Note The question of a grant for school buildings is one for consideration in the Home (Edn) Dept.

Sir, I have the honour to forward a copy of the council's resolution No. 10 dated 7-9-18 sanctioning the application for the funds required for the construction of school buildings in this city, together with an application in the prescribed form.

2. In 1912-13 and 1913-14 Government gave a grant of Rs. 25000 for the acquisition of sites and construction of two school buildings and for the --- remodelling of a third school, which the council had already acquired. To this sum, was added subsequently

Home (Edn) 2982A 7-12-18

i.e., in 14-15, a sum of Rs.15 being the unexpended balance of the grant given by Government for the supply of slates and books to pupils of elementary schools. (Please vide para 11 of my letter R.C.123 E.C.R. of 1915 dated 15-5-15 embodied in G.O.No.1462 M. dated -- 15-9-15). The total of the grants thus available for the purpose was Rs.25015. Out of this Rs.419 were --- spent on the remodelling of the Panchama school and Rs.4153 on the acquisition of the necessary sites for one school -- Total Rs.4572. The balance of grant available at the end of 1917-18 for the construction of buildings for one school and for the acquisition of sites and construction of buildings for another school was Rs.20443. The estimate for constructing the ----- necessary buildings required for a combined school (Pettai boys' and girls' school with separate building for each) has been revised with reference to the current schedule of rates with the result that the amount of the estimate was increased to Rs.22090. The work is in progress and application for a grant of the extra funds *required* (i.e., Rs.22090 minus Rs.20443) Rs.1647 or Rs.1650 in round figure, is now made to enable the municipal ---- council to complete the work.

3. The Municipal council started an elementary school in railway road last year with the aid of the Government grant (G.O.No.1585 dated 15-12-17). The school is at present located in a rented building, --- which is not at all suitable for purposes of a school. There being no suitable building available in the ---- locality for the school, the council resolved to utilise the almost adjoining site which they acquired for ----- opening a cart-stand on the railway road (now abandoned) for the construction of a ^{piece} school building. The estimated cost of constructing a small building will be about Rs.4000 which the council are unable to provide out of their funds. They accordingly apply for a

Provincial grant on this account also.

4. I request that the Government will be pleased to view the council's proposals favourably and allot the necessary funds (Rs.5650) at the time of the next distribution of educational grants.

5. I am sending this application to Government direct forwarding at the same time a copy through the Director of Public Instruction.

 suggests that a grant of the
 above sum may be sanctioned
 in lieu of a grant of Rs. 8,000
 recommended by him recently
 for a building for the Muham-
 madan school at Melakaveri if the Council
 is prepared to defer constn-
 tion of the latter. The subse-

p. 13 of op.

(A) of Rs. 5000 has been sanctioned in G.O. No. 1677 dated the 27th Decr 1912. It does not appear to be necessary to ask the Council to utilize a portion of this subsidy for the Pettai and Railway road schools. A large portion of the Imperial grant of Rs. 5.5 lakhs may become available in the current year for expenditure on buildings, but the point has not yet been definitely decided. In the meanwhile, the local & Hums Deptⁿ may be asked to note on the financial position of the municipality and to furnish information as to the unexpended savings, if any, from the subsidy for school buildings remaining with the Municipal Council.

^{present}
The D.P.I. has been following some principle in distributing grant for buildings. He has left out in the recent distribution local bodies which had received

grant during the distribution previous
 bit. If he follows the same course, as
 he is likely to do, he will not give
 Kumbakonam any further grant
 in the current year even if any
 portion of the 5-50 lakhs grant is made
 available for elementary school
 buildings. It is quite unlikely that
 the Kumbakonam will be again
 given Rs. 5,000 after a grant of Rs. 8,000.
 We may therefore adopt the D.D.'s
 proposal & put it to the Council
 whether it will agree to a diversion
 of the grant ^{Rs. 5,000} for the purposes now
 specified.
