Through The Director of Public Instruction, Madras,
and
Through The Principal, Government College, Mangalore,

The humble memorial of T.A.Ramaiya, M.A.,L.T.,
Ag. First Assistant,
Government College,
Mangalore.

MOST RESPECTFULLY SHOWETH:

1. That the memorialist is a member of the Subordinate Educational Service Collegiate Branch, and has served in the Department for six years. & seven months.

2. That the present scale of Salaries of this service is 100, 125, 150, 175, 200 by a graded system of promotion and that this pay is inadequate for a decent life in these days and leaves absolutely no margin for equipping himself with the necessary facilities to keep himself up to date in his special branch of knowledge which is essential for the proper discharge of his duty.

3. That, while, in view of the altered economic conditions, temporary relief has been given to some members of the Indian and Provincial Educational Services, and a new and liberal scale of salaries has just been sanctioned for the members of the Indian Educational Service. nothing has been done to the Officers of the Subordinate Educational Service Collegiate Branch, though they are the men whom high prices have hit much the harder.

4. That the officers belonging to similar services in Bombay and the United Provinces are started on Rs. 150 and a considerable proportion of the M. A.'s and M. Sc's in Bengal are directly recruited into the Provincial Educational Service.

5. That, while the proportion of the number of officers in the Provincial Educational Service to that in the Subordinate Educational Service, Collegiate Branch, in Bengal and other Provinces is 3:2, in Madras it is 2:5 when the First Grade Colleges alone are taken into consideration and nearly as low as 1:3 when both First and Second Grade Colleges are taken together, this proportion falling further still in certain subjects when each is considered by itself.

6. That the members of the Subordinate Educational Service, Collegiate Branch, possess the qualifications for direct recruitment into the Provincial Educational Service, as recommended by the Public Services Commission, that the work done by the members of the two services is of the same nature and that the memorialist is credibly informed that this was testified to by the Principals of Government Colleges when the members of the Subordinate Educational Service, Collegiate Branch, had the occasion to present a memorial to His Excellency, Lord Pentland in 1912.

7. That, in the absence of a time scale under the existing system and owing to the time-honoured rule that the Chief Lecturer and his Assistants in the same College cannot be in the Provincial Educational Service, many of the senior members of the Subordinate Service are compelled to wait, for over a dozen years, to secure a place in the Provincial Educational Service while a few, considerably their juniors, find themselves in the Provincial Educational Service far earlier as promotions go by vacancies in subjects and not by the officers' experience and length of service.

8. That, in some cases, it also happens that, when a long expected vacancy arises, the vacant place is filled up by direct recruitment.

9. The memorialist therefore prays :—

(*a*) that the present Subordinate Educational Service Collegiate Branch, may be given a time scale of Rs. 150—25 (annual) Rs. 250 and called the Probationary Provincial Service Collegiate Branch,

(*b*) that at the end of five years, each member of the Probationary class be automatically taken into the Provincial Educational Service,

~~and~~ (*c*) that the benefit of the revised scale of pay and promotions be given to the existing officers of the Subordinate Educational Service, Collegiate Branch in proportion to the length of their Service in the Department.

and (*d*) that an ad Interim P. A. of Rs. 50 with effect from 1.4.19 be granted immediately.

For this act of kindness, your Excellency's humble memorialist will ever pray

MOST RESPECTFULLY SHOWETH:

1. That the memorialist is a member of the Subordinate Educational Service Collegiate Branch, and has served in the Department for 6 years. nearly

2. That the present scale of Salaries of this service is 100, 125, 150, 175, 200 by a graded system of promotion and that this pay is inadequate for a decent life in these days and leaves absolutely no margin for equipping himself with the necessary facilities to keep himself up to date in his special branch of knowledge which is essential for the proper discharge of his duty.

3. That, while, in view of the altered economic conditions, temporary relief has been given to some members of the Indian and Provincial Educational Services, and a new and liberal scale of salaries has just been sanctioned for the members of the Indian Educational Service, nothing has been done to the Officers of the Subordinate Educational Service Collegiate Branch, though they are the men whom high prices have hit much the harder.

4. That the officers belonging to similar services in Bombay and the United Provinces are started on Rs. 150 and a considerable proportion of the M. A.'s and M. Sc's in Bengal are directly recruited into the Provincial Educational Service.

5. That, while the proportion of the number of officers in the Provincial Educational Service to that in the Subordinate Educational Service, Collegiate Branch, in Bengal and other Provinces is 3:2, in Madras it is 2:5 when the First Grade Colleges alone are taken into consideration and nearly as low as 1:3 when both First and Second Grade Colleges are taken together, this proportion falling further still in certain subjcets when each is considered by itself.

6. That the members of the Subordinate Educational Service, Collegiate Branch, possess the qualifications for direct recruitment into the Provincial Educational Service, as recommended by the Public Services Commission, that the work done by the members of the two services is of the same nature and that the memorialist is credibly informed that this was testified to by the Principals of Government Colleges when the members of the Subordinate Educational Service, Collegiate Branch, had the occasion to present a memorial to His Excellency, Lord Pentland in 1912.

