NOTES CONNECTED WITH A RESOLUTION REGARDING ANNUAL FINANCIAL STATEMENT

[For the meeting of the 5th February 1919.]

[SUBJECT.—*Increased allotment for scholarships to students pursuing scientific and technical education.*]

The Hon'ble the Raja of Ramnad :—

XXVI. This Council recommends to the Governor in Council that a sum of Rs. 75,000 be added to the allotment made under 22-H. Education for giving scholarships to students pursuing scientific and technical education, and a corresponding reduction be made under 32-E. Miscellaneous (Miscellaneous unforeseen charges).

HOME (EDUCATION) DEPARTMENT.

It is submitted that this department awards no scholarships for scientific education as such. The scholarships given for the study of technical education are those available in the College of Engineering, in the School of Engineering, Vizagapatam, and in the School of Commerce, Calicut. The number and value of the scholarships tenable in these institutions are as given in the statement below :—

Institution.	Number of scholarships.	Value of scholarship. RS.
Engineering College—		
(i) Engineer class	12	15 per mensem each.
(ii) Upper subordinate class	6	10 " "
(iii) Lower " "	13	8 " "
School of Engineering, Vizagapatam ..	9	8 " "
School of Commerce {	12	20 " "
	12	15 " "

The cost of these scholarships is met from the provision under 22-H. Scholarships—Colleges—Professional and Special Schools other than training schools which amounts to Rs. 17,076.

2. Besides those given in the statement above, there are also four State technical scholarships of the annual value of £150 each awarded by the Government of India to students who have shown exceptional initiative in any branch of industry and who seem likely to add considerably to their usefulness by a special training in Europe.

Three scholarships of the value of Rs. 30 each per mensem tenable for four years at the Victoria Jubilee Technical Institute, Bombay, are also granted for the study either of textile manufacture, technical and applied chemistry, or sanitary engineering and plumbing.

3. At the instance of the Finance Committee the provision under 26-B. Scientific and Miscellaneous Departments for scholarships in industrial and technical schools has been raised by Rs. 9,000 with a view to provide for two industrial scholarships for students to be sent to Europe or America. Thus the provision now made for the

2

encouragement of technical education appears to be ample. Both the local University as well as the Indian Institute of Science, Bangalore, offer special scholarships to students of ability to undertake research in scientific subjects. Thus no further provision seems to be necessary under this head also. The resolution may be opposed.

4. Orders are solicited as to whether any further information should be collected, whether the resolution should be discussed in the Executive Council and who should be in charge of it.

5. The file may be sent u.o. to the Director of Public Instruction.

Extract from the Proceedings of an Adjourned Meeting of the Council of the Governor of Fort St. George assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament, 5 & 6 Geo. V, Ch. 61.

The Council re-assembled at the Council Chamber, Fort St. George, at 11 a.m. on Thursday, the 6th day of February 1919.

RESOLUTION *RE* INCREASED ALLOTMENT FOR SCHOLARSHIPS TO STUDENTS PURSUING SCIENTIFIC AND TECHNICAL EDUCATION.

The Hon'ble Mr. A. S. KRISHNA RAO :—"Your Excellency, I have the honour to move :—

*'XXII. This Council recommends to the Governor in Council that a sum of Rs. 75,000 be added to the allotment made under 22-H. EDUCATION for giving scholarships to students pursuing scientific and technical education, and a corresponding reduction be made under 32-E. MISCELLANEOUS (Miscellaneous and unforeseen charges).'

"I need not detain the Council long because the observations made by me with reference to the previous resolution apply with greater force so far as this resolution is concerned. If there is need for increasing the provision for scholarships for higher education there is much greater need for spending an additional sum of money on scholarships for scientific and technical education. I shall not detain the Council by referring to the various recommendations of the Industrial Commission. They are well known and I will not propose to detain the Council long.

