Re No. 1059/19

Station, Dated the 17-2-1919

From (Name) The Hon'ble Mr. R. Littlehales, M.A.,

(Designation) S. Director of Public Instruction.

To The Secretary to the Government of Madras,

Home (Education) Department.

Sir,

Submitted to Government

for Director of Public Instruction

College of Engineering,

College,

c No 78598-9

Station Madras.

Date 3rd February 1919

From

W.H. James, Esq., M.Sc.,

PRINCIPAL,

College of Engineering, Madras.

To

The Director of Public Instruction,

MADRAS.

Sir,

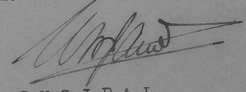

I have the honour to state that I have been -
requested by Col. Ellis to report, for the information of
Government, in the matter of the suitability for College
use of the text book on Irrigation Works which he has been
engaged on for some months past.

2. I have gone through the completed Manuscripts of
the book and, in my opinion, it will prove of very consi-
derable value for instructional purposes in connection with
our College work and I trust it will soon be available for
our use.

I have the honour to be,

Sir,

Your most obedient servant,

PRINCIPAL.

Home (Education) Dep

CNo. 455A from the D.D., R.C. no 1059 of 17.2.19

Subject - 'Irrigation Works' by Col. Ellis

The manual on 'Irrigation Works' now in use in the College of Engineering, Madras was compiled by Mr. B. C. Reynolds a former instructor in the College. It was brought to notice in 1914 that this book was out of date and contained many inaccurate and misleading statements and that a text-book suited to the conditions of Southern India was necessary.

- page 14 of f.o. no 58 Vol. 2 of 19-1-16. It was finally decided to entrust the preparation of a manual to Col. Ellis - Do. no 831A-2. Home (Edn) of 24.4.18 on pages 6 & 7 of f.o. no 821 Home (Edn) of 24.6.18.

2. Mr. James now reports that he has gone through the mss and considers the book suitable for College use. ~~As the book is favourably reported on, there appears to be no objection to its use as a text-book in the College.~~ ^{As regards printing} Further action may be taken ^{when the D.D. moves out in the matter} ~~after the D.D. has actually reached the~~

Apparently text-books for use in the College are selected by the Principal and need not be approved by Govt. The D.D. may be asked whether

above presumption is correct

NY
4/24/19

This text book has been written primarily for use in the College. The present communication is only an intimation that the work has been completed. Obviously the question of honorarium will be separately submitted to Govt. It would perhaps be desirable if the Mts. are looked into by the Chief Engineer before the order to print is given. P.D. may be asked for advice on the point. There is also a Board of Visitors for the College. That body may also probably be consulted.

Submitted. Perusal is requested of Col. Ellis' letter dated 28-2-19 in linked file which has been transmitted to Home (Education) through P.W.D. (Genl). As will be seen therefrom Chapters I to VII have been gone through in the Irrigation Chief Engineer's Office and Chapters VIII and IX are being looked into in the T. Section. It is proposed to send to the press the portions that have been checked. The other portions will also be gone through in this office before being sent to the Press.

2. Home (Education) may, it is submitted, be requested to instruct the Superintendent Govt. Press to undertake the printing of the Manual and the Survey Office to print the diagrams and plates required, and to intimate the number of copies of the manual required. The size in which the Manual should be published and the other particulars connected with its printing will be furnished by this office direct to the Supdy. Govt. Press when the MSS. are sent. Col. Ellis has undertaken so long as he is in Madras to correct the proofs. A clean proof may also be sent to Home (Education) when complete.

3. As regards the question whether the Manual should be seen by the Board of ^{Vision of the college} ~~works~~, it may be noted that the MSS. have been seen by the President of the Board ~~works~~ and the Secretary.

Vide Rule 4 of the Rules relating to the constitution and working of the College of Engineering.