7. That, in the absence of a time scale under the existing system and owing to the time-honoured rule that the Chief Lecturer and his Assistants in the same College cannot be in the Provincial Educational Service, many of the senior members of the Subordinate Service are compelled to wait, for over a dozen years, to secure a place in the Provincial Educational Service while a few, considerably their juniors, find themselves in the Provincial Educational Service far earlier as promotions go by vacancies in subjects and not by the officers' experience and length of service.

8. That, in some cases, it also happens that, when a long expected vacancy arises, the vacant place is filled up by direct recruitment.

9. The memorialist therefore prays :—

(*a*) that the present Subordinate Educational Service Collegiate Branch, may be given a time scale of Rs. 150—25 (annual) Rs. 250 and called the Probationary Provincial Service Collegiate Branch,

(*b*) that at the end of five years, each member of the Probationary class be automatically taken into the Provincial Educational Service,

and (*c*) that the benefit of the revised scale of pay and promotions be given to the existing officers of the Subordinate Educational Service, Collegiate Branch in proportion to the length of their Service in the Department.

For this act of kindness, your Excellency's humble memorialist will ever pray

4. That the officers belonging to similar services in Bombay and the United Provinces are started on Rs. 150 and a considerable proportion of the M. A.'s and M. Sc's in Bengal are directly recruited into the Provincial Educational Service.

5. That, while the proportion of the number of officers in the Provincial Educational Service to that in the Subordinate Educational Service, Collegiate Branch, in Bengal and other Provinces is 3:2, in Madras it is 2:5 when the First Grade Colleges alone are taken into consideration and nearly as low as 1:3 when both First and Second Grade Colleges are taken together, this proportion falling further still in certain subjcets when each is considered by itself.

6. That the members of the Subordinate Educational Service, Collegiate Branch, possess the qualifications for direct recruitment into the Provincial Educational Service, as recommended by the Public Services Commission, that the work done by the members of the two services is of the same nature and that the memorialist is credibly informed that this was testified to by the Principals of Government Colleges when the members of the Subordinate Educational Service, Collegiate Branch, had the occasion to present a memorial to His Excellency, Lord Pentland in 1912.

7. That, in the absence of a time scale under the existing system and owing to the time-honoured rule that the Chief Lecturer and his Assistants in the same College cannot be in the Provincial Educational Service, many of the senior members of the Subordinate Service are compelled to wait, for over a dozen years, to secure a place in the Provincial Educational Service while a few, considerably their juniors, find themselves in the Provincial Educational Service far earlier as promotions go by vacancies in subjects and not by the officers' experience and length of service.

8. That, in some cases, it also happens that, when a long expected vacancy arises, the vacant place is filled up by direct recruitment.

9. The memorialist therefore prays :—

(*a*) that the present Subordinate Educational Service Collegiate Branch, may be given a time scale of Rs. 150—25 (annual) Rs. 250 and called the Probationary Provincial Service Collegiate Branch,

(*b*) that at the end of five years, each member of the Probationary class be automatically taken into the Provincial Educational Service,

and (*c*) that the benefit of the revised scale of pay and promotions be given to the existing officers of the Subordinate Educational Service, Collegiate Branch in proportion to the length of their Service in the Department.

For this act of kindness, your Excellency's humble memorialist will ever pray

MOST RESPECTFULLY SHOWETH:

1. That the memorialist is a member of the Subordinate Educational Service ~~Collegiate Branch~~, and has served in the Department for 3 years.

2. That the present scale of Salaries of this service is 100, 125, 150, 175, 200 by a graded system of promotion and that this pay is inadequate for a decent life in these days and leaves absolutely no margin for equipping himself with the necessary facilities to keep himself up to date in his special branch of knowledge which is essential for the proper discharge of his duty.

3. That, while, in view of the altered economic conditions, temporary relief has been given to some members of the Indian and Provincial Educational Services, and a new and liberal scale of salaries has just been sanctioned for the members of the Indian Educational Service. nothing has been done to the Offic rs of the Subordinate Educational Service Collegiate Branch, though they are the men whom high prices have hit much the harder.

4. That the officers belonging to similar services in Bombay and the United Provinces are started on Rs. 150 and a considerable proportion of the M. A.'s and M. Sc's in Bengal are directly recruited into the Provincial Educational Service.

5. That, while the proportion of the number of officers in the Provincial Educational Service to that in the Subordinate Educational Service, Collegiate Branch, in Bengal and other Provinces is 3:2, in Madras it is 2:5 when the First Grade Colleges alone are taken into consideration and nearly as low as 1:3 when both First and Second Grade Colleges are taken together, this proportion falling further still in certain subjects when each is considered by itself.

6. That the members of the Subordinate Educational Service, Collegiate Branch, possess the qualifications for direct recruitment into the Provincial Educational Service, as recommended by the Public Services Commission, that the work done by the members of the two services is of the same nature and that the memorialist is credibly informed that this was testified to by the Principals of Government Colleges when the members of the Subordinate Educational Service, Collegiate Branch, had the occasion to present a memorial to His Excellency, Lord Pentland in 1912.

