For the U.S.

The system of paid apprenticeship which has long been in vogue in the School of Arts having been found to be unsatisfactory, the Government sanctioned in G.O. No.504 Edl., dated 8-7-08, 30 scholarships of different values ranging from Rs.3 to 5 each a month, to be awarded at the discretion of the Supdt. to pupils "of exceptional merit" as a reward or as a means of enabling them to "continue their studies". Twenty more scholarships of an aggregate value of Rs.35 per mensem were afterwards sanctioned in G.O. No.445 Edl., dated 6-7-1911, 30 more were added in 1915. Thus there are 80 Government scholarships available at present ranging from Re.1 to Rs.9 per mensem. Besides these the following non-Government scholarships are available in the school:-

Of course the Govt. scholarships were primarily started to benefit pupils "of exceptional merit as a reward or as a means of enabling them to continue their studies;" but a fair proportion will ordinarily be available to Uriya pupils and pupils of other backward classes provided other conditions are satisfied. No information is available whether any Uriya student was in the institution during the past so many years. It is doubtful whether a few of the existing scholarships, if reserved for the benefit of Uriyas alone will

have any appreciable effect in inducing them to join the school. There seems however no objection to such reservation provided that if there are no applications from amongst the Uriyas, the scholarships may be granted to other applicants. But the introduction of such a measure will probably invite similar requests in this direction from other backward classes. It does not however seem necessary to grant special scholarships of the value of Rs.15 as suggested by the Additional Member.

(S) Attention is in this connection invited to G.O. No.50 Home (Edn.) dated 10-1-1917 where the Govt. have declined to sanction the proposal to institute in the College of Engineering, Madras, special scholarships for the benefit of Uriyas and students belonging to other backward classes. They have however directed that preference should be given to Uriya students, if otherwise qualified, in the award of four out of the ten open scholarships now available in the College. It is for consideration whether a similar procedure may not be followed in the present case.

The file may, it is submitted, be forwarded U.O. to D.P.I. for suggesting an answer.
