UNIVERSITY OF MADRAS

No. 3068.

SENATE HOUSE, 30 APR 1918

Enclosures.

FROM

FRANCIS DEWSBURY, Esq., B.A., LL.B.,

Registrar, University of Madras,

To

The Secretary to Government

Home (Education) Department.

Sir,

I have the honour, by direction, to state for the information of H. E. the Governor in Council that, on the report of the Syndicate, the Hon'ble the Vice-Chancellor has selected Mr. H. Parameswaran, B.A. (Hons) for the Government of India State Scholarship placed this year at the disposal of this University. Mr. Parameswaran is a Brahmin and is 22 years old. He was born in Travancore on February 15, 1897. His guardian is his eldest brother, Mr. H. Sankaranarayana Aiyar, who is at present a Sub-Engineer in the Madras P. W. D. Krishna District. A certificate of nationality signed by the District Magistrate of Trivandrum together with an affidavit from the guardian of Mr. Parameswaran is enclosed herewith.

Mr. Parameswaran passed the Intermediate Examination in Arts of this University in 1915 from the Presidency College, Madras taking a first class and gaining distinction in English, Mathematics Physics and Chemistry. Thereafter he took up the B.A. (Hons) course in Branch ii-A - Physical Science, in the same college and passed the University Examination in 1918 gaining a second class. As evidence of his general proficiency he was awarded the Cullen's Prize from the State of Travancore in 1915, the Maharajah of Vizianagram Prize from the Presidency College, and the Jagirdar of Arni Gold Medal from the University in 1918.

During his career as student in the Presidency College he has been engaged in a variety of experimental and research work of an original character possibly to the detriment of his purely

Examinational work, in which he would otherwise according to his Professors and others, have gained a First class in Honours. Experiments in wireless Telegraphy, construction of glass apparatus chiefly Mercury pumps and Mercury Arc Lamps and Conduction through gasses have been the chief features of this activity.

Since 1914 he has been an active member of the Indian Science Congress and has contributed papers to be read at its sessions.

Soon after his graduation the University awarded him a Research studentship, and he has been carrying on researches in Interference Spectroscopy in the laboratory of the Presidency College.

In his application for the scholarship Mr. Parameswaran states that he proposes to utilize the scholarship for advanced scientific study and for completing his Researches in Interference Spectroscopy at the Cavendish Laboratory, Cambridge.

His guardian being a Sub-Engineer in Government service, it is presumed that he is possessed of sufficient private means to enable him to supplement Mr. Parameswaran's scholarship in England, if necessary, and also to forward to the Educational Adviser for Indian students in London the sum of £ 25 for initial outfit expenses as required by the recent rulings of Government of India. The scholar will, however, be requested to obtain and furnish a written statement to that effect from his guardian. The written consent of his guardian permitting him to proceed to England for the prosecution of his further studies is enclosed.

A descriptive roll of the scholar in the form prescribed in G. O. No. 535, Educational, dated 11th August 1906 is enclosed. *p9w*

The scholar has produced a medical certificate signed by Lt. Col. W. J. Niblock, I.M.S., that he is in sound physical health. The Surgeon-General will, however, be requested to arrange for a further examination of the scholar by a Medical Board at an early date in accordance with G. O. No. 288, Educational, dated 14th May 1909.

The attention of the scholar will be directed to the general and special rules for the Government of India scholars in the United Kingdom attached to the resolution of that Government, No. 309

dated 1st May 1916; and he will be requested to furnish a written statement of his willingness to abide by the rules.

If the Government approves of Mr. Parameswaran's selection, I have to request that arrangements may be made with the Accountant-General to provide the scholar with a second class passage to England.

I have the honour to be,

Sir,

Your most obedient servant,

Francis D. B. B.
Registrar.