"I only wish to point out that so long as we are satisfied that in the best interests of the country additional facilities have to be afforded to enable students to pursue scientific and technical education, additional allotment is necessary for the purpose. As to the figure of Rs. 75,000 it is worked out exactly in the same manner as it was worked out in regard to the collegiate education—to provide the 25 districts with ten scholarships at Rs. 25 per mensem. With these remarks I commend the resolution for the acceptance of the Council."

The Hon'ble Mr. LITTLEHAILES :—"Your Excellency, we have a certain amount of provision for scientific education pure and simple in the ordinary award of scholarships to students who take up Chemistry, Physics, Biology and so on in the ordinary University course. For technical education we have a budget provision made in the College of Engineering, in the School of Engineering at Vizagapatam and in the School of Commerce at Calicut. There are the Government of India State Technical Scholarships and the Madras Government award scholarships tenable at the Victoria Technical Institute in Bombay and the local University awards scholarships. There are scholarships available at the Indian Institute of Science, Bangalore. In addition to that, under the head—Scientific and Miscellaneous department and the development of industries—the budget provision has been increased by Rs. 9,000 on the recommendation of the Finance Committee for the purpose of providing industrial scholarships for students. Sir, the object of this resolution has my entire sympathy. All I have to remark is that so far as I can gather the provision that is at present made is as much as can be advantageously utilized at the present moment."

The Hon'ble Mr. A. S. KRISHNA RAO :—"Your Excellency, it may be put to vote."

His Excellency the PRESIDENT :—"I hope the Honourable Member is satisfied with what the Finance Committee have done."

The Hon'ble Mr. A. S. KRISHNA RAO :—"I understand that the provision was made for the benefit of students going abroad. So far as this is concerned, it is not for students going abroad but it is for students studying in the country. Therefore it stands on a different footing."

His Excellency the PRESIDENT :—"The Honourable Gentleman is quite free to take his own course. It will be open to the Honourable the Director to assent to all the resolutions and to spend all the money and it will be much more agreeable to everybody concerned. It is all very well to say that Rs. 75,000 has been calculated on the basis of ten scholarships for each district of Rs. 25 each. That makes up the sum of Rs. 75,000. But that does not mean that the needs of the district have been carefully considered. Anantapur is put on the same footing as Vizagapatam. Rupees 25 is the existing amount of scholarship. I had hoped that the Honourable Member would have been satisfied with what has been done but I will however put it to the meeting. There is no difference of opinion as regards this matter. We should like to meet all the needs but the Honourable the Director believes that having in view the other necessities of elementary education, the needs of elementary and secondary education which we have been discussing, we are doing all that we can at the present time."

The Hon'ble Mr. A. S. KRISHNA RAO :—"If I understand from what the Honourable the Director has stated and what your Excellency has stated that, if the requirements of the situation would necessitate any further funds, they will be met, I have no objection to withdraw."

* This resolution stood in the name of the Hon'ble the Raja of Ramnad.

(The President; Mr. Narasimha Ayyar; [6TH FEBRUARY 1919.
Mr. Krishna Rao.)

His Excellency the PRESIDENT:—"I have not said anything about that. We are settling the figures in the budget. The question is whether more is to be put into the budget. Government are unable to put any more money into the budget. I put the resolution to the Council."

The resolution was put and lost.

The Hon'ble Mr. B. V. NARASIMHA AYYAR:—"May I ask for a poll?"

His Excellency the PRESIDENT:—"Certainly. Does the Honourable mover wish for a poll?"

The Hon'ble Mr. A. S. KRISHNA RAO:—"I have not asked for a poll but the rules provide for any member asking for a poll."

The poll was taken with the following result:—

For	Against
The Hon'ble Mr. M. Ramachandra Rao.	The Hon'ble Sir Alexander Cardew.
" P. Siva Rao.	" Mr. L. Davidson.
" K. Rama Ayyangar.	" C. G. Todhunter.