7. That, in the absence of a time scale under the existing system and owing to the time-honoured rule that the Chief Lecturer and his Assistants in the same College cannot be in the Provincial Educational Service, many of the senior members of the Subordinate Service are compelled to wait, for over a dozen years, to secure a place in the Provincial Educational Service while a few, considerably their juniors, find themselves in the Provincial Educational Service far earlier as promotions go by vacancies in subjects and not by the officers' experience and length of service.

8. That, in some cases, it also happens that, when a long expected vacancy arises, the vacant place is filled up by direct recruitment.

9. The memorialist therefore prays :—

(*a*) that the present Subordinate Educational Service Collegiate Branch, may be given a time scale of Rs. 150—25 (annual) Rs. 250 and called the Probationary Provincial Service Collegiate Branch,

(*b*) that at the end of five years, each member of the Probationary class be automatically taken into the Provincial Educational Service,

and (*c*) that the benefit of the revised scale of pay and promotions be given to the existing officers of the Subordinate Educational Service, Collegiate Branch in proportion to the length of their Service in the Department.

For this act of kindness, your Excellency's humble memorialist will ever pray

To

His Excellency the Right Honourable
Sir Freeman Freeman-Thomas,
Baron Willingdon of Ratton, G.C.S.I., G.C.I.E., G.B.E.,
Governor of Fort St. George.

Through

The Director of Public Instruction, Madras.

The humble memorial of

S. Venkatachariar, M.A., L.T.
University medalist in Economics, Asst. Lecturer in History
Government College, Kumbakonam.

MOST RESPECTFULLY SHOWETH:

1. That the memorialist is a member of the Subordinate Educational Service Collegiate Branch, and has served in the Department for four years.

2. That the present scale of Salaries of this service is 100, 125, 150, 175, 200 by a graded system of promotion and that this pay is inadequate for a decent life in these days and leaves absolutely no margin for equipping himself with the necessary facilities to keep himself up to date in his special branch of knowledge which is essential for the proper discharge of his duty.

3. That, while, in view of the altered economic conditions, temporary relief has been given to some members of the Indian and Provincial Educational Services, and a new and liberal scale of salaries has just been sanctioned for the members of the Indian Educational Service, nothing has been done to the Officers of the Subordinate Educational Service Collegiate Branch, though they are the men whom high prices have hit much the harder.

4. That the officers belonging to similar services in Bombay and the United Provinces are started on Rs. 150 and a considerable proportion of the M. A.'s and M. Sc's in Bengal are directly recruited into the Provincial Educational Service.

5. That, while the proportion of the number of officers in the Provincial Educational Service to that in the Subordinate Educational Service, Collegiate Branch, in Bengal and other Provinces is 3:2, in Madras it is 2:5 when the First Grade Colleges alone are taken into consideration and nearly as low as 1:3 when both First and Second Grade Colleges are taken together, this proportion falling further still in certain subjects when each is considered by itself.

6. That the members of the Subordinate Educational Service, Collegiate Branch, possess the qualifications for direct recruitment into the Provincial Educational Service, as recommended by the Public Services Commission, that the work done by the members of the two services is of the same nature and that the memorialist is credibly informed that this was testified to by the Principals of Government Colleges when the members of the Subordinate Educational Service, Collegiate Branch, had the occasion to present a memorial to His Excellency, Lord Pentland in 1912.

7. That, in the absence of a time scale under the existing system and owing to the time-honoured rule that the Chief Lecturer and his Assistants in the same College cannot be in the Provincial Educational Service, many of the senior members of the Subordinate Service are compelled to wait, for over a dozen years, to secure a place in the Provincial Educational Service while a few, considerably their juniors, find themselves in the Provincial Educational Service far earlier as promotions go by vacancies in subjects and not by the officers' experience and length of service.

8. That, in some cases, it also happens that, when a long expected vacancy arises, the vacant place is filled up by direct recruitment.

9. The memorialist therefore prays:—

(*a*) that the present Subordinate Educational Service Collegiate Branch, may be given a time scale of Rs. 150—25 (annual) Rs. 250 and called the Probationary Provincial Service Collegiate Branch,

(*b*) that at the end of five years, each member of the Probationary class be automatically taken into the Provincial Educational Service,

and (*c*) that the benefit of the revised scale of pay and promotions be given to the existing officers of the Subordinate Educational Service, Collegiate Branch in proportion to the length of their Service in the Department.

For this act of kindness, your Excellency's humble memorialist will ever pray

B The D.P.I. has not made any definite recommendation but has simply suggested that the reorganisation of the service may be taken up along with or immediately after that of the P.S.S. In the file relating to the memorials from Sub-Asst Inspns of Schools, the D.P.I. has stated that he will take up the consideration of a quasi-permanent reorganisation of each branch of the service as soon as orders are passed on the reorganisation of the higher branches of
