

Rs. 72,205

2. In this connection I beg to represent that owing to the unwillingness of the departmental officers to revise the plans etc., owing to pressure of work in their offices, and owing to the thorough revision found necessary when a plan of the first floor was prepared, it took me so long a time for which I request to be excused.

(True Copy)

R. A. Anney

for Director of Public Instruction

14
PUBLIC WORKS DEPARTMENT.

2154C 721-3-19

E. W. NOTE. //

The Director of Public Instruction submits two drawings and an estimate amounting to Rs.72,205/- duly revised with reference to Chief Engineer's Note No.535-WKSA dated 10th May 1918 and Memo.No.532-B-3 dated 16-8-1918 Home(Educational) Department for grant-in-aid towards the cost of constructing a building for Nadar's Secondary School at Poraiyar, Tanjore District.

II. The revised drawings and the estimate have been scrutinized in the Chief Engineer's office and the following alterations given effect to :-

- (1) Altering sections of roof timbers where necessary.
- (2) Substituting teakwood beams for rolled steel girders.
- (3) Providing brick in lime mortar arch work over doors and windows in place of costly reinforced concrete lintels.
- (4) Omitting Carriage porch in front of the building.
- (5) Making provision for sunshades over windows exposed to sun on the west side and two glazed windows at staircase landing.
- (6) ~~Elementary~~ Eliminating the lump sum provision of Rs.500/- for unforeseen works.
- (7) Separating the item of terrace flooring included under the roofing item providing for it separately.

(8) Separating the rafters of verandah roof and providing it under "teakwood work" instead of including it under the item of verandah roof.

(9) Substituting country flooring tiles instead of Cuddapah slabs.

With these ~~rema~~ alterations the amount of the estimate has been reduced from Rs.72,205/- to Rs.57,100/-.

III. The cross section of the building shewn in the drawing is bad and has been correctly drawn in this office. The arrangement of beams, joists, with camber pieces to throw off rain water is also shewn on the drawing for guidance.

IV. With these remarks, the drawings and the estimate as altered in the Chief Engineer's office the latter amounting to Rs.57,100/- is recommended for approval.

For DS.

The plans & the estimate may be returned to the D.P.I. for revision and resubmission with reference to the following remarks of the C.E.

The height from ground floor to first floor is excessive. 15 feet from the ground floor to the surface of the first floor would be ample. Prima facie, 20 feet width for a class room appears unenitatable, but it all depends on the desks to be used. The annexure to S.O. 1026 Est 2 7.8.1917 shows that four rows of dual desks with gangways require 21 feet. Three rows could

(C)

W.A.
12/3

13

Could be got into 16 feet.

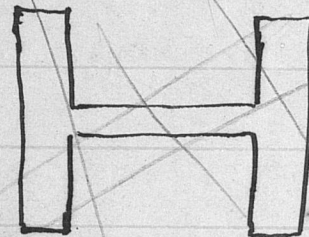

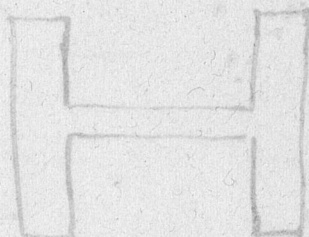

Four rows ~~carp~~ got into 20 ft by sacrificial gangways against wall, as was done in the type design for model high school, but that is a bad arrangement and is out of date.

3. The D.P.S. should be requested to state if he is satisfied with the amount and suitability of the accommodation provided in the design, and if not, ~~to furnish~~ ^{to furnish} ~~particulars~~ ^{particulars} of the number of pupils in each room, and purpose of each room, the rooms being numbered for identification.

~~Re place as shown in the design~~
~~work done on one particular if~~
~~only the middle portion is to have~~
~~a double storey.~~

4. When it is desired to build a single storied building capable eventually of being converted into a two storied building, it is much better to use a tiled verandah downstairs and dismantle and rebuild it upstairs when the second storey is required. A building such as D.P.S. no 2246, with terraced verandah and clerestory windows

CA 142/08
 *Ref K

14

windows in the ground floor room cannot conveniently be converted into a two storied building, and would involve the dismantling of either the verandah roof or main roof.

There is no plan of the first floor. ~~shown~~ This omission should be supplied

on the girders, and ~~shall~~ be illustrated.
2. The Correspondent says that the revision of the plans and cannot be done with ease, as neither the Ex Engrs, nor the En is prepared to undertake the same. This is a large building estimated to cost about 3/4 of rupees and the designs should be in proper form. ~~It is suggested that Mr. S.D. Buro~~ ^{Correspondent might be advised to ask} ~~may be requested to undertake the work if he will render professional assistance~~ ^{Ind. W. H. N. 177}
2. The C.E. agrees with the above. ^{With these remarks the file may be returned to Home (S.D.).}

Home (Edl) up.

Home (S.D.) Department

A draft memo. is submitted for approval.
2. With reference to A in the Prod note above it is doubtful whether the Govt. should suggest the name of any particular architect to the management. It may imply that the Govt. is patronising the particular persons and that their disapproval is due to the plans & estimates not having been prepared by him. It is suggested

misunderstanding it appears preferable not to
 any name but to leave the management to
 the best ^{professional} man they are able to get.
