Department.

Sir,

The students of the Queen Mary's College for Women, Madras, who take up the science group for the Intermediate course, are now attending the Presidency College for lectures in that subject, pending the construction of a science block and the supply of the requisite apparatus to the former institution. When the building and apparatus are ready, a qualified staff to handle this subject will have to be entertained. In view of the uncertainty of getting qualified ladies from England during or after the war, the Principal, Queen Mary's College, suggests that

some Indian or Anglo-Indian ladies be deputed to England for a special training in Natural Science. I agree in this view as I consider that home training is very desirable. I have the honour therefore to recommend that two scholarships, one for Physical and the other for Natural Science, may be given to enable two promising lady Graduates preferably those already employed in the Department to go through a Degree course in a British University. Each scholarship should be of the value of Rs 250 a year and may be awarded on the same terms as those of the Government of India's scholarships and on the condition that the scholarshipholders should serve the Department for at least five years after their return or in case of default refund the scholarships given to them.

I have the honour to be,

Sir,

Your most obedient Servant,

N. A. A. R. I. V. E.

Letter No. 1157/P... dated 6... 8... 1918
Ref.

To

The Secy. to the Govt. of India,
Department of Education.

Sir,

I am directed to address you on the subject of the deputation of two ladies to undergo training in a British University with a view to fit them to be Professors in Science in the Queen Mary's College for Women, Madras.

2. This institution at present contains no provision for science teaching; and pending the construction of a science block and the supply of the requisite apparatus thereto, the students of the college, who take up the Science group for the arts courses, are attending the Presidency College, a College essentially intended for men students. Arrangements are being put in hand for the erection of the science laboratories in the Queen Mary's College, and when they become ready a qualified staff to handle the science subjects will have to be entertained. Local recruitment for this purpose seems impossible at present and the probability of getting qualified ladies from England during or immediately after the war is uncertain. In the circumstances, H.E. in Council considers, that two selected Indian or Anglo-Indian lady graduates, who give good promise of profiting by special training, should be deputed to undergo a degree course in a British University, one in natural science and the other in physical science. The ladies selected will preferably be

from those who are already employed in the Department. It is proposed to award them scholarships of the annual value of £250/- each which will be debited to Provincial revenues and ~~these~~ will be held on the same terms as ~~those of the Government of India Scholarships~~ and on the further condition, that the ^{holders} ~~scholars~~ will serve the Department on a stipulated pay for at least five years after their return or, in case of default, refund the amount of ^{the} Scholarships given to them.

3. H.E. the Governor in Council however realizes the difficulties ^{I wish} that at present exist in ladies travelling to England and the ^{reasons which have led to a} embargo placed on the grant of passports to ladies. ^{I am to ask therefore} ~~the~~ ^{circumstances of the case} ~~of the interests of the college~~, the Government of India ^{would} ~~will~~ approve of passports being granted ^{as a special case} to the selected candidates ~~to travel, as a very special case, during the continuance of the war.~~

No. 844

181- October 1918

From

The Hon'ble Sir E.D. MacLagan, K.C.I.E., C.S.I.,
Secretary to the Government of India,

To

The Secretary to the Government of Madras,
Home (Education) Department.

Sir,

In reply to your letter no. 1154-B-4, dated the 6th August 1918, I am directed to state that the question of issuing passports to the two ladies whom the local Government contemplate deputing for training in a British University with a view to their qualifying themselves for appointment as Professors in Science at the Queen Mary's College for Women, Madras, should be disposed of by the local Government in accordance with the instructions contained in the Government of India (Foreign and Political Department) memo. no. 1394 G, dated the 30th August 1918, of which a copy was forwarded to the Chief Secretary to the Government of Madras with the Foreign and Political Department endorsement no. 1395 G, of the same date. It will be seen from those instructions that ladies may be permitted to proceed to England by routes other than the Mediterranean. In this connection I am to explain that if the two ladies in question are granted passports, the only route by which they will, in present circumstances be able to travel to England will be via the Pacific Canada and the Atlantic - a long, costly and uncertain journey.

2. The Government of India presume that if the

local Government decide to issue passports to the two ladies in question and if it is intended granting them free passage in addition to the scholarships contemplated, the whole scheme will be placed before them for consideration and submission to the Secretary of State under Article 1121 A Civil Service Regulations and Rule 9 of the Rules published with the Finance Department Resolution No.361-E.A., dated the 24th July 1916.

