Through the Accountant-General Madras.

Sir,

With reference to G.O.No. R 36 Home (Edn) dated 14th February 1919 granting furlough for ten months in continuation of the summer vacation of the school to Mr. W.S. Hadaway Superintendent, School of Arts, Madras, I have the honour to submit herewith two letters received from him and to recommend that two months of the furlough already granted to him be commuted into study leave as requested by him. I consider that this would be the advantage of Mr. Hadaway and of his further work in the School of Arts.

I have the honour to be,

Sir,

SIR,

I have the honour to state that as I am expecting to go on leave, I wish to make the following request.

Assuming that during a part of my leave, my health allows of such a course, that I have your approval to convert a part of the leave into either study leave or deputation.

I may explain that during short leave in 1912, I spent nearly all my time in study in Museums either in London or Paris. I made considerable collections of sketches and photographs which have been of the utmost value to the school in various departments since my return,

It is most difficult in India to progress with artistic work relying only on the material at hand, which is, to say the least, very scanty and inadequate.

I propose, therefore, if I have your approval, to pursue a more systematic course of study, at least for a few months, during my expected leave.

The subjects which are of most importance in the school here are furniture making (including lacquer work) and metal work.

European museums, as you are doubtless aware are great store house of these two important crafts, and the facilities for study are infinite.

There has been such a drain of artistic products from India in the past that it often happens that the choicest

DESEATED

of articles, Indian crafts can only be studied at their best outside India. This is a further reason for study at home.

I cannot find any very definite rules governing study leave for members of our service, but practically, I think there would be no difficulty in arranging with the India Office in London, if I had your approval.

I have known of cases of officers of the service arranging for deputation after reaching home on leave, but I believe this requires considerable delay, on account of references to head quarters here.

I hope that you will consider my request favourably.

I have the honour to be,

Sir,

Your most obedient servant,

W. S. Hadaway
Superintendent.

OFFICE OF THE School of Arts,
STATION M a d r a s,
Date 19th March 1919.

From

W. S. Hadaway, Esq.,

Superintendent, School of Arts,

M a d r a s.

To

The Director of Public Instruction,

M a d r a s.

Sir,

In continuation of my letter of 10th February 1919, R. C. No. 479 of 1918, regarding study leave, I have the honour to make the following more definite suggestions.

I have already a considerable knowledge of the important French and Italian Museums, none of which are particularly rich in Eastern work. Some of the Museums of Holland, however, have excellent collections of work, particularly of furniture of eastern origin. There is also a decided movement in furniture making and in decoration toward the use and adaptation of Eastern ornamental processes applied to European work. It is particularly apparent in the revival of lacquer work.

I suggest that if two months study leave could be granted to me that a month spent in Holland in study of the Museums of Leyden, the Hague and Amsterdam, paying particular attention to old Eastern work, and another month spent in study in London at one of the Government schools where furniture decorating and lacquering were taught that it would be of great advantage to the School of Arts here on my return. I find a great difficulty here in practice, because of the very limited material at hand.

The work done at home in Museums when on leave in 1912, though of only a few months duration and done spasmodically as occasion arose has been of inestimable service since my

return.

If I could, during this leave, work more definitely and on a better organised basis, as I have suggested above, which would only be possible if some slight financial help is given to me, I feel that I would be prepared in the best possible way to improve the important work in the school on my return.

I therefore request that the two months' study leave may be granted.

I have the honour to be,

Sir,

Your most obedient servant,

W. S. Hadaway
Superintendent.

To

The Secy. to the Govt. of India,
Department of Education.

Sir,

I am directed to address you on
the subject of the deputation on
special

special study of Mr. W.S. Hadaway, Superintendent, School of Arts, Madras, who has been granted furlough for ten months in continuation of the summer vacation of the school.

2. The principal crafts taught in the local School of Arts are, furniture making (including lacquer work) and metal work. ~~It is reported~~ that there are very few materials of high artistic value available in India for the proper study and development of these two crafts, but that on the contrary, the Museums in Europe, especially those in Holland, contain rich and valuable specimens which provide interesting study to those engaged in teaching the crafts in question. ~~Mr. Hadaway has already visited French and Italian museums.~~ He desires to be deputed on special study while on furlough for a period of two months. While on such duty he proposes to spend a month in Holland in the study of specimens of old eastern work in Museums at Leyden, the Hague and Amsterdam and the remaining month in London at one of the Govt. schools where furniture decorating and lacquering are taught.

3. The Governor in Council ~~has no information whether the suggested course of study may be undergone profitably at present.~~ They also consider that in view of Mr. Hadaway's health he should produce a certificate of fitness to
