NOTES.

Home Education

The demands noted on page 3 ante 3.42 lakhs for secondary and 2.23 lakhs elementary schools against the provision of lakhs for secondary and one lakh for school buildings to be entered in the budget. ~~On the other hand~~ The Director has suggested which of the works may be so as to bring the total cost within available amount.

2. ~~The above~~ Secondary schools -

applications received in respect of items no. 3 to 5 have already been noted for consideration when funds become available. In regard to item no. 5, the Municipal Council of Adoni has been specially asked to obtain sanction of the Superintending Engineer for the plan and estimates and to address the Govt. again in the current month. These items may therefore be retained. The last item - Board Secondary School at Tiruthurai Pundi (Rs. 92,000) - may perhaps be omitted. The net cost of the Municipal High School Bellary is borne from Provincial funds and in view of the unfavourable condition of the Municipal finances, a major portion, if not the whole of the cost ~~may~~ <sup>may</sup> be ~~omitted~~ <sup>omitted</sup>.

(J) 3. Elementary schools.- From para. of the Director's letter on page 1 of f.o no. 709 dated 29<sup>th</sup> May 1917, it is observed that the northern districts have not ~~apparently~~ <sup>adequately</sup> been benefited by the similar provision made in the current year's budget, the reason being that no applications have been received from them. The demands noted on page 3 ante also relate to the Southern district except ~~one~~ in regard to one item. At the meeting of the Legislative Council held in November 1917, an additional Member <sup>C.M.A. Suryanarayana Rao, Ponnur</sup> from the northern districts enquired ~~and~~ on what principles the distribution in the current year (in f.o no. 709 of 29.5.17) was based; he was told that it was ~~not~~ fixed with reference to the applications received from local bodies. In these circumstances it appears desirable to call for specific proposals in this regard from the northern districts.

It will be seen that the proposed grant of Rs. 14,000 in the case of item <sup>(page 7 ante)</sup> (II) is only an instalment and that the bulk of the cost will have to be borne by Govt. (vide M on page 4 ante). Attention is solicited to Financial H.M.'s remarks extracted on page 1 ante.

Again, in the case of the remaining items - (i) and (iii) to (vi)<sup>iv</sup> - Home (Educ) propose that Provincial funds should bear the entire cost. No information is available as to whether the financial condition of the local bodies concerned will not permit of their bearing a portion of the cost. In the circumstances it is submitted for orders whether the sum of 1.50 lakhs for Secondary school buildings

In his note of the 3<sup>rd</sup> with the Director stated that in the absence of detailed plans and estimates he could give tentative lists. It is not likely therefore that any further reference to the D.P.T. would elicit additional information. Moreover he cannot advise as to the financial ability of the local bodies to bear any portion of the expenditure involved. It is therefore for consideration whether the file may be sent to L.M. with the request that they will furnish information as to the preparation of plans & estimates for the works, their necessity and comparative urgency, and also examine their financial ability to bear any and if so, what portion of the cost of the works.

The difference between total cost

Even if the whole falls on Provincial funds,  
there will be enough funds in 1919-20. Home

The Council's budget for 1918-19 closes with a minus balance after making provision for plague charges with reference to the plague estimates separately accepted by Govt. In these circumstances it is not possible for any portion of the estimated cost of extension (Rs 18,000) to be met from municipal funds.