3. The Government of India observe that the annual value of the proposed scholarships (£ 250) is higher than that of the two regular scholarships (£ 200) which they have instituted to enable lady students to prosecute their studies abroad. In this connection I am to state, for the information of the Governor in Council, that in a recent case the Secretary of State deprecated the grant of scholarship allowances in excess of the ordinary rates as likely to give rise to jealousies and to tend towards unnecessary levelling up, and he suggested that, unless there was some substantital reason for special rates of allowance, they should be avoided. As the local Government are aware (vide correspondence ending with their telegram No.379, dated the 27th August 1918), the Secretary of State has recently sanctioned the grant of a war bonus of 15% to holders of scholarships of £200 per annum, and in view of this decision they will perhaps consider it advisable to revise the rate of allowance proposed in the present case.

I have the honour to be,

Sir,

Your most obedient servant,

W. Macleay

Secretary to the Government of India.

Memo. 2106-B1 D 21.10.18

With reference to his letter

Re No. 1368/18 D the 2-5-18 recommending the award of scholarships to two lady graduates to undergo a degree course in Science in a British University, D.P. is informed that the lady students if they are granted passports, can travel ^(to England) in the present circumstances only via the Pacific Canada and the Atlantic - a long, costly and uncertain journey - and he is requested to report whether these ^(ladies selected) are likely to undertake the journey by that route.

2. As regards the value of the scholarships (£250) it is observed that it is higher than that of the two regular scholarships which the Govt of India have instituted to enable lady students to prosecute

Sanction has also been recently accorded ^(by the Secy of State) to the grant of a war bonus of 15 p.c. to holders of scholarships of £200 per annum. In view of these considerations, the S.P.D. is requested to state whether the value of the scholarships may be fixed at £200 per annum ~~exclusive of the war bonus~~ or if not, what are the special reasons necessitating the grant of higher rates. ~~It should be stated~~

Sir,

With reference to Government memo No. 2106 B-1 Home (Education) dated 21st October 1918 and in continuation of my letter R C No. 1368/18 dated 2nd May 1918, I have the honour to state that I know of no one in this country whom I can recommend for a scholarship in Physical Science for the Queen Mary's College, Madras and I therefore consider that it would be best to recruit a lady ^{from} ~~for~~ England for that subject. For Natural Science, however, Miss C.K. Kausalya, B.A., L.T., Head Mistress, Government Girls' High School, Cannanore, would be very suitable and it is therefore recommended that a scholarship may be granted to her. She is a Natural Science Graduate and

12
it is believed she would fully justify her selection.

2. Miss Kausalya has been consulted in regard to the 1st para of the Memo under reply and she requests permission to leave India about May next Via the Mediterranean. She hopes that she will then have some friends of hers as fellow travellers.

3. I can see no advantage in her leaving at this time of the year and the postponement of her departure should make it possible for her to go by the cheaper Mediterranean route. It will also be possible to communicate with the India Office and settle details such as the date by which she should reach England and the course she should follow.

4. As for the 2nd para of the memo, the value of the scholarship may be fixed at £200 per annum.

5. In the face of the restrictions set out in paras 1-4 above it seems doubtful whether the circumstances justify the grant of permission to ladies at the present juncture to go to England for training in natural science.

If permission be granted at all, route via the Mediterranean is not permissible; and in view of the orders referred to in para 4 above (at K) the return of the ladies from England after training during the war (assuming that the war will last longer than the training) will not probably be permitted. It is your order whether passports will be given in the present circumstances.

It does not appear that sufficient case has been made for women students may continue to attend the Provisional College.

No attempt seems to have been made to obtain lady lecturer in India.

It is quite certain that no passport via the Mediterranean could be issued; that is restricted to "cases of life + death"

There is no agut private reason + the only issues there for are whether the journey is "undertaken in the national interest" + if so whether the return journey is not liable to be barred by the orders in 90. 10. 24. 2. 1. 1.

Re: the Govt. of India letter received ~~xxxx~~ yesterday, consult Home (Misc.). You will find a steamer S.S. Herefordshire leaving Colombo on 24th. I do not remember if D.P.I. has fixed ^{any} ~~xx~~ particular date for the journey. If not, in advance of circulation, I would telegraph to D.P.I. Refer him to his letter. Suppose the scholarship is only £.200 exclusive of war bonus £.30. Has he got 2 competent ladies. Steamer Herefordshire leaves Colombo 24th October. Will selected ladies be able to travel by that steamer? Also if immediately sent can they be admitted at this season and usefully undergo course. If so, an attempt will be made with India to arrange passages on Herefordshire. Wire reply.

Submitted that the D.P.I. has not fixed any date for the journey. The following telegram may be despatched to the D.P.I. After its despatch, the file may be sent to Home (mis) with reference to the Secy's orders above regarding the granting of pass-ports.

doubtful if accommodation can be
secured for the two lady students,
even if the D.P.S. selects suitable
candidates, inasmuch as India has
telegraphed that there are more
applications for passage by E.S.

question may be considered when
the nominees are known and their
readiness to go by E.S. Herefordshire.

The Home (mis) Deptth states that no accom-
modation is available on Herefordshire and the
D.P.O. states that he is unable to select the ladies
in time to travel by that steamer.

2. The next question for consideration is whether the scheme of scholarships may be approved and if so, whether the value of the scholarships may be fixed at £200 a year exclusive of the war bonus of £30. Usually free passage is allowed to the scholarship holders. The same concession may be shown in this case and the sanction of the Eec. of State obtained to the scheme as stated in para 2 of the Govt. of India letter on page 9 C.P.

p. 13, c.f.

The D.P.I. reports that no suitable Indian lady graduate is available for a scholarship in Physical Science. Miss. C.K.Kausalya, headmistress of the Government girls' secondary school at Cannanore, is recommended for the scholarship in Natural Science. She is a B.A. & L.T., and has put in nearly six years' service in the Department and is now in receipt of a pay of Rs.130 per mensem in the scale of Rs.125-5-150 per mensem. Her nomination may be accepted.

para 4 - p. 14, c.f.

2. The question of emoluments to be allowed to her while on deputation has next to be considered. It is clearly inadequate to fix it with reference to Article 85 of the Civil Service Regulations which limits the deputation allowance to 2/3 of the Indian salary of the officer deputed. The local Government first recommended the grant of a stipend of £.250/- per annum; but the Govt. of India suggested the payment of a stipend of £.200/- per annum exclusive of the 15 % war bonus sanctioned in G.O. No.1089 Edn., dated 27-8-18 for State scholars drawing £.200 per annum and the D.P.I. now ^{agrees} ~~proposes~~ to fix it at £.200. Submitted that this rate may be accepted

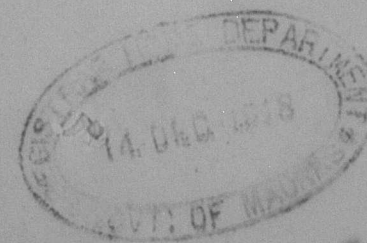

3. It is not, however, clear who should bear the tuition fee of the stipendiary. In the scheme approved for training selected members of the P.E.S. and S.E.S. by deputing them to study the educational systems of England and other countries, it has been agreed that the stipend ranging from £.150 to £.200 should be over and above the tuition fee, if any,

that may have to be paid to obtain the requisite training - vide para 3 of the scheme at p.5. of G.O. No.1321 Edn. dated 8th December 1916. The same para contemplates also certain other concessions relating to leave and leave allowances, pension &c. The D.P.I. may be requested U.O. to state whether these concessions or any of them should be allowed to Miss Kausalya and also to examine the question of the incidence of the tuition fee.

This Kausalya is not eligible for either privilege leave or family leave. But the period of her deputation should be made to count towards for promotion, pension &c. The tuition fee may be paid by the State in addition to the scholarship of Rs. 200. I do not think that the privilege of deputation has been mentioned. I consider that your suggestion in the case of Miss Kausalya is not sufficient.

I am directed to invite a reference to the correspondence ending with your letter No. 844, dated the 1st October 1918 on the subject of the deputation of two ladies from this Presidency to undergo training in a British University with a view to fit them to be Professors in Science in the Queen Mary's College for women, Madras, and to request that, as the restrictions in respect of ladies travelling overseas from India have since been withdrawn in pursuance of Foreign Department telegram No. 2210-G, dated the 22nd November 1918, the question of the proposed deputation may now be taken up for consideration.

2. As stated in ^{my} ~~Divan Bahadur R. Rama-~~
~~chandra Rao's~~ letter No. 1154/B-4, dated the 6th August 1918, the original intention of the Govt. in Council was to select two ladies of distinction - one to specialise in Physical Science and the other in Natural Science. Enquiries since made go, however, to show that no suitable Indian lady graduate is available ^{at present} in this Presidency to take up a course in Physical Science.

2. The draft letter to the Secy. of the Govt. of India is being prepared.
3. The reference to para. 3 of the letter is being made.

~~XXXXXXXXXXXX~~ The scope of the present reference is therefore restricted to the deputation of a single lady to undergo a degree course in Natural Science in a British University.

3. After a careful consideration, the local Govt. propose to depute ~~that~~ Miss C. K. Kausalya, head mistress of the Govt. Secondary School for girls at Cannanore, for the degree course in Natural Science. Miss Kausalya, who belongs to the Tiyya community of the Malabar district, is a graduate in Arts of the Madras University with Natural Science for her optional subject and also a Licentiate in Teaching. She is about 28 years old, has put in a service of over five years in the Educational Dept. and is now in receipt of a salary of Rs. 150 p.m. H.E. the Governor in Council has no doubt that her British training will be distinctly in the interests of women's education in this part of India.
